Manifesting your desires has never been easier with New York Times bestselling author Christy Whittman's newest book, The Desire Factor, which offers the tools for you to find happiness, abundance, and success. The Desire Factor proves that desire is the force behind every act of creation, and it is the mechanism through which everything in this boundless spirit world is formed. Manifesting your desires is not in acquiring our desires; it is the people we become in the process of allowing our desires to move through us. The skills, the strengths, and the character traits we develop in the process of manifesting our desires stay with us always. The Desire Factor unfolds the precise steps for bringing about the manifestation of your desires. Christy Whittman's advice and learn to lean into prosperity and abundance.

An accessible guide to the principles of success by one of the most respected and sought-after motivational speakers of our time. In the tradition of Og Mandino and Zig Ziglar, this inspirational guide uses a wide variety of subjects, from "Achievement" to "Worry," to bring clarity, information, and motivation to readers. For millions of readers, Bob Proctor's name is synonymous with the concept of personal development pioneer Earl Nightingale. Proctor first built a wildly successful business career, and then an internationally successful speaking career, elaborating on the principles of Napoleon Hill's Think and Grow Rich and other classic success and prosperity texts. Proctor's position in the business motivation community equals that of Stearns and is not the case with those masters, his books have never been available to the general public—until now! In The ABCs of Success—the first trade book ever published by this master of motivation and prosperity—Proctor goes beyond the simple laws of success and attraction, weighing in on sixty-seven different topics essential to all those who wish to make their dreams a reality. Persistence, working, effectiveness, and vision. Organized in A-to-Z fashion and composed of brief essays that can be read over and over. The ABCs of Success is an essential resource for anyone who wants the combined wisdom of a century of success thinking in a single, accessible volume.

A Silicon Valley entrepreneur shares his off-beat tips for success in business and life—so you can get to the real treasure of the work you were meant to do Have you ever wished you had a wise mentor who could tell you where to go next in your career or your life? Do you want an Obi-Wan Kenobi-type figure to guide you toward the right people and the right place? Sabir, Rizwan Virk—a Silicon Valley entrepreneur and investor—has plenty of tips and tricks that can help you achieve the success, happiness, and fulfillment you crave. In Treasure Hunt, Virk reveals how you can tune into the messages that are all around us. These messages—which take the form of synchronicity, hunches, gut feelings, visions, experiences of déjà vu—more—are like clues in our own personal "Treasure Hunt." Whether these clues come from our "inner mentor," our "future selves," or our spiritual guides, they can help us to uncover our hidden "Treasure Map," which shows us the work we were meant to do in this life and how to get there. Virk also introduces the "Clue Lifecycle" and how using it can provide concrete steps to success.

In the past century the borders have blurred between art and design. Designers, artists, aestheticians, curators, art and design critics, historians and students all seem confused about these borders. Figurative painting was reduced to graphic design while still being called "art". Figurative sculpture was reduced to nonfunctional industrial design while being called "art".

resulted from total misunderstanding of the concept of "abstraction" by the founders of modern art. Comprehensive analysis shows that so-called "abstract art" is neither abstract nor art, but a very simple, even trivial, kind of design. In this book the prehistoric, philosophical, logical, historic and religious sources of the confusion between art and design are analyzed. A framework is proposed, to distinguish between art and design. Nearly one hundred distinctions, contradictions and comparisons between art and design are presented, showing clearly that they are totally independent domains. Philosophy of art books are written by philosophers, not for artists and designers; therefore they are irrelevant for the artist and designer. The book back the concept of "art training". This book is not only for theoreticians but for art and design practitioners at all levels. This is a new kind of book: an image-oriented philosophical book for the art and design world, which makes philosophical knowledge accessible and useful for solving real problems for designers and artists who are mostly visual rather than verbal.

The book contains over two hundred images: thus art and design people can easily follow the arguments and reasoning presented in this book in their own language: images. Lack of distinction between art and design harms both. Design is contaminated by the ills of modern art, while modern art, while modern art cannot recover from its current stagnation whilst under the illusion that Why do we keep getting the same jobs, taking on the same relationships, and finding ourselves in the same emotional traps? Dr. Joe Dispenza not only teaches why people tend to repeat the same negative behaviors, he shows how readers can release themselves from these patterns of disappointment. With the dynamic combination of science and accessible how-to-use the most important tool in ones body and life—the brain. Featured in the underground smash hit of 2004, "What the Bleep Do We Know?!", Dispenza touched upon the brain's ability to become addicted to negative emotions. Now, in his empowering book Evolve Your Brain he explains how new thinking and new beliefs can literally rewire one's brain to change behavior. The book shows how to break old habits and form new ones. Most people are unaware of how addicted they are to their emotions, and how the brain perpetuates those addictions automatically. In short, we become slaves to our emotional addictions without even realizing it. By observing our patterns of thought, and learning how to "re-wire the brain" with new thought patterns, we can break the cycle of our own self-destructive behavior.

In this original and groundbreaking book, Dr Andrew Newberg and Mark Robert Waldman turn their attention to the pinnacle of the human experience: enlightenment. Through his brain-scan studies on Brazilian psychic mediums, Sufi mystics, Buddhist meditators, Franciscan nuns, Pentecostals, and participants in secular spirituality rituals, Newberg has found the specific neurological mechanisms responsible for an enlightenment experience - and how we can activate those circuits in our own brains. In his survey of more than one thousand people who have experienced enlightenment, Newberg has also discovered that in the aftermath they have had profound, positive life changes. Enlightenment offers us the possibility to become permanently less stress-prone, to break bad habits, to improve our collaboration and creativity skills, and to lead happier, more satisfying lives. Relaying the story of his own transformational experience as well as including the stories of others who try to describe an event that is truly indescribable, Newberg brings us a new paradigm for deep and lasting change.

Combining a decade of clinical experience with cutting-edge research, two acclaimed leaders in the field of psychology have developed a revolutionary approach to happiness—one that ' s accessible and practical enough to apply at home, yet powerful enough to create a profoundly positive transformation in our lives. Doctors George Pratt and Peter Lambru have been delivering successful results to professional athletes, top executives, celebrities, and nearly 45,000 other patients with their four-step process. Now, their revolutionary solution will help readers identify and diffuse the negative " blocking beliefs " that are standing between them and the happiness they want to achieve.

Public speaker, transformative teacher, and CEO of Peak Potentials, Adam Markel has been inspiring people to find their best work for years. Now, for the first time, he presents his practical program for people who are looking to reinvent themselves. Here ' s how to " get in touch with your real self, decide exactly who you are and what you want, and make your life into a masterpiece. " " raves Brian Tracy, author of The Power of Self-Confidence. Whether you are out of work or want to change where you are now, Pivot inspires you on a cellular level to make lasting life changes possible. This seminal guide to successfully changing your life for the better provides stories, prompts, clear step-by-step exercises, and calls to actions throughout. You ' ll follow the steps of career reinvention: Creating a Vision, Getting Clear, Having a Definite Plan, Thinking Boldly, Relentless Focus, Support, and Spiritual Practice. By changing self-limiting beliefs—the internal pivot to finding clarity about what you want—you can effectively deal with the mental and emotional obstacles that normally stop you from reaching your career goals. Based on his own personal story and the success of thousands of students, Markel provides a clear and applicable program perfect for " taking charge of your life and realizing your potential " (Sharon Luchter, author of Think and Grow Rich for Women).

Please note: This is a companion version & not the original book. Sample Book Insights: #1 Your brain is one of the most complex life forms in the known universe. It runs all your organs and regulates your temperature, and it controls your muscles and your digestive system. It keeps your heart beating, your eyes moving, and your hair growing. #2 It can be difficult to achieve goals, and this is because taking action and moving toward them consistently even when things go wrong is difficult. #3 Your brain has two principles that help it evolve: safety and efficiency. The brain must keep you safe and be efficient with energy, because it needs to survive and pass on its improvements to the next generation. #4 Your life is largely on autopilot. This is called automaticity, and it's why you keep getting the same results. When you think, feel, and act the same way, your life turns out the same way.

A deep dive into the underlying cellular cause of chronic fatigue, burnout, and brain fog, with a framework for restoring cognitive function, alertness, and an abundance of energy. Chronic fatigue, burnout, brain fog—no matter what we call it, our constant feeling of being drained affects all that we hold dear. There are very real culprits of fatigue, and they don't lie in our preconceived notions of caffeine intake or adrenal fatigue, nor does the replenishment of our energy lie in overhauling our lifestyle in time-consuming and unrealistic ways. Instead, the core underlying cause lies in our cells, specifically our mitochondrial deficiency, and the solution can be found in simple, straightforward, nutritional strategies that address our body's biology. Ari Whitten, functional health practitioner and creator of The Energy Blueprint program, takes you on a deep dive of our cellular energy centers, illuminating the clear nutritional methodologies and specific foods, supplements, and compounds you can use to: · Get better sleep · Lower your blood pressure · Help stabilize your blood sugar levels · Lose excess weight · Improve memory and concentration · Increase mental well-being Get your body out of defense mode and into a state of optimal performance to live at the peak of your energy, brain function, mood, and health.

Good reasoning can lead to success; bad reasoning can lead to catastrophe. Yet, it's not obvious how we reason, and why we make mistakes - so much of our mental life goes on outside our awareness. In recent years huge strides have been made into developing a scientific understanding of reasoning. This new book by one of the pioneers of the field, Philip Johnson-Laird, looks at the mental processes that underpin our reasoning. It provides the most accessible account yet of the science of reasoning. We can all reason from our childhood onwards - but how? 'How we reason' outlines a bold approach to understanding reasoning. According to this approach, we don't rely on the laws of logic or probability - we reason by thinking about what's possible, we reason by seeing what is common to the possibilities. As the book shows, this approach can answer many of the questions about how we reason, and what causes mistakes in our reasoning that can lead to disasters such as Chernobyl. It shows why our irrational fears may become psychological illnesses, why terrorists develop "crazy" ideologies, and how we can act in order to improve our reasoning. The book ends by looking at the role of reasoning in the three extraordinary case histories: the Wright brothers' use of analogies in inventing their flyer, the cryptanalysts' deductions in breaking the German Enigma code in World War II, and Dr. John Snow's inductive reasoning in discovering how cholera spread from one person to another. Accessible, stimulating, and controversial, How We Reason presents a bold new approach to understanding one of the most intriguing facets of being human.

Are you like so many people who have tried unsuccessfully to attain your goals with a vision board? Vision boards are based on the so-called, law of attraction; like always attracts like. As in the book, The Secret, if you think it and live it, the universe will deliver it to you. Unfortunately, the law of attraction does not work 99.9% of the time. In his thorough and candid analysis, Dr. Farber takes you through a fascinating history of the law of attraction as well as the good, the bad, and the ugly side of vision boards. As a certified "Advanced Law of Attraction Practitioner," Dr. Farber exposes the truth about the law of attraction. He shows how believing in this "law" may be detrimental to your health, inhibit your compassion for others, decrease your motivation, and lessen your chance of achieving goals. This is not just a book about what not to do. This book shows us how to upgrade our vision boards and boost our success by utilizing mind-brain science and positive psychology research. Dr. Farber has the solution to our goal-achieving desires. He introduces us to the "Key to Achieve Principles" and The Action Board goal-achieving system. As the inventor of The Action Board, Dr. Farber is the world's leading expert in this system!

When kindness becomes your primary goal, everything changes: how you look at life, what you get from it, and how others interact with and relate to you. The Profit of Kindness will help you master the art of building trusting, long-lasting relationships through open, nonadversarial interchanges that result in mutually beneficial outcomes. A basic adjustment in attitude and approach can substantially improve virtually every facet of your life. Each chapter provides specific examples for improving skills such as communication, building integrity, team work, influencing others, and more. In order to connect with new clients or future business partners and transform your potential into success, you need to establish trust and build strong relationships. The key is to focus more on giving and working with others rather than simply on "winning." Because doing so is guaranteed to help you actually win. The Profit of Kindness is a practical guide that teaches you how to connect with others using the global asset known as kindness. You will learn: Kindness does not mean weakness. Kindness can help you stay competitive, anticipate pitfalls, and stay one step ahead of your rivals. Success, achieved through kindness, can indeed be yours.

"This book was a game changer for me. You will understand "anxiety" in a totally new way - a way that empowers and releases you from it! Brilliant book!" Poppy Jamie, author of Happy Not Perfect 90 Seconds to a Life You Love follows a simple formula: 1 choice, 8 feelings, 90 seconds. This book teaches you that if you choose to be fully present and aware when you experience unpleasant feelings. If you choose not to block or avoid these difficult emotions with alcohol, food, or denial. If you ride through the wave of these feelings, which will only last for 90 seconds, you will build your confidence. It's called the Rosenberg Reset and it will change your life. You will move through these emotions successfully, be better equipped to handle unpleasant feelings in the future and put yourself on the path to resilience, emotional strength, positive self-esteem and rock solid confidence. 90 Seconds to a Life You Love shares the only neuroscience-based approach that shows readers how to achieve emotional strength and confidence. Joan's approach is simple, practical, and effective. It represents a significant breakthrough on the path to success. If you want unwavering confidence to pursue your goals and dreams, then this will guide you to it." Jack Canfield, co-author of the Chicken Soup for the Soul series and The Success Principles "90 Seconds to a Life You Love is a must-read. Imagine what would happen in your life if you had unwavering self-esteem and greater emotional strength. This book is the roadmap, and Dr. Joan is the perfect guide." Brendon Burchard, author of The Motivation Manifesto, The Charge, and The Millionaire Messenger "Her ethos is simple: if you sit with an unpleasant or painful emotion for 90 seconds, keeping it in your mind without distractions, you will essentially "ride it out." - Metro Master networker Joe Sweeney shares his networking secrets from a long and successful career as a business owner, sports agent and executive and investment banking consultant. His first secret; master networkers are focused on giving, not getting. With today's difficult economy and uncertain workplace, networking has never been more important. Sweeney's simple but effective 5/10/15 networking plan will give you a leg up in the current job market, help you stay employed, or, if you've been laid off, find your next job. The cliché that who you know is more important than what you know has never been truer. Sweeney illustrates his insights with dozens of helpful examples from his own life (along with a few fascinating insider sports stories).With special sections on networking for women and minorities, insights into the usefulness (and handicaps) of social networking sites, how to get (and why you need) a wingman and profiles of other master networkers, Networking Is a Contact Sport is a practical and essential guide for anyone who wants to get ahead in today's economy.

Work becomes more pleasurable and creativity is increased, enabling the brain to anticipate and solve problems more efficiently. From the cutting edge of brain science to real-world solutions, these exercises help us gain the wisdom that leads to greater fulfillment.

What if there were a way to cut through all the financial mumbo-jumbo? Wouldn't it be great if someone could really explain to us-in plain and simple English-the basics we must know about investing in order to insure our financial freedom? At last, here's good news. Jargon-free and written for all investors-experienced, beginner, and everyone in-between-The Investment Answer distills the process into just five decisions-five straightforward choices that can lead to safe and sound ways to manage your money. When Wall Street veteran Gordon Murray told his good friend and financial advisor, Dan Goldie, that he had only six months to live, Dan responded, "Do you want to write that book you've always wanted to do?" The result is this eminently valuable primer which can be read and understood in one sitting, and has advice that benefits you, not Wall Street and the rest of the traditional financial services industry. The Investment Answer asks readers to make five basic but key decisions to stand the investment odds in their favor. The result is simple, easy-to-follow, and effective, and can lead to a more profitable portfolio for every investor. Specifically: Should I invest on my own or seek help from an investment professional? How should I allocate my investments among stocks, bonds, and cash? Which specific asset classes within these broad categories should I include in my portfolio? Should I take an actively managed approach to investing, or follow a passive alternative? When should I sell assets and when should I buy more? In a world of fast-talking traders who believe that they can game the system and a market characterized by instability, this extraordinary and timely book offers guidance every investor should have.

In a spectacular follow-up to his bestseller, The Habit Factor(), Martin Grunburg illustrates exactly how our environment and, in particular, pressure is an essential ingredient for anyone looking to accelerate their achievements. The majority of people, including some of today's leading experts in psychology and performance, contend that pressure "is the enemy of success." In The Pressure Paradox, Grunburg elucidates precisely the opposite: That when properly harnessed, channeled and "refracted" positively, pressure proves to be one of your greatest allies in your journey toward creating your ideal future. Tradgically, those who struggle the most (mentally, physically, emotionally) often misunderstand the important role pressure plays in their life; it's a supernatural force that is impossible to avoid. Therefore, understanding pressure for its true nature and knowing how to use this force (which is technically neutral) in a positive fashion is arguably one of life's great secrets for goal achievement, peak performance and, of all things, happiness and peace of mind. The Pressure Paradox provides not only keen insight into this timeless force, but practical strategies and tactics that will allow anyone to use pressure positively for their benefit: to produce more, perform better, and enjoy greater harmony, happiness and peace of mind. KEY TAKEAWAYS: Why pressure CANNOT be the enemy of success The natural relationship between pressure and human potential How pressure facilitates problem-solving and creativity How you can positively utilize pressure to your advantage Why pressure is desirable to the greatest athletes What the ZONE is in peak performance & HOW to get there How to tailor your environment to help you forge new habits Why having a "chip on your shoulder" is a huge advantage How pressure directly affects your wellness and peace of mind And much more..."

Please note: This is a companion version & not the original book. Sample Book Insights: #1 You want more control over your choices every day, more free time to spend with your family, a more fulfilling career, more money to enjoy the good things in life, and a better love life. Isn't that why you're reading this book. #2 Positive statements have been used by millions of people to change their lives. However, many people have spent years writing, speaking, and listening to positive statements because that's what they were told to do. #3 Positive statements have been shown to help people achieve their personal and professional goals, but there's just one tiny problem: they don't work if there's something missing. #4 The human mind is an incredibly miraculous thing. It created the computer you are reading these words on, as well as the fields of science, religion, philosophy, and every work of art that has ever existed.

When Fortune Magazine estimated that 70% of all strategies fail, it also noted that most of these strategies were basically sound, but could not be executed. The central premise of Strategic Project Management Made Simple is that most projects and strategies never get off the ground because of adhoc, haphazard, and obsolete methods used to turn their ideas into coherent and actionable plans. Strategic Project Management Made Simple is the first book to couple a step-by-step process with an interactive thinking tool that takes a strategic approach to designing projects and action initiatives. Strategic Project Management Made Simple builds a solid platform upon four critical questions that are vital for teams to intelligently answer in order to create their own strong, strategic foundation. These questions are: 1. What are we trying to accomplish and why? 2. How will we measure success? 3. What other conditions must exist? 4. How do we get there? This fresh approach begins with clearly understanding the what and why of a project - comprehending the bigger picture goals that are often given only lip service or cursory reviews. The second and third questions clarify success measures and identify the risky assumptions that can later cause pain if not spotted early. The how questions - what are the activities, budgets, and schedules - comes last in our four-question system. By contrast, most project approaches prematurely concentrate on the how without first adequately addressing the three other questions. These four questions guide readers into fleshing out a simple, yet sophisticated, mental workbook called "the Logical Framework" - a Systems Thinking paradigm that lays out one's own project strategy in an easily accessible, interactive 4x4 matrix. The inclusion of memorable features and concepts (four critical questions, LogFrame matrix, IF-then thinking, and Implementation Equation) make this book unique.
