

Teachers College Reading And Writing Project Benchmark

The bestselling *Scaffolding Language, Scaffolding Learning* helped tens of thousands of mainstream elementary teachers ensure that their English language learners became full members of the school community with the language and content skills they needed for success. In the highly anticipated Second Edition, Pauline Gibbons updates her classic text with a multitude of practical ideas for the classroom, supported by the latest research in the field of ELL/ESL. With clear directions and classroom tested strategies for supporting students' academic progress, Gibbons shows how the teaching of language can be integrated seamlessly with the teaching of content, and how academic achievement can be boosted without sacrificing our own vision of education to the dictates of knee-jerk accountability. Rich examples of classroom discourse illustrate exactly how the scaffolding process works, while activities to facilitate conversation and higher-level thinking put the latest research on second language learning into action. A little girl pitches in to help her tía save up for a big old car — and take the whole family to the beach — in a story told with warmth and sweetness. Tía Isa wants a car. A shiny green car the same color as the ocean, with wings like a swooping bird. A car to take the whole family to the beach. But saving is hard when everything goes into two piles — one for here and one for Helping Money, so that family members who live far away might join them someday. While Tía Isa saves, her niece does odd jobs for neighbors so she can add her earnings to the stack. But even with her help, will they ever have enough? Meg Medina's simple, genuine story about keeping in mind those who are far away is written in lovely, lyrical prose and brought to life through Claudio Muñoz's charming characters.

Personal interactions are the single most effective way for teachers to understand and evaluate their student as learners. Responding specifically to new Common Core State Standards in reading and writing, this book introduces pre- and inservice teachers to a method of one-on-one interaction the authors refer to as the "stretch conference." This book provides detailed practical advice on the logistics of implementing these conferences during the busy school day, including tips on how and when to schedule conferences and how to successfully manage the classroom during conference time. The authors argue that, rather than using valuable conference time for word-level concerns and editing, teachers should focus on more ambitious goals that will deepen (or "stretch") students' skills in comprehension and writing. This resource suggests where conferences fit in with other important pieces of literacy instruction; introduces a variety of high-quality cues to use during conferences; and shows how conferences can function as formative assessment for reading and writing skills. This book: was written by two veteran teacher educators who conduct frequent workshops and professional development with teachers; helps teachers adjust their instruction for the demands of Common Core Standards; and includes many detailed examples of effective conferences taken from real classrooms.

"Why do I have to read this?" What teacher doesn't dread this question? It usually comes from our most disengaged students like the class clown or the student who struggles to read and write at grade-level. Sometimes we hear it from a student who cries of boredom or one who is angry or apathetic. When we don't know what else to try, it's easy to become frustrated and give up on these challenging learners. But take heart! Author Cris Tovani has spent her career figuring out how to entice challenging students back into the process of learning. In *Why Do I Have to Read This?* Cris Tovani shares her best secrets, lessons learned from big fails, and her most effective literacy and planning strategies that hook these hard-to-get learners. You will meet many of Cris's students inside this book. As she describes some of her favorites, you may even recognize a few of your own. You will laugh at her stories and take comfort in her easily adaptable strategies that help students remove their masks of disengagement. Cris shows teachers how to plan by anticipating students' needs. Her Curriculum You Anticipate structures of Topic, Task, Targets, Text, Tend to me, and Time will literally help you anticipate your curriculum. Inside *Why*

Do I Have to Read This? readers will find: literacy strategies for all content areas that support and engage a wide range of learners so they can read and write a variety of complex text reference charts packed with small bites of instructional shifts that coaches and teachers can use to quickly adjust instruction to re-engage students planning strategies that show teachers how to connect day-to-day instruction so that no day lives in isolation versatile thinksheets that are reproducible and adaptable to different grade levels, content areas, and disciplines Above all, Cris gives teachers energy to get back into the classroom and face students who wear masks of disengagement. She reminds us of the importance of connecting students to compelling topics, rich text, useful targets, and worthy tasks. She reminds us of the importance of tending to students' basic needs and helps us consider how to best structure instructional time. After reading this book, teachers will have new ways to connect with students in a deep, authentic way. Written in a humorous, compassionate, and wise voice, Why Do I Have to Read This? will provide answers to the pressing questions we have when we try to teach and reach all of our students.

"Writing allows each of us to live with that special wide-awakeness that comes from knowing that our lives and our ideas are worth writing about." -Lucy Calkins Teaching Writing is Lucy Calkins at her best-a distillation of the work that's placed Lucy and her colleagues at the forefront of the teaching of writing for over thirty years. This book promises to inspire teachers to teach with renewed passion and power and to invigorate the entire school day. This is a book for readers who want an introduction to the writing workshop, and for those who've lived and breathed this work for decades. Although Lucy addresses the familiar topics-the writing process, conferring, kinds of writing, and writing assessment- she helps us see those topics with new eyes. She clears away the debris to show us the teeny details, and she shows us the majesty and meaning, too, in these simple yet powerful teaching acts. Download a sample chapter for more information.

A Resource Book for Teaching K-12 English Learners

Daily Lessons, Monthly Units, Yearlong Calendar. Grade 2

"Informational writing is the perfect genre for second graders because nobody is more curious about the workings of the world and is more eager to tell you a zillion things about the topic at hand." --Marika Paez Wiesen Informational writing taps into second graders natural inclination to explore and excitedly share the new and strange discoveries of their worlds on a daily basis. Marika Paez Wiesen offers a framework that will help you harness this energy and implement an informational writing unit of study that addresses the wide range of learners typically found in a second grade classroom. Addressing the heightened emphasis on reading and writing informational texts in the Common Core State Standards and on state tests, this unit of study guides you through the entire writing process. After considering how to plan and prepare an informational writing unit that builds on young writers' passions, interests, and abilities, Marika describes how to get started choosing topics, planning a draft, and beginning to write. Ensuing chapters explore ways to elaborate on and revise these chapters with an eye towards addressing conventions and using features common to nonfiction texts. This chapter offers ideas on how best to celebrate this writing and extend this learning across the curriculum. A Quick Guide to Teaching Informational Writing, Grade 2 is part of the Workshop Help Desk series. About the Workshop Help Desk series The Workshop Help Desk series is designed for teachers who believe in workshop teaching and who have already rolled up their sleeves enough to have encountered the predictable challenges. If you've struggled to get around quickly enough to help all your students, if you've wondered how to tweak your teaching to make it more effective and lasting, if you've needed to adapt your teaching for English learners, if you've struggled to teach nonfiction writing or test prep...if you've faced these and other specific, pressing challenges, then this series is for you. Provided in a compact 5" x 7" format, the Workshop Help Desk series offers pocket-sized professional development. Lucy Calkins and her colleagues at the Reading and Writing Project have helped thousands of educators design their own pathways to the Common Core. Now, with Pathways to the Common Core, they are ready to help you find your way. Designed for teachers, school leaders, and professional learning communities looking to navigate the gap between their current literacy practices and the ideals of the Common Core, Pathways to the Common Core will help you: understand what the standards say, suggest, and what they don't say; recognize the guiding principles that underpin the reading and writing standards; identify how the Common Core's infrastructure supports a spiraling K-12 literacy curriculum; and scrutinize the context in which the CCSS were written and are being unrolled. In addition to offering an analytical study of the standards, this guide will help you and your colleagues implement the standards in ways that lift the level of teaching and learning throughout your school.

"These assessment tools make progress in writing as transparent, concrete, and obtainable as possible and put ownership for this progress into the hands of learners. We encourage students and teachers to work toward a very clear image of what good writing entails." -Lucy Calkins, Writing Pathways Lucy Calkins' groundbreaking performance assessment offers instructional tools to support continuous assessment, timely feedback, and clear goals tied to learning progressions that have been aligned with world-class standards. Originally published as part of the bestselling Units of Study in Opinion/Argument, Information, and Narrative Writing, grades K-8, Writing Pathways is ideal for writing instruction but suitable for any writing instruction context or curriculum. Grade-specific books that take all the guesswork out of teaching reading and writing. Each book provides a detailed curricular calendar tied to a developmental continuum and the standards. Includes monthly units of study that integrate reading and writing so both work together to provide maximum support for students. The units are organized around four essential components, process, genre, strategy, and conventions, addressing everything students need to know about reading and writing. Packed with ready-to-use lessons that offer exemplary teaching and continuous assessment. Features a flexible framework that shows how to frame a year of teaching, a unit, and a lesson—all easily adapted to fit the unique needs and interests of students at all levels of learning. Randy and Katherine Bomer present a new vision of curriculum - one that invites students to read with important social ideas in mind and write with the purpose of making the world a better place.

A surprisingly simple way for students to master any subject--based on one of the world's most popular online courses and the bestselling book A Mind for Numbers A Mind for Numbers and its wildly popular online companion course "Learning How to Learn" have empowered more than two million learners of all ages from around the world to master subjects that they once struggled with. Fans often wish they'd discovered these learning strategies earlier and ask how they can help their kids master these skills as well. Now in this new book for kids and teens, the authors reveal how to make the most of time spent studying. We all have the tools to learn what might not seem to come naturally to us at first--the secret is to understand how the brain works so we can unlock its power. This book explains: • Why sometimes letting your mind wander is an important part of the learning process • How to avoid "rut think" in order to think outside the box • Why having a poor memory can be a good thing • The value of metaphors in developing understanding • A simple, yet powerful, way to stop procrastinating Filled with illustrations, application questions, and exercises, this book makes learning easy and fun.

A Quick Guide to Teaching Persuasive Writing, K-2

This book invites readers to consider ways in which their language and literacy teaching practices can better value and build upon the brilliance of every child. In doing so, it highlights the ways in which teachers and students build on diversities as strengths to create more inclusive and responsive classrooms. After inviting readers to consider and better understand the diverse language and literacy practices of diverse children, it offers invitations for teachers to make these practices foundational in their own classrooms and to consider meaningful possibilities for learning authentically with young children in primary grades. It features chapters that focus on oral language, reading, and writing development, all while recognizing that these are not separate. In each of these chapters, readers are invited to consider diverse possibilities, perspectives, and points of view in practice within primary grades classrooms. Throughout, it offers ways to foster classroom learning communities where racially, culturally, and linguistically diverse children are supported and valued.

A Guide to the Writing Workshop

The Complete Year in Reading and Writing

Contains ideas for teaching reading and writing in the K-12 curriculum that include qualities of good writing, introducing literature, and rethinking of the writing workshop.

Part of a series of units as part of a year-long curriculum based in primary writing.

Although the Common Core and C3 Framework highlight literacy and inquiry as central goals for social studies, they do not offer guidelines, assessments, or curriculum resources. This practical guide presents six research-tested historical investigations along with all corresponding teaching materials and tools that have improved the historical thinking and argumentative writing of academically diverse students. Each investigation integrates reading, analysis, planning, composing, and reflection into a writing process that results in an argumentative history essay. Primary sources have been modified to allow struggling readers access to the material. Web links to original unmodified primary sources are also provided, along with other sources to extend investigations. The authors include sample student essays from each investigation to illustrate the progress of two different learners and explain how to support students' development. Each chapter includes these helpful sections: Historical Background, Literacy Practices Students Will Learn, How to Teach This Investigation, How Might Students Respond?, Student Writing and Teacher Feedback, Lesson Plans and Materials. Book Features: Integrates literacy and inquiry with core U.S. history topics. Emphasizes argumentative writing, a key requirement of the Common Core. Offers explicit guidance for instruction with classroom-ready materials. Provides primary sources for differentiated instruction. Explains a curriculum appropriate for students who struggle with reading, as well as more advanced readers. Models how to transition over time from more explicit instruction to teacher coaching and greater student independence. "The tools this book provides—from graphic organizers, to lesson plans, to the accompanying documents—demystify the writing process and offer a sequenced path toward attaining proficiency." —From the Foreword by Sam Wineburg, co-author of *Reading Like a Historian* "Assuming literate practice to be at the core of history learning and historical practice, the authors provide actual units of history instruction that can be immediately applied to classroom teaching. These units make visible how a cognitive apprenticeship approach enhances history and historical literacy learning and ensure a supported transition to teaching history in accordance with Common Core State Standards." —Elizabeth Moje, Arthur F. Thurnau Professor, School of Education, University of Michigan "The C3 Framework for Social Studies State Standards and the Common Core State Standards challenge students to investigate complex ideas, think critically, and apply knowledge in real world settings. This extraordinary book provides tried-and-true practical tools and step-by-step directions for social studies to meet these goals and prepare students for college, career, and civic life in the 21st century." —Michelle M. Herczog, president, National Council for the Social Studies

What can we teach kids today that will have utility ten or fifteen years from now? Angela Kohnen and Wendy Saul propose an approach to information literacy that goes beyond the teaching of discreet, easily outdated skills. Instead they use activity to help students build identities as curious individuals empowered to ask their own questions and able to navigate their information-filled world in pursuit of credible answers. A generalist is curious, open-minded, skeptical, and persistent in their quest for

information. Thinking Like a Generalist demonstrates what it means to take a generalist stance in instruction and provides a set of teaching tools to be able to pass those skills to students--skills that will transfer beyond the walls of the classroom. Inside you'll find the following: a thorough introduction to what it means to be a "generalist", and how to develop the practices and tools that help generalists navigate the world we live in a focus on the teacher becoming a generalist and tips for modeling those practices in the classroom detailed instructions on how to write a unit of study that emphasizes generalist literacy skills and includes an overview and examples of five different units how to use the authors' read-aloud-think-aloud strategy to orient students to generalist tools and practices The ideas, strategies, and examples in Thinking Like a Generalist will give you the tools to think like a generalist and then pass that knowledge on to your students, guiding them to become inquisitive, lifelong learners and preparing them for a future that we can't yet imagine.

"I'm convinced that Howard Gardner was right when he suggested that all leaders need chances to retreat to the mountains. I hope this book gives you metaphorical mountains. I hope that Leading Well allows you to step back from the hurly burly of school leadership, to see far horizons, to breathe a new kind of air, and to return home with new energy and vision. And more than that, I hope the book helps you give the teachers and children in your care their own metaphorical mountains; because in the end, good leaders create leaders." -Lucy Calkins In *Leading Well: Building Schoolwide Excellence in Reading and Writing*, Lucy Calkins draws on the transformative work that she and her colleagues at the Teachers College Reading and Writing Project have done in partnership with school leaders over the last thirty years. Travel to any corner of this country, inquire about the schools that are winning acclaim for their joyous and rigorous schoolwide literacy work, and you're apt to find yourself hearing about the results of the remarkable community of practice that has taken root around reading and writing workshop instruction. This book, like the work of the Teachers College Reading and Writing Project itself, is deeply research-based and principled, while also absolutely practical and real-world tested. *Leading Well* will provide you with the inspiration and energy you need to rally your teachers to outgrow their own best teaching practices and tackle predictable challenges. Additionally, *Leading Well* will remind you that you are part of a vibrant community of practice. You'll learn not only from Lucy Calkins and from contributing authors, Mary Ehrenworth and Laurie Pessah, but also from talented, tenacious, and imaginative school leaders who are creating new horizons for the world of education. Topics addressed include: Planning for Literacy Reform Supporting teachers in implementing reading and writing workshops Tapping the insight and talents of teachers, and rallying key individuals to join your cabinet of literacy leaders Honing your vision for reform and communicating it to the whole school Leading through influence rather than compliance Lifting the Level of Teaching Defining the goals for your teachers and the priorities for students Establishing the structures and culture that support these goals and priorities Protecting independent reading and writing time for students and planning time for teachers Identifying ways to coach and nurture teachers' skills in the specific methods of instruction of the Units of Study Supporting teachers' continuing professional development Building Structures across the School and Community Setting up feedback cycles through instructional rounds and targeted conversations Putting in place rituals and traditions to support your school community's unique character Addressing resistance with radical candor and learning from it Staying the course while integrating new initiatives Engaging parents and building your own professional learning community The book is for school leaders who've invited their teachers to join them in the exhilarating work of adopting a dynamic, rigorous, student-centered language arts curriculum. It is for school leaders who have taken on the challenge of transforming their whole school into a place where everyone's potential, for learning and for growth, is sky high.
