Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-

step guide shows anyone how to make their bike, or their kid's, handle like a pro's. The book gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Maimonides was the greatest Jewish philosopher and legal scholar of the medieval period, a towering figure who has had a profound and lasting influence on Jewish law, philosophy, and religious consciousness. This book provides a comprehensive and accessible introduction to his life and work, revealing how his philosophical sensibility and outlook informed his interpretation of Jewish tradition. Moshe Halbertal vividly describes Maimonides's childhood in Muslim Spain, his family's flight to North Africa to escape persecution, and their eventual resettling in Egypt. He draws on Maimonides's letters and the testimonies of his contemporaries, both Muslims and Jews, to offer new insights into his personality and the circumstances that shaped his thinking. Halbertal then turns to Maimonides's legal and philosophical work, analyzing his three great books--Commentary on the Mishnah, the Mishneh Torah, and the Guide of the Perplexed. He discusses Maimonides's battle against all attempts to personify God, his conviction that God's presence in the world is mediated through the natural order rather than through miracles, and his locating of philosophy and science at the summit of the religious life of Torah. Halbertal examines Maimonides's philosophical positions on fundamental questions such as the nature and limits of religious language, creation and nature, prophecy, providence, the problem of evil, and the meaning of the commandments. A stunning achievement, Maimonides offers an unparalleled look at the life and thought of this important Jewish philosopher, scholar, and theologian.

This is a great publication about beauty, sensuality, charm, elegance, feminine seduction and more, celebrated through photography.

I checked my rearview mirror for the thousandth time and released a slow breath. Nothing behind me. Seemed I was the only one foolish enough to brave the weather in an attempt to escape. With each blur past my driver side, it meant a new destination, a new start, only to end the same old way. Who am I? Have you ever had to ask yourself that question? Does the answer change often? It does for me. Today, I'm Naomi Perks. Funny. Just yesterday, I was Amber Perkins. A new town, a new name. Might seem strange to most, but it's become routine for me. Naomi Perks is young, vibrant, and sexy with "killer" moves, ready to snatch up the heart and money of the perfect man. But when she meets Ethan, a

handsome jock with a good heart, she becomes conflicted in her desires. Has she finally met the one person who could change her life for the better? But Naomi's not the only one on the fence. Ethan's new friend, Jillian, a beautiful, nerdy, computer geek trying to find herself, has possibly stolen his heart as well. Caught in between, Ethan discovers all these two women have to offer, and he's forced to choose between his heart and his head... One path may lead to his untimely demise. Tarlin Saye's romantic thriller, full of love, passion, and blood, leaves readers with the question: Is seduction convincing someone to follow you? Or making them believe it was their idea to begin with? Find the answer in *Bloody Beautiful*.

"Boulevard" is a visual tale of two disparate cities: Paris and Los Angeles. In the early 1970s Adam Bartos began to use color photography to document the contemporary urban landscape, infusing his images with a quiet calm and finding composition in even the most random corners. He often focused his lens on his native New York and published a monumental series of photographs examining the modern architecture of the United Nations. In the late 1970s and then again in the early 1980s, Bartos traveled to Los Angeles and to Paris. These two influential trips would have a strong and lasting impact upon his vision. And yet, until recently, Bartos had never considered the two cities--or bodies of work--together. In this book, an intriguing dialogue takes place before our eyes. As we venture through the scarcely inhabited hotel rooms, backyards, gas stations, and, inevitably, city streets, we are struck by the graphical relationships, the surprisingly similar color palate between the two. There is a magnetism and repulsion operating here polar opposites--in art and life--that at unexpected moments converge and suddenly attract. Novelist, essayist and travel writer Geoff Dyer examines the two.

This concise work provides a general introduction to the design of buildings which must be resistant to the effect of earthquakes. A major part of this design involves the building structure which has a primary role in preventing serious damage or structural collapse. Much of the material presented in this book examines building structures. Due to the recent discovery of vertical components, it examines not only the resistance to lateral forces but also analyses the disastrous influence of vertical components. The work is written for Practicing Civil, Structural, and Mechanical Engineers, Seismologists and Geoscientists. It serves as a knowledge source for graduate students and their instructors.

A lively gift book, the first in a new series For the Wild at Heart.
