Percy Jackson is about to be kicked out of boarding school...again. And that's the least of his troubles. Lately, mythological monsters and the gods of Mount Olympus seem to be walking straight out of the pages of Percy's Greek mythology textbook and into his life. Book #1 in the NYT best-selling series, with cover art from the feature film, *The Lightning Thief*.

Who better to investigate the literary spirit world than the supreme connoisseur of the unexpected, Roald Dahl? His own short stories have teased and twisted imaginations in their millions, but amongst the many permutations of the macabre, Dahl has always felt a special fascination for the classic ghost story. In this book of ghost stories he has selected fourteen of his favourites for this superbly disquieting volume.

A compulsively readable journey into the area of film-making where all writers, directors and stars fear to tread: Development Hell, the place where scripts are written, actors hired and sets designed... but the films rarely actually get made! Whatever happened to *Batman versus Superman*? Why have there been so many scripts written over the years for Steven Spielberg and George Lucas's still in development *Indiana Jones 4*? Why was Lara Croft's journey to the big screen so tortuous, and what prevented Paul Verhoeven from filming what he calls "one of the greatest scripts ever written"? Why did Ridley Scott's *Crisis in the Hot Zone* collapse days away from filming, and were the Beatles really set to star in *Lord of the Rings*? All these lost projects, and more, are covered in this major new book, which features many exclusive new interviews with the writers and directors involved.

THE BESTSELLING AUTHOR OF PITCH ANYTHING IS BACK TO FLIP YOUR ENTIRE APPROACH TO PERSUASION. Is there anything worse than a high-pressure salesperson pushing you to say "yes" (then sign on the dotted line) before you're ready? If there's one lesson Oren Klaff has learned over decades of pitching, presenting, and closing long-shot, high-stakes deals, it's that people are sick of being marketed and sold to. Most of all, they hate being told what to think. The more you push them, the more they resist. What people love, however, is coming up with a great idea on their own, even if it's the idea you were guiding them to have all along. Often, the only way to get someone to sign is to make them feel like they're smarter than you. That's why Oren is throwing out the old playbook on persuasion. Instead, he'll show you a new approach that works on this simple insight: Everyone trusts their own ideas. If, rather than pushing your idea on your buyer, you can guide them to discover it on their own, they'll believe it, trust it, and get excited about it. Then they'll buy in and feel good about the chance to work with you. That might sound easier said than done, but Oren has taught thousands of people how to do it with a series of simple steps that anyone can follow in any situation. And as you'll see in this book, Oren has been in a lot of different situations. He'll show you how he got a billionaire to take him seriously, how he got a venture capital firm to cough up capital, and how he made a skeptical Swiss banker see him as an expert in banking. He'll even show you how to become so compelling that buyers are even more attracted to you than to your product. These days, it's not enough to make a great pitch. To get attention, create trust, and close the deal, you need to flip the script.

"Making a good script great is not just a matter of having a good idea. Nor is it a matter of just putting that good idea down on paper. In scriptwriting, it's not just the writing but also the rewriting that counts. [This book] focuses on the rewriting process and offers specific methods to help you craft tighter, stronger, and more workable scripts. While retaining all the valuable insights that have made the first edition one of the all-time most popular screenwriting books, this expanded, second edition adds new chapters that take you through the complete screenwriting process, from the first draft through the shooting draft. If you're writing your first script, this book will help develop your skills for telling a compelling and dramatic story. If you're a veteran screenwriter, this book will articulate the skills you know intuitively. And if you're currently stuck on a rewrite, this book will help you analyze and solve the problems and get your script back on track."--Back cover.

From the author of the films *Lake Dead*, (*After Dark* Film's *8 Films to Die For*) and *Farmhouse*, Daniel P. Coughlin's *Ted's Score* is a shocking, suspenseful tale of a depraved, ax-wielding serial killer. When beautiful Jules Benton, a seventeen year old senior, goes missing after the spring formal dance in the small town of Watertown, Wisconsin, her father, Richard Benton, becomes suspicious of Jules' boyfriend, David Miller and his involvement with her disappearance. When Richard confirms his suspicions, the brutality of his capability consumes him and soon David will find out what that means. Unbeknownst to David or Richard, a serial killer by the name of Ted Olson has more to do with Jules' disappearance than anyone might suspect. As Jules' whereabouts unfold, the truth begins to bleed from a dark place. And the authorities have begun to smell the criminal acts committed. Murder and mayhem catch up with the slow pace of this ordinary Middle American town when evil, perversion, and death mislead these simple folks into a disastrous wave of crime that spirals out of control. All the while, Ted collects his score.

It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leonidas Trujillo's dictatorship. It doesn't have to.

Everybody knows of Las Mariposas—"The Butterflies." In this extraordinary novel, the voices of all four sisters—Minerva, Patria, María Teresa, and the survivor, Dedé—speak across the decades to tell their own stories, from hair ribbons and secret crushes to gunrunning and prison torture, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human cost of political oppression.

A heartbreaking and powerful story about a black boy killed by a police officer, drawing connections through history, from award-winning author Jewell Parker Rhodes. Only the living can make the world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.

Based on the series produced for the BBC World Service Who thought up paper money? How did the contraceptive pill change the face of the legal profession? Why was the horse collar as important for human progress as the steam engine? How did the humble spreadsheet turn the world of finance upside-down? The world economy defies comprehension. A continuously-changing system of immense complexity, it offers over ten billion distinct products and services, doubles in size every fifteen years, and links almost every one of the planet's seven billion people. It delivers astonishing luxury to hundreds of millions. It also leaves hundreds of millions behind, puts tremendous strains on the ecosystem, and has an alarming habit of stalling. Nobody is in charge of it. Indeed, no individual understands more than a fraction of what's going on. How can we make sense of this bewildering system on which our lives depend? From the tally-stick to Bitcoin, the canal lock to the jumbo jet, each invention in Tim Harford's fascinating new book has its own curious, surprising and memorable story, a vignette against a grand backdrop. Step by step, readers will start to understand where we are, how we got here, and where we might be going next. Hidden connections will be laid bare: how the barcode undermined family corner shops; why the gramophone widened inequality; how barbed wire shaped America. We'll meet the characters who developed some of these inventions, profited from them, or were ruined by them. We'll trace the economic principles that help to explain their transformative effects. And we'll ask what lessons we can learn to make wise use of future inventions, in a world where the pace of innovation will only accelerate.

When Steven Soderbergh exploded onto movie screens with sex, lies, and videotape in 1989, it represented more than the arrival of an important new director—it heralded the arrival of an entire generation of important new directors. Quentin Tarantino (Pulp Fiction), Kevin Smith (Dogma), David Fincher (Fight Club), M. Night Shyamalan (The Sixth Sense), Ben Stiller (Reality Bites), Michael Bay (Pearl Harbor), and dozens of others are all members of Generation X, the much talked about but much misunderstood successors to baby boomers. This book is a critical study of the films directed by Gen Xers and how those directors have been influenced by their generational identity. While Generation X as a whole sometimes seems to lack direction, its filmmakers have devoted their careers to making powerful statements about contemporary society and their generation's role in it. Each section of the book deals with an aspect of Gen X filmmaking, including the influence of popular culture, postmodern narrative devices, "slackerdom" and the lack of direction, disenfranchisement and nihilism, the ever-evolving role of technology, gender issues and sexuality, the question of race, the influence of older filmmakers, and visions of the future.

Allan Ryskind, son of Marx Brothers screenwriter Morrie Ryskind (Animal Crackers, A Night at the Opera, Room Service), exposes the ugly truth about the Communists blacklisted from the film industry. Too often, the "Hollywood Ten" brought before the House Un-American Activities Committee are memorialized as victims of an unjust witch-hunt and heroes who stood up for free speech. The truth is shocking: Not only did these supposed liberal paragons adore Josef Stalin and take their orders directly from the Communist Party, but they also sympathized with Adolf Hitler. Ryskind, who grew up in the heart of the Hollywood scene and personally knew many of the key players in this real-life Hollywood drama, has penned a definitive, myth-busting account of the Hollywood Ten and Hollywood Blacklist that will forever change the way you think about the ideological battle waged in the movie capital of the world. With glossy photographs.

In Screenplay: The Foundations of Screenwriting (1979), Syd Field first popularized the Three-Act Paradigm of Setup, Confrontation and Resolution for conceptualizing and creating the Hollywood screenplay. For Field, the budding screenwriter needs a clear screenplay structure, one which includes two well-crafted plot points, the first at the end of Act I, the second at the end of Act II. By focusing on the importance of the four essentials of beginning and end, and the two pivotal plot points, Field did the Hollywood film industry an enormous service.

Nonetheless, although he handles the issue of overall structure expertly, Field falls down when offering the screenwriter advice on how to successfully build each of the three individual Acts. This is because Field did not recognize the importance of another layer of analysis that underpins the existence of plot points. This is the level of the plot genotype. This book will offer you a richer theory of plot structure than the one Field outlines. It will do this not by contradicting anything Field has to say about the Hollywood paradigm, but by complementing it with a deeper level of analysis. Plot genotypes are the compositional schemas of particular stories. They are sets of instructions, written in the

language of the plot function, for executing particular plots. This book outlines the plot genotypes for The Frog Prince, The Robber Bridegroom, Puss-in-Boots, and Little Red Riding Hood and then shows how these genotypes provide the underpinnings for the film screenplays of Pretty Woman, Wrong Turn, The Mask, and Psycho. By means of a detailed study of these four Hollywood screenplays, you will be able to offer a much richer description of what is going on at any particular point in a screenplay. In this way, you will become much sharper at understanding how screenplays work. And you will become much better at learning how to write coherent screenplays yourself. Yes, you can write a great screenplay. Let Syd Field show you how. "I based Like Water for Chocolate on what I learned in Syd's books. Before, I always felt structure imprisoned me, but what I learned was structure really freed me to focus on the story."—Laura Esquivel

Technology is transforming the art and craft of screenwriting. How does the writer find new ways to tell a story with pictures, to create a truly outstanding film? Syd Field shows what works, why, and how in four extraordinary films: Thelma & Louise, Terminator 2: Judgement Day, The Silence of the Lambs, and Dances with Wolves. Learn how: Callie Khouri, in her first movie script, Thelma & Louise, rewrote the rules for good road movies and played against type to create a new American classic. James Cameron, writer/director of Terminator 2: Judgement Day, created a sequel integrating spectacular special effects and a story line that transformed the Terminator, the quintessential killing machine, into a sympathetic character. This is how an action film is written. Ted Tally adapted Thomas Harris's chilling 350-page novel, The Silence of the Lambs, into a riveting 120-page script—a lesson in the art and craft of adapting novels into film. Michael Blake, author of Dances with Wolves, achieved every writer's dream as he translated his novel into an uncompromising film. Learn how he used transformation as a spiritual dynamic in this work of mythic sweep. Informative and utterly engrossing, Four Screenplays belongs in every writer's library, next to Syd Field's highly acclaimed companion volumes, Screenplay, The Screenwriter's Workbook, and Selling a Screenplay. "If I were writing screenplays . . . I would carry Syd Field around in my back pocket wherever I went."—Steven Bochco, writer/producer/director, L.A. Law, Hill Street Blues

"The Handbook of Script Development provides a creative and critical guide for those who study, teach and work on the development of stories for the screen. The larger, international perspective is highly valuable in today's media climate where screenwriters sell stories to streaming services with an eye on collecting viewers from all over the world. Such a cross-cultural product requires exposure to new ideas in how scripts are developed which is exactly the perspective I discovered in these pages." --- Dr Rosanne Welch, Executive Director, Stephens College MFA in TV and Screenwriting

The Palgrave Handbook of Script Development provides the first comprehensive overview of international script development practices. Across 40 unique chapters, readers are guided through the key challenges, roles and cultures of script development, from the perspectives of creators of original works, those in consultative roles and those giving broader contextual case studies. The authors take us inside the writers room, alongside the script editor, between development conversations, and outside the mainstream and into the experimental. With authors spanning upwards of 15 countries, and occupying an array of roles including writer, script editor, producer, script consultant, executive, teacher and scholar, this is a truly international perspective on how script development functions (or otherwise) across media and platforms. Comprising four parts, the handbook guides readers behind the scenes of script development, exploring unique contexts, alternative approaches, specific production cultures and global contexts, drawing on interviews, archives, policy, case study research and the insider track. With its broad approach to a specialised practice, the Palgrave Handbook of Script Development is for anyone who practices, teaches or studies screenwriting and screen production. NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.

The idea of Into the Woods is not to supplant works by Aristotle, Lajos Egri, Robert McKee, David Mamet, or any other writers of guides for screenwriters and playwrights, but to pick up on their cues and take the reader on a historical, philosophical, scientific, and psychological journey to the heart of all storytelling. In this exciting and wholly original book, John Yorke not only shows that there is truly a unifying shape to narrative—one that echoes the great fairytale journey into the woods, and one, like any great art, that comes from deep within—he explains why, too. With examples ranging from The Godfather to True Detective, Mad Men to Macbeth, and fairy tales to Forbrydelsen (The Killing), Yorke utilizes Shakespearean five-act structure as a key to analyzing all storytelling in all narrative forms, from film and television to theatre and novel-writing—a big step from the usual three-act approach. Into the Woods: A Five-Act Journey Into Story is destined to sit alongside David Mamet's Three Uses of the Knife, Robert McKee's Story, Syd Field's Screenplay, and Lajos Egri's The Art of Dramatic Writing as one of the most original, useful, and inspiring books ever on dramatic writing.

As The Giving Tree turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. "Once there was a tree...and she loved a little boy." So begins a story of unforgettable perception, beautifully written and illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with Lafcadio, the Lion Who Shot Back. He is also the creator of picture books including A Giraffe and a Half, Who Wants a Cheap Rhinoceros?, The Missing Piece, The Missing Piece Meets the Big O, and the perennial favorite The Giving Tree, and of classic poetry collections such as Where the Sidewalk Ends, A Light in the Attic, Falling Up, Every Thing On It, Don't Bump the Glump!, and Runny Babbit. And don't miss the other Shel Silverstein ebooks, Where the Sidewalk Ends and A Light in the Attic!

Ana loves stories. She often makes them up to help her little brother fall asleep. But in her small village there are only a few books and she has read them all. One morning, Ana wakes up to the clip-clop of hooves, and there before her, is the most wonderful sight: a traveling library resting on the backs of two burros?all the books a little girl could dream of, with enough stories to encourage her to create one of her own. Inspired by the heroic efforts of real-life librarian Luis Soriano, award-winning picture book creators Monica Brown and John Parra introduce readers to the mobile library that journeys over mountains and through valleys to bring literacy and culture to rural Colombia, and to the children who wait for the BiblioBurro. A portion of the proceeds from sales of this book was donated to Luis Soriano's BiblioBurro program.

There are many books on screenwriting that claim to have all the answers. Unfortunately, quite often the more aspiring writers read, the more confused they become as they encounter contradictory statements, incomplete perspectives, and methods that fail to do more than scratch the surface. "Screenwriting Down to the Atoms" was written to end all the confusion. It picks up where the best leave off and makes up for where the rest fall short by looking closer and digging deeper to reveal the "true" principles beneath great cinematic stories. No confusion. No contradictions. "Atoms" provides a light in the dark to give a full, simple, and truly effective understanding of the craft. "Screenwriting Down to the Atoms" takes the basics "far beyond" the basics. It begins by putting the entire field under the microscope to challenge, and often refute, ideas writers have been taught to assume for decades. It then builds a simple, systematic approach clear enough for any writer to understand and put directly into use. Readers will discover storytelling's "golden key" - an elegantly-simple structure that forms the basis of all other structures. They will learn how to satisfy viewers by meeting the responsibilities of the "storyteller-audience relationship." They will understand how to creatively control story information to give a narrative the greatest dramatic impact. Most writers toil for years to learn these principles. With "Atoms, " you can have this knowledge from the very start. Whether you are working on your fifteenth screenplay or your first, "Screenwriting Down to the Atoms" gives indispensable knowledge found in no other source. "Atoms" is screencraft for the 21st century. The next generation of guides for the next generation of writers.

Jean Ferry's only published book of fiction, translated into English for the first time First published in French in 1950 in a limited edition of 100 copies, then republished in 1953 (and enthusiastically praised by André Breton), The Conductor

and Other Tales is Jean Ferry's only published book of fiction. It is a collection of short prose narratives that offer a blend of pataphysical humor and surreal nightmare: secret societies so secret that one cannot know if one is a member or not, music-hall acts that walk a tightrope from humor to horror, childhood memories of a man never born, and correspondence from countries that are more states of mind than geographical locales. Lying somewhere between Kafka's parables and the prose poems of Henri Michaux, Ferry's tales read like pages from the journal of a stranger in a familiar land. Though extracts have appeared regularly in Surrealist anthologies over the decades, *The Conductor* has never been fully translated into English until now. This edition includes four stories not included in the original French edition and is illustrated throughout with collages by Claude Ballaré. Jean Ferry (1906-1974) made his living as a screenwriter for such filmmakers as Luis Buñuel and Louis Malle, cowriting such classics as Henri-Georges Clouzot's *Le Quai des orfèvres* and script-doctoring Marcel Carné's *Les Enfants du paradis*. He was the first serious scholar and exegete of the work of Raymond Roussel (on whom he published three books) and a member of the Collège de 'Pataphysique.

Holy Ground

From the Mixed-Up Files of Mrs. Basil E. Frankweiler

"Holy Ground" is a full length religious horror musical for six actors (3 male 3 female) about an evil that consumes the world leaving only a few survivors who hope for protection from the holy ground of a church. The stage scripts includes additional monologues and duologues which are ideal for acting workshops, auditions and competitions.

When the newly-promoted Sergeant Crystal Lewis and her military team loop to a parallel world, they discover a London very different to those their agency have investigated elsewhere. Steam powered ships fill the sky, metal creatures scurry through the

streets, and the Great Library is now nothing more than a burnt out shell; the history, knowledge and literature of the world has been destroyed. Crystal's investigations discover the records of the Scriptorians: elite explorers, scientists and chroniclers, chosen for their wordsmith abilities, their tenacious belief in uncovering the truth, their passion for the bizarre and baffling. There is some evidence that these mysterious adventurers, fighters and writers also discovered the technology to loop and visit other parallel worlds. Here are some of their tales... Zoë Harris offers us a vision of feminism taken to extremes, while Ken Dawson has the epitome of the pushy parent at the heart of his story; Jake Finlay's and Ross Kitson's stories are concerned with moral dilemmas in research and medicine and both consider the nature of immortality; Steven J. Guscott gives a novel twist to the Frankenstein story; David Muir's central character is an apparently immortal warrior; on lighter note, Paul Freeman gives us a hero easily swayed by a pretty face and adventue, and Robert Peett shows a world of strange invasions, infections and mutations, and at the end, Sammy H.K Smith shows how it all began with the daring Lady Pippa Raven - the first true Scriptorian.

Konigsburg's beloved classic and Newbery Medal-winning novel From the Mixed-Up Files of Mrs. Basil E. Frankweiler. When Claudia decided to run away, she planned very carefully. She would be gone just long enough to teach her parents a lesson in Claudia appreciation. And she would go in comfort-she would live at the Metropolitan Museum of Art. She saved her money, and she invited her brother Jamie to go, mostly because he was a miser and would have money. Claudia was a good organizer and Jamie had some ideas, too; so the two took up residence at the museum right on schedule. But once the fun of settling in was over, Claudia had two unexpected problems: She felt just the same, and she wanted to feel different; and she found a statue at the Museum so beautiful she could not go home until she had discovered its maker, a question that baffled the experts, too. The former owner of the statue was Mrs. Basil E. Frankweiler. Without her—well, without her, Claudia might never have found a way to go home.

"Interesting...Bowlin's calmly rational approach to the subject of conspiracy theories shows the importance of logic and evidence."—Booklist "A page-turning book to give to someone who believes in pizza pedophilia or that the Illuminati rule the world."—Kirkus Reviews The co-hosts of the hit podcast Stuff They Don't Want You to Know, Ben Bowlin, Matthew Frederick, & Noel Brown, discern conspiracy fact from fiction in this sharp, humorous, compulsively readable, and gorgeously illustrated book. In times of chaos and uncertainty, when trust is low and economic disparity is high, when political institutions are crumbling and cultural animosities are building, conspiracy theories find fertile ground. Many are wild, most are untrue, a few are hard to ignore, but all of them share one vital trait: there's a seed of truth at their center. That seed carries the sordid, conspiracy-riddled history of our institutions and corporations woven into its DNA. Ben Bowlin, Matt Frederick, and Noel Brown host the popular iHeart Media podcast, Stuff They Don't Want You To Know. They are experts at exploring, explaining, and interrogating today's emergent conspiracies—from chem trails and biological testing to the secrets of lobbying and the indisputable evidence of UFOs. Written in a smart, witty, and conversational style, elevated with amazing illustrations, Stuff They Don't Want You to Know is a vital book in understanding the nature of conspiracy and using truth as a powerful weapon against ignorance, misinformation, and lies.

Austin Film Festival (AFF) is the first organization of its kind to focus on the writer's creative contribution to film. Its annual Film Festival and Conference offers screenings, panels, workshops, and roundtable discussions that help new writers and filmmakers connect with mentors and gain advice and insight from masters, as well as refreshing veterans with new ideas. To extend the Festival's reach, AFF produces On Story, a television series currently airing on PBS-affiliated stations and streaming online that presents footage of high-caliber artists talking candidly and provocatively

about the art and craft of screenwriting and filmmaking, often using examples from their own films. This book distills the advice of renowned, award-winning screenwriters who have appeared on On Story, including John Lee Hancock, Peter Hedges, Lawrence Kasdan, Whit Stillman, Robin Swicord, and Randall Wallace. In their own lively words and stories transcribed from interviews and panel discussions, they cover the entire development of a screenplay, from inspiration, story, process, structure, characters, and dialogue to rewriting and collaboration. Their advice is fresh, practical, and proven—these writers know how to tell a story on screen. Enjoy this collection of ideas and use it to jumpstart your own screenwriting career.
