The authors of VOYAGES IN WORLD HISTORY never forget that history is made up of the stories of people. Each chapter of the text centers on a story -- a traveler's account that highlights the book's main theme, the constant movement of people, goods, and ideas. The travelers include merchants, poets, rulers, explorers, soldiers, missionaries, and scholars, and their voyages provide a framework for each chapter that will capture students' interest and draw them

show how the United States was transformed from hunter-gatherer and agricultural Native American societies into the most powerful industrial nation on Earth. This approach helps students understand the impact of the notions of liberty and equality, which are often associated with the American story and recognize how dominant and subordinate groups have affected and been affected by the ever-shifting balance of power. The text integrates the best of recent social and cultural scholarship-including fun material on movies and other forms of popular culture-into a political story, offering a comprehensive and complete understanding of American history. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

greater thematic coherence. The authors also condensed and consolidated material on the Wilson presidency and World War I (formerly Chapters 29 and 30) into a new single chapter. A new feature, "Contending Voices," offers paired quotes from original historical sources, accompanied by questions that prompt students to think about conflicting perspectives on controversial subjects. Additional pedagogical aids make THE AMERICAN PAGEANT accessible to students: part openers and chapter-ending chronologies provide a context for the major periods in American history, while other features

shifting global, social, cultural, and political landscape. America's national experience and collective history have always been subject to transnational forces and affected by global events and conditions. In recognition of this reality, this insightful new text presents a history of North America and then the United States in which world events and processes are central rather than colorful sidelights. The narrative recovers the global aspects of America's past and helps students understand the origins of the interconnected world in which they live. By weaving together stories, analysis, interpretation,
