text, they incorporate the best of some 15 years of research developments and evidence-based practice in clinical supervision--the cornerstone of professional training in psychology.

Art-Based Supervision is a unique text for graduate supervision classes and seminars as well as a resource for post-graduate supervisors and practitioners. It offers a new view of supervision, one that incorporates both images and words as tools to investigate and communicate the interactions that occur in therapy and in the systems in which clinicians work. The

fundamental principles of supervision provided in the book are useful for anyone interested in exploring the use of images to support reflection, understanding, and empathy in their work. Full-color images further enrich the narrative. In addition to supervision courses, Art-based Supervision may be used for introductory art therapy, psychology, social work, and counseling courses for readers interested in a broad range of intimate examples of the challenges of therapeutic work and the use of response art to grasp nuanced communication. Promoting Cultural Sensitivity in Supervision: A Manual for Practitioners provides a roadmap for practicing and experienced supervisors to promote and integrate cultural sensitivity into the core of their work. This book is organized into four seamless, interrelated sections that are essential to developing a Multicultural Relational Perspective (MRP) in supervision: conceptual, structural, strategies and techniques, and evaluation tools. The Conceptual section provides an overview of the theory that underpins a MRP, and the Structural section provides the reader with two specific strategies for

Ethics and Law for School Psychologists is the single best source of authoritative information on the ethical and legal issues school psychologists face every day.

Designed specifically to meet the unique needs of psychologists in school settings, this book includes the most up-to-date standards and requirements while providing an introduction to ethical codes, ethical decision making, and the legal underpinnings that protect the rights of students and their parents. This new seventh edition has been extensively updated with the latest research and changes to the law, with an increased focus on ethical-legal considerations associated with the use of digital

technologies. Coverage includes new case law on privacy rights, electronic record keeping, the 2014 Standards for Educational and Psychological Testing, digital assessment platforms, the latest interpretations of the Individuals with Disabilities Education Act, and more. Ethics texts for counseling and psychology are plentiful, and often excellent—but this book is the only reference that speaks directly to the concerns and issues specific to psychologists in school settings. Case vignettes, end-of-chapter questions, and discussion topics facilitate deeper insight and learning, while updated instructor's resources bring this key reference right into the classroom. Keeping up with the latest research and legal issues is a familiar part of a psychologist's duties, but a practice centered on children in an educational setting makes it both critical and more complex.
