Connect students in grades 6 and up with science using Science Tutor: Life Science. This effective 48-page resource provides additional concept reinforcement for students who struggle in life science. Each lesson in this book contains an Absorb section to instruct and simplify concepts and an Apply section to help students grasp concepts on their own. The book covers topics such as patterns in the living world, energy flow, levels of organization, and descent and change. It is great for use in the classroom and at home!

Study & Master Life Sciences was developed by practising teachers, and covers all the requirements of the National Curriculum Statement for Life Sciences. Learner's Book: 7 module openers, explaining the outcomes 7 icons, indicating

group, paired or individual activities

- key vocabulary boxes which assist learners in dealing with new terms
- activities to solve problems, design solutions, set up tests/controls and record results
- assessment activities
- case studies, and projects, which deal with issues related to the real world, to move learners beyond the confines of the classroom

Teacher's Guide:

- An overview of the RNCS
- an introduction to outcomes-based education
- a detailed look at the Learning Outcomes and Assessment Standards for Life Sciences, and how much time to allocate to each during the year
- information on managing assessment
- solutions to all the activities in the Learner's Book
- photocopiable assessment sheets
