Merry & Bright | 301 Festive Ideas for Celebrating Christmas

“What better way to begin to explore the natural world than to experience the magic and beauty of a family garden.” –Arden Bucklin-Spörer, author of *How to Grow a School Garden* Many gardeners find that once they have children gardening goes the way of late-night dinner parties and Sunday morning sleep-ins. Raising kids and maintaining a garden can be a juggling act, leaving the family garden forgotten and neglected. But kids can make great gardening companions, and the benefits of including them are impossible to ignore. Gardening gets kids outdoors and away from television and video games, increases their connection to plants and animals, and helps build enthusiasm for fresh fruits and vegetables. Their involvement becomes the real harvest of a family garden. In *The Book of Gardening Projects for Kids*, Whitney Cohen and John Fisher draw on years of experience in the Life Lab Garden Classroom and gardening with their own children to teach parents how to integrate the garden into their family life, no matter its scope or scale. The book features simple, practical gardening advice, including how to design a play-friendly garden, ideas for fun-filled theme gardens, and how to cook and preserve the garden's bounty. 101 engaging, family-friendly garden activities are also featured, from making Crunch-n-Munch Vegetable Beds and Muddy Miniature Masterpieces to harvesting berries for Fresh Fruity Pops.

Explains how to combine ready-made products with fresh ingredients to create homemade desserts with more than one hundred recipes, including butter rosettes cookies, Banana pudding bites, and pink meringue kisses.

Features step-by-step instructions for crafting over thirty of the author's lifelike paper flowers and their foliage, from bougainvillea to zinnias, along with instructions for using paper flowers in garlands, bouquets, and fashion accessories.

A treasury of 300 seasonal recipes designed in support of the author's theories about local, sustainable foods shares advice on how to select ingredients at perimeter markets while enabling high-quality results in backyard and community gardens.
