A New York Times Bestseller An intimate and powerful memoir by the trailblazing former CEO of PepsiCo For a dozen years as one of the world's most admired CEOs, Indra Nooyi redefined what it means to be an exceptional leader. The first woman of color and immigrant to run a Fortune 50 company — and one of the foremost strategic thinkers of our time — she transformed PepsiCo with a unique vision, a vigorous pursuit of excellence, and a deep sense of purpose. Now, in a rich memoir brimming with grace, grit, and good humor, My Life in Full offers a firsthand view of Nooyi's legendary career and the sacrifices it so often demanded. Nooyi takes us through the events that shaped her, from her childhood and early education in 1960s India, to the Yale School of Management, to her rise as a corporate consultant and strategist who soon ascended into the most senior executive ranks. The book offers an inside look at PepsiCo, and Nooyi's thinking as she steered the iconic American company toward healthier products and reinvented its environmental profile, despite resistance at every turn. For the first time and in raw detail, Nooyi also lays bare the difficulties that came with managing her demanding job with a growing family, and what she learned along the way. She makes a clear, actionable, urgent call for business and government to prioritize the care ecosystem, paid leave and work flexibility, and a convincing argument for how improving company and community support for young family builders will unleash the economy's full potential. Generous, authoritative, and grounded in lived experience, My Life in Full is the story of an extraordinary leader's life, a moving tribute to the relationships that created it, and a blueprint for 21st century prosperity. As a distinct area of literary study, Asian American literature now enjoys a level of critical recognition that was unimaginable when academic interest in the field began modestly some 25 years ago. Part of this recognition stems from the increasing contributions of Asian American novelists, whose works continue to capture growing levels of popular attention. This reference book provides alphabetically arranged entries for 70 Asian American novelists. Each entry is written by an expert contributor and provides a short biography, a discussion of major works and themes, an overview of the novelist's critical reception, and a bibliography of primary and secondary sources. In addition, the volume concludes with a selected, general bibliography.

Standing on an Apple Box

Comprises reprints of studies that display points of difference and convergence between anthropology and economics. They range in subject matter from Malinowski's 1922 study and the Kula exchange in the Trobriand Islands to contemporary work on rural to urban migration, consumption, and gender power of young women in Thailand. Beginning with explanations of the theories of material processes in society, the book then examines the processes of material life as they exist in categories of production, exchange, spheres of exchange, market and consumption. Director, dancer, goodwill advocate for the United Nations: Aishwaryaa Rajinikanth Dhanush is so much more than the daughter of a legendary actor, or the wife of southern cinema's biggest star. Growing up in Bangalore and then Madras, in a household that resolutely kept out any hint of her father's superstardom, she was a quiet, introverted child whose greatest pleasure was a visit to Marina Beach and an occasional meal out. It was not cinema but law that became a preoccupation when she started thinking about college and career - but fate, and her mother, had other plans for her. Aishwaryaa writes with disarming honesty about life as Rajinikanth's daughter, of falling in love and raising two boys with Dhanush, of fighting her own demons and finding satisfaction in a career of her choice. She reflects on the many roles a woman has to juggle at home and outside - in her case, under the watchful gaze of cameras and celebrity-watchers. Intensely personal, but also inspirational, Aishwaryaa's memoir is an unusually frank insight into growing up in cinema-land. A playful meditation on the joys and difficulties of being a woman in this age, *Standing on an Apple Box* is as much a celebration of individual fulfilment as it is of family.

The book addresses problems and topics which have so far been largely ignored, in spite of being of fundamental importance for successful teaching and correct understanding of Tamil literary heritage which spans some 2000 years of development.

In *Introduction to the Science of Kinship*, Murray J. Leaf and Dwight Read illustrate how humans organize systems of social ideas through structures of kinship and outline what this implies for the science of human social organization. Leaf and Read explain that every human society has a social organization that is associated with a distinct vocabulary, which correlates with a particular system of interrelated definitions of social roles and relations. These roles and relations have four specific logical properties: reciprocity, transitivity, boundedness, and imaginary spatial dimensionality. These properties allow individuals to use them in communication to create ongoing, agreed-upon, organizations. This book is recommended for scholars of anthropology, sociology, linguistics, and mathematics.

Concerned with the process in Hinduism of reinterpreting classical texts and imbuing them with new inspiration. An example par excellence is Hariram Vyas's Ras-pancadhyayi, the earliest known Braj Bhasa version of the five chapters of Bhagavatapurana on Krsna's Dance with the Gopis.

From the award-winning author of Marriage of a Thousand Lies comes a brilliantly written, globe-spanning novel about identity, faith, family, and sexuality. In Tamil Nadu, India, a boy is born with blue skin. His father sets up an ashram, and the family makes a living off of the pilgrims who seek the child's blessings and miracles, believing young Kalki to be the tenth human incarnation of the Hindu god Vishnu. In Kalki's tenth year, he is confronted with three trials that will test his power and prove his divine status and, his father tells him, spread his fame worldwide. While he seems to pass them, Kalki begins to question his divinity. Over the next decade, his family unravels, and every relationship he relied on—father, mother, aunt, uncle, cousin—starts falling apart. Traveling from India to the underground rock scene of New York City, Blue-Skinned Gods explores ethnic, gender, and sexual identities, and spans continents and faiths, in an expansive and heartfelt look at the need for belief in our globally interconnected world.

A collection of interlinked tales takes place in Sri Lanka throughout the past half century and follows the struggles of two families caught between the traditions of their ancestors and the modernization of social mores and customs. 25,000 first printing.

Generations is an intricate tale, simply told by a master of fiction about a community of Tamil speakers who live on the borders of modern-day Kerala. Set in the 1940s, it is a novel of generational change and conflict, and how the boy Diravi grows up to take charge of his family, which embodies a distinct culture. Diravi's sister, Nagu's marriage to Perumal is wrecked when the latter, enraged at his own failings rejects his young wife. Unacceptable in her own family, Nagu continues to endure Perumal's cruelty till her brother, Diravi decides on an alternative course of action slashing through outdated social customs that discourage any constructive solutions. Amidst the

background of language, myth, and ethnic consciousness, we are offered a sensitively drawn profile of the passing of a traditional way of life into modernity and the nostalgia that comes with change.

A History of the Korean Language is the first book on the subject ever published in English. It traces the origin, formation, and various historical stages through which the language has passed, from Old Korean through to the present day. Each chapter begins with an account of the historical and cultural background. A comprehensive list of the literature of each period is then provided and the textual record described, along with the script or scripts used to write it. Finally, each stage of the language is analyzed, offering new details supplementing what is known about its phonology, morphology, syntax, and lexicon. The extraordinary alphabetic materials of the 15th and 16th centuries are given special attention, and are used to shed light on earlier, pre-alphabetic periods.

In this remarkable debut novel, a boy's bittersweet passage to maturity and sexual awakening is set against escalating political tensions in Sri Lanka, during the seven years leading up to the 1983 riots. Arjie Chelvaratnam is a Tamil boy growing up in an extended family in Colombo. It is through his eyes that the story unfolds and we meet a delightful, sometimes eccentric cast of characters. Arjie's journey from the luminous simplicity of childhood days into the more intricately shaded world of adults - with its secrets, its injustices, and its capacity for violence - is a memorable one, as time and time again the true longings of the human heart are held against the way things are.

Sri Lanka, the 'Teardrop Isle', has been under international attention for more than two decades for its ethnic conflict and civil war, and recently, under intense media scrutiny for what seems like a decisive end to the civil war. While the ethnic conflict and the civil war have been the subjects of numerous academic and non-academic studies in both the East and the West, there has been no significant research on nationalism, particularly Tamil nationalism, as it manifests itself in Sri Lanka. Pathways of Dissent: Tamil Nationalism in Sri Lanka endeavours to fill this important academic gap through its collection of ten in-depth essays that present a wide perspective of the subject. The book holistically portrays Tamil nationalism from various disciplinary perspectives like history, political science, international relations, art, literature, sociology and anthropology. In doing so, it tries to understand the nature of nationalism as it emerges in these areas and adds to the richness and complexity of the problem. The significance

of this collection is not only its breadth of vision, but also the origins of the hypotheses. The essays cite primary sources from Tamil society and culture that are not usually referred to. It is the first multi-disciplinary collection of essays exploring the state of Sri Lankan Tamils and their nationalistic moorings. The book succeeds in adding further scholarship to the academic debate centred on nationalism, politics, sociology and ethnic conflicts. Academics and readers with a focus on ethnic conflicts, peace studies, nationalism, Tamil politics and society and South Asian history will find the book to be an essential reference source.

For the first time in English a selection of fiction, non-fiction and poetry showcasing the breadth and depth of one of the most versatile and innovative Tamil writers is available. Known for technical brilliance, Ramaswamy's writing is underscored by compassion, humour and disquieting endings. From the crumbling backstreets of Chow Kit to the gleaming highrises of Sultan Ismail Road, ladies of all ages and ethnicities patrol the dark alleys, fancy clubs and dingy massage parlours of Malaysia's capital city of Kuala Lumpur, cruising for customers and surviving on their wits, born in some cases out of true desperation but in other cases out of lifestyle choice. Veteran writer and author Ewe Paik Leong uncovers a hidden world of KTV lounges within hair salons, massage parlours that offer services beyond the therapeutic and food courts that transform at night into whirlpools of vice, drawing both young and old, the curious and the regulars. In a series of fascinating encounters and interviews with high-end nightclub hostesses and their mamasans, freelance escorts, surreptitious streetwalkers, urut batin 'therapists' and more, the author confronts head-on important issues of trafficking, poverty, heart-wrenching misery, wayward morals and even black magic. "A sumptuously produced book with an elaborate, informative text and 704 beautiful photographs of adornment from many parts of the world, ranging from Aboriginal Australia to Africa. A unique feature of this 420-page book is its starting point in Aboriginal Australia with 85 spectacular photographs, followed by 119 photographs of fascinating ornaments from New Guinea, and 68 images showing equally arresting objects from the rest of Oceania. These chapters draw on the extensive holdings of the South

Australian Museum as well as the substantial private Daalder collection. Other cultures collected by the Daalders are also strongly represented, with 66 pieces of jewellery from Indonesia, Malaysia and the Philippines, and 136 from Southeast Asia, China and Mongolia. The book subsequently highlights the Himalayas, India, Central Asia, the Middle East and Africa. Hardbound in linen, with a laminated dust jacket and printed on excellent paper, this volume presents both a stunning visual experience through its large and colourful illustrations, and an accessible but scholarly discussion of the regions and cultures which produced the objects shown, as well a detailed description of the salient features of each ornament." --Publisher site.

A New Age Study on How Economic Tides And Parental Conditioning Mold Our World of Ethics, Religions, Beliefs, Sex And Relationships

World Religions, True Beliefs And New Age Spirituality

First Published in 1999. Routledge is an imprint of Taylor & Francis, an informa company.

Humans tend to think and react in predetermined ways to trigger words, trigger situations and rituals, though the trigger and the reaction may have no apparent or logical interrelationships whatsoever. Seeing through such conditioned responses is the aim and purpose of this work. Thanks to our long gestation period, human beings are the most conditioned of animals. Though conditioning is very useful in most situations-for example, in learning how to dress-some conditioning, like racism, warps our minds and leads to avoidable conflicts and conflagrations.

Author Xavier William believes that this distorted or warped conditioning is evident in many aspects of ordinary life, including: · Economics and politics · Ethics, morals and values · Religions and Superstitions · Traditions and taboos ·

Alternate medicines · Environmental issues · Sex and family relationships World Religions, True Beliefs And New Age Spirituality seeks to decondition and dewarp our minds from harmful doctrines, dogmas, and Parental and ethnic conditioning. In so doing, William argues, that violence and bloodshed can be significantly reduced or even eradicated. By employing clear-think and self-talk techniques, human beings can steer clear off the ruts of habitual or rhythmic thinking. With the rare insights in World Religions, True Beliefs And New Age Spirituality, people from seemingly incompatible ethnic backgrounds can build win-win relationships and a better world for all.

Diversity is a buzzword of our times and yet the extent of religious diversity in Western societies is generally

misconceived. This ground-breaking research draws attention to the journey of one migrant religious institution in an era of religious superdiversity. Based on a sociolinguistic ethnography in a Tamil Saivite temple in Australia, the book explores the challenges for the institution in maintaining its linguistic and cultural identity in a new context. The temple is faced with catering for devotees of diverse ethnicities, languages, and religious interpretations; not to mention divergent views between different generations of migrants who share ethnicity and language. At the same time, core members of the temple seek to continue religious and cultural practices according to the traditions of their homelands in Sri Lanka, a country where their identity and language has been under threat. The study offers a rich picture of changing language practices in a diasporic religious institution. Perera inspects language ideology considerations in the design of institutional language policy and how such policy manifests in language use in the temple spaces. This includes the temple's Sunday school where heritage language and religion interplay in second-generation migrant adolescents' identifications and discourse.

The Dravidian language family is the world's fourth largest with nearly 250 million speakers across South Asia from Pakistan to Nepal, from Bangladesh to Sri Lanka. This authoritative reference source provides a unique description of the languages, covering their grammar, structure and historical development, plus sociolinguistic features. Each chapter combines modern linguistic perspective with traditional historical linguistics, and a uniform structure allows for easy typological comparison between the individual languages. New to this edition are chapters on Be??a Ku?umba, Ku?ux, K?vi and Malay??am, and enlarged sections in various existing chapters, as well as updated bibliographies and demographic data throughout. The Dravidian Languages will be invaluable to students and researchers in linguistics, and will also be of interest to readers in the fields of comparative literature, linguistics and South Asian studies.

The novel form has long been connected to modern capitalism and is, arguably, the literary genre most prominently enmeshed in contemporary global markets. Yet, as many critics have suggested about capital, something has changed in the last forty years. With the rise of neoliberalism as the dominant global economic rationality and mode of governance, the experience of capital has produced new ways of seeing and relating to the world, leading David Harvey observes, to "the financialization of everything". The novel, indexed to capital in myriad ways, then, must similarly have been transformed. Neoliberalism and the Novel investigates both those changes wrought to the novel form by changing arrangements of capital, and the novel's broader engagement with neoliberalism itself. The chapters in

book consider these questions from a variety of angles, attending to the way in which neoliberal novel deploys familiar generic patterns as a site from which to offer critique; examining the changing operation of labour and time under neoliberalism and its effect on the novel form; and offering a broader call for new reading and interpretative practices to respond to changing socio-economic realities. This book was originally published as a special issue of *Textual Practice*.

A fascinating work, dating from the late 1200s. This book (*Yusa*), is not just a story but a collection of histories, anecdotes and memorabilia, covering the origins of Korea's three monarchies--Silla, Paekche and Koguryo, offering an account of the latter nation that is quite a bit from what you'll read in Chinese history books. Translated by Professor Ha Myung-Hung of Yonsei Univeristy, with special help from Grafton Mintz (the first Westerner to become a naturalized citizen of the Republic of Korea.)
