economics and demonstrates why it is a 'flawed doctrine' that is setting up the U.S. for a major economic downturn in the near future. The American Crisis is a collection of articles by Thomas

Paine, originally published from December 1776 to December 1783, that focus on rallying Americans during the worst years of the Revolutionary War. Paine used his deistic beliefs to galvanize the revolutionaries, for

example by claiming that the British are trying to assume the powers of God and that God would support the American colonists. These articles were so influential that others began to adopt some of

their more stirring phrases, catapulting them into the cultural consciousness; for example, the opening line of the first Crisis, which reads “These are the times that try men’s souls.” This book is part of the Standard Ebooks
