

Teaching Guide For Tears Of A Tiger

Shakespeare's one of the greatest playwrights of all time—but telling a student this isn't enough. This bundled book is perfect for teachers looking for lesson plans and other resources to get students interested in the Bard. Inside you will find a five day lesson plan, discussion questions, a comprehensive study guide, a biography about the life and times of Shakespeare, and a modern retelling (along with the original text) of Shakespeare's Hamlet. Each section of this book may also be purchased individually.

Three boys struggle to come to terms with the death of a friend in a drunk-driving auto accident in which all four were involved. In a story told through newspaper stories, diary entries, school announcements, telephone conversations, and classroom assignments.

Is your child getting lost in the system, becoming bored, losing his or her natural eagerness to learn? If so, it may be time to take charge of your child's education—by doing it yourself. The Well-Trained Mind will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school—one that will train him or her to read, to think, to understand, to be well-rounded and curious about learning. Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education, maturing capacity of the child's mind and comprises three stages: the elementary school "grammar stage," when the building blocks of information are absorbed through memorization and rules; the middle school "logic stage," in which the student begins to think more analytically; and the high-school "rhetoric stage," where the student learns to write and speak with force and originality. Using this theory as your model, you'll be able to instruct your child—whether full-time or as a supplement to classroom education—in all levels of reading, writing, history, geography, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. Thousands of parents and teachers have already used the detailed book lists and methods described in The Well-Trained Mind to create a truly superior education for the children in their care. This extensively revised fourth edition contains completely updated curricula and book lists, links to an entirely new set of online resources, new material on teaching children with learning challenges, cutting-edge math and sciences recommendations, answers to common questions about home schooling, and more. Standardized testing, working with your local school board, designing a high-school program, preparing transcripts, and applying to colleges. You do have control over what and how your child learns. The Well-Trained Mind will give you the tools you'll need to teach your child with confidence and success.

NOTE: This Parent-Teacher-Mentor Edition of Shine In Your Life's Journey accompanies the student guide/workbook Shine In Your Life's Journey: A Student's Guide to Character Development, and contains helpful instructions to the lessons in the Student Guide for any parent, teacher, and mentor. "There is honor in meeting and overcoming life's challenges." This is the theme of Shine in Your Life's Journey (for students) and is meant to inspire children of all ages with the belief that with meaningful learning tools, they have the power to meet their personal challenges and goals with courage and purpose. Shine In Your Life's Journey is a simply formatted, straightforward guide/workbook to help students learn the important values and behaviors that build and sustain a strong character. Containing concise, thought-provoking, and enjoyable lessons, this easy-to-use guide encourages its student users to discover their own innate strengths as well as improve areas of lesser strengths that will help them achieve their hopes, dreams, and goals in their lives. The lessons are divided into three sections: Being an Honorable Person, Self-Discovery, and Self-Empowerment, and are a result of the curriculum the author has developed for the children he teaches and mentors at Jasper Mountain Center in Jasper, Oregon, an internationally renowned residential facility that addresses the significant needs of children and their families who have suffered the trauma of abuse. Author Greg Ahljan has been a volunteer at the Jasper Mountain facility since 2008, teaching and mentoring children from ages 8-14 about character development, nature, and poetry. Inspired by the children, he has written two books that contain life lessons: The Large Rock and the Little Yew teaches the virtues of courage, perseverance, self-respect, and hope; and An Elephant Would Be Wonderful, a book about self-discovery. He says, "To be able to provide a smile on a child's face, a bit of joy or inspiration, is what my book projects are all about!"

The year's program consists of 25 weekly perceptual-motor lessons designed for students in preschool, kindergarten, first to third grade and special education classes.

The resources include an overview of each story Comprehensive guided reading discussion points Four carefully structured photocopy sheets for each story that integrate grammar, spelling and comprehension strategies Extra activities that link to other key learning areas
