"There is nothing quite like this well-researched book."—Library Journal From early cave drawings to modern corporate logos, graphic symbols have been used to convey meanings both tangible and abstract. In this unique dictionary, Carl G. Liungman puts approximately 2,500 Western graphic symbols at your fingertips. Each entry includes the sign's history, its meanings, and the systems in which it is used. Symbols are cross-referenced to other signs with the same meanings and to structurally similar signs with different meanings. Locating an entry is as easy as looking up a word in a dictionary, due to a system that classifies each sign on the basis of three of its structural features. Enhancing the dictionary is a series of fascinating discussions of various aspects of ideograms. These include a discussion of signs and meanings, an overview of the historical development of signs, as well as sections on ancient American ideograms, the astrological system of symbols, the mystical pentagram, and the signs of the alchemists. Two indexes aid the reader. The Word Index specifies signs with a given name or meaning, along with subject headings. The Graphic Index displays symbols based on their structural features. Dictionary of Symbols serves both as a valuable reference on Western cultural history and as a professional tool for those working in design and the arts.

An in-depth study of the sacred meanings behind ancient and enduring symbols • Explains the multiple

forms and uses of symbols from ancient times to the present day, reflecting their roots in folk magic and the Western Mystery tradition • Examines more than 40 glyphs, such as the cross, fleur de lis, and pentagram, as well as several families of symbols, such as craftsmen's marks and runes • Includes more than 300 unique woodcuts, drawings, calligraphy, and photographs--many never before reproduced From ancient rock and cave art to the contemporary brand logos of politics and business, human beings have always created symbols to denote specific ideas, groups, or important objects as well as to convey deeper information than can be communicated in words. Many glyphs have retained their meanings over millennia whereas some have modern meanings vastly different from the original connotation. In this study of symbols, Nigel Pennick explores glyphs as agents of higher consciousness and ports of access to the collective unconscious, acknowledging the continuity of tradition, both deliberate and not, as well as how interpretations of some symbols, such as the swastika, have changed dramatically. With more than 300 unique woodcuts, drawings, calligraphy, and photographs--many never before reproduced--Pennick examines ancient and enduring glyphs in detail, such as the circle, cross, eye, pentagram, fleur de lis, tree of life, and horseshoe, as well as several families of symbols, such as craftsmen's marks, runes, symbolic beasts, human

heads and skulls, and the sigils of Mammon. The author explains the multiple forms and uses of each from ancient times to the present day, reflecting their roots in the Western Mystery tradition. He explores the symbols of high magic such as the glyph of John Dee's monad, those of folk magic such as the traditional cock on the weather vane, and the creation of modern glyphs such as the peace sign and the anarchy symbol. Contrasting the hi-jacked use of power symbols in modern advertising with the vital role of symbols in traditional arts and crafts, Pennick reveals how symbols link the cosmic with the terrestrial and allow us to infuse the mundane with the numinous.

Our world is constructed out of symbolic abstractions, each with their own assumptions and messages that speak to us on the deepest levels. Some are banal and designed to be obvious. Others are manipulative, like the towering height of a cathedral nave, meant to inspire religious awe. Some are mysterious, occluded, left as messages and signposts to the few who understood, such as the traditional alchemical teachings of the Rose Cross. From the heights of religious art to the cultural depths of gang tattoos, hidden meaning is encoded into every aspect of society. Symbols explores this hidden world, looking at over 100 of the most powerful, evocative, mysterious and exciting of those that are present in the world today.

With their Meanings

Symbols can be as graphic as a cross, square or circle, or they can be conceptual representations of themes such as the soul, resurrection, love or desire. The meaning of these signs and symbols, whether simple icon or abstract concept, is complex and diverse, and depends on many variables. Over 1600 symbols and signs are covered in this comprehensive volume, analysing the definitions and interpretations that have been made across the boundaries of time, culture and tradition. The book discusses how signs and symbols have been interpreted and represented by humanity through thousands of years of art, mythology and religion: from cave paintings and Aboriginal dreamtime to computer iconography; from the Sumerians to the

Rosicrucians; and from the alchemists' Philosopher's Stone to the archetypes of Freud and Jung. With a broad perspective the text brings together psychological, mythological, religious, literary and artistic insights to explore how these concepts can summarize or explain our common and yet diverse human experience. The structure of the book is thematic, so that related symbols are complemented and contrasted, giving a unique guide to their cross-cultural aspects. There are also in-depth features on some of the most important symbols of all, including the wheel, the labyrinth, the cross, the gateway, the snake and the tree of life. Lavishly illustrated with artworks, fine art paintings and contemporary photography, this fascinating book contains a vast source of images and an erudite and informative text that will inform any scholar, seeker, dream-reader, alchemist, magician, psychological historian, astrologer or psychotherapist.

According to the Ancient Egyptian Myth the hieroglyphic script was invented by the God Thoth. We all remember 1,000 distinct characters of formal writing system used by pharaohs. Now, cursive hieroglyphs were used for religious literature on papyrus and wood, this is what researchers now call “the Proto-Canaanite alphabet”, the term used for inscriptions older than around 1050 BC that later evolved into the Phoenician alphabet. Again, lots of countries, governments, scientists, religion leaders wish to claim the invention of the alphabet. What about Vinča's Neolithic (Serbian Danube) pottery scripts also found in China? Vinča's sophisticated carved statues signs, 100s of Canaan letters, Phoenicians Arabic, Ionic, Cyrillic, Aramaic, Chinese, Hebrew.
