

Teach English Adrian Doff

Ready-to-go activities for teacher trainers running pre- and in-service training courses. For busy teacher trainers who practise what they preach: trainees will benefit from learning about methodology in training sessions which are in themselves models of good teaching practice.

Teach English is a teacher training course that develops practical skills in the teaching of English as a second language. It can be used in a variety of situations: in-service courses for teachers working at the secondary school level or in language institutes, in pre-service training of secondary school teachers, and as part of a refresher course in practical methodology for more experienced teachers. It is especially designed to meet the needs of teachers whose first language is not English, who teach large classes in rigid classrooms with few resources, who follow a set of syllabus and textbook, who have little control over course content or material.

This collection provides an overview of current issues, debates, and approaches in Second Language Teacher Education (SLTE) presented by internationally prominent researchers, educators, and emerging scholars. Chapters address such issues as distance education, non-native English-speaking educators, technology, assessment, standards, and the changing contexts of contemporary language teaching and teacher education.
