Climate Change 2007 -
Impacts, Adaptation and
Vulnerability

*Instead of adapting to the

it has set in motion a spiral that will fundamentally transform the German economic system rather than the global climate. Not only the climate has "points of no return" after which interventions will no longer be possible. This

also applies to the economy – when these points have been passed, it will no longer be possible to prevent an extreme loss of prosperity for future generations.

Using Science as Evidence in
