

## The 4 Pillar Plan How To Relax Eat Move And Sleep Your Way To A Longer Healthier Life

The Four Pillar Plan How to Relax, Eat, Move and Sleep Your Way to a Longer, Healthier Life  
This book will show you how to use an expanded version of the decision-making model from the leadership course for Harvard MBA students. Based on a Strategy Pillar, a Law Pillar, and an Ethics Pillar—the three key pillars of decision making in business and in life—the model enables you to achieve the twin goals that lead to business success: managing risk and creating value.

As a customer success leader, whose insight do you rely on for success? Your field is maturing, yet your profession is one of the fastest growing in the world. There are tons of books and blogs written by success professionals sharing their experiences and strategies, but how do you know what will work for your specific situation? Whose advice is the expertise you can trust? Wayne McCulloch has more than 25 years of experience in the software industry. He's spent in training, adoption, and customer experience, the building blocks for customer success. Now he's sharing what he knows as a chief customer officer leading global success functions. In *The Seven Pillars of Customer Success*, Wayne provides an adaptable framework for building a strong customer success organization. From customer journey actions to the development of customer transformation advisors, you'll read detailed examples of how companies have put these seven pillars to the test. To create a culture of customer success and stand out in the market, you need a proven framework and knowledgeable perspective—this book provides both, and more. Of all the judgments you make in life, none is as important as the one you make about yourself. The difference between low self-esteem and high self-esteem is the difference between inaction and action, between failure and success. Now, one of America's foremost psychologists and a pioneer in self-esteem development offers a step-by-step guide to strengthening your self-worth. Here are simple, straightforward and effective techniques that will dramatically improve the way you think and feel about yourself. You'll learn: How to break free of negative self-concepts and self-defeating behavior. How to dissolve internal barriers to success, happiness and love. How to overcome anxiety, depression, guilt and anger. How to conquer the fear of intimacy and success. How to find -- and keep -- the courage to love yourself. And much more. Train like an animal...to move like a human... *Animal Moves* is a groundbreaking new workout and playout program from Darryl Edwards that utilises the functional and primal movements of the animal kingdom as inspiration for an exercise regimen that will have you the king or queen of the jungle in no time. Future-proof your body and reconnect with the fitter, stronger and healthier you with over 40 functional exercises, fun activities, and three, four-week fitness programs. With the help of its innovative 28-day movement plan, *Animal Moves* empowers you to move with more ease and efficiency when performing functional movements and to make everyday activities easier and more enjoyable. The compound movement exercises in *Animal Moves* targets the whole body at varied intensities enabling people of all fitness levels and ages, to lead more active and dynamic lives. improve strength, speed and stamina increase mobility, flexibility and stability look, feel and perform better Follow Darryl's easy-to-follow instructions, tips and photo illustrations to: save time - with high-intensity training make money - no gym membership required improve mood - using mindful movement reduce stress with breathwork and relaxation have fun - on scheduled playout days

Intuitive Eating, 2nd Edition

**"Only recently has it been discovered that the brain produces new brain cells throughout our entire lives, a process called neurogenesis. The rate at which we form new brain cells has a profound influence upon every aspect of our life. When the rate of neurogenesis is low, we see cognitive deficits and memory problems, anxiety and stress, depression, and lowered immunity. Life is difficult. With high rates of neurogenesis we see the opposite: enhanced cognitive abilities, rapid learning, emotional resilience, protection from anxiety, stress and depression, heightened immunity and robust health. We flourish. Life is wonderful. Given the neurotoxic norms of society, it's almost universally true that your brain is working far below its capacity. It is deteriorating much faster than it needs to. What good is living longer if your brain can't go the distance? Recent discoveries in the emerging field of neurogenesis reveal the secrets to radically improve your brain's health. You can operate at a higher level than you ever dreamed possible--at any age!" --**

**It only takes five minutes to start changing your life. For good. Everyone wants to be healthy. But thanks to the unceasing distractions in modern life, virtually everyone also struggles to maintain this priority. And thanks to a flood of conflicting opinions and complicated programs, figuring out how to be healthy can be overwhelming. But what if all it took to make a real difference was five minutes of your day? If you've ever struggled to prioritize your health, or started an intensive plan only to stop days, weeks, or months later, it's not your fault—behavioral science shows that most plans simply aren't built to last. Already a #1 bestseller in the UK, *Feel Better in 5* outlines a daily five-minute plan that is easy to follow, easy to maintain, and requires minimum willpower. From Dr. Rangan Chatterjee, a pioneer in the emerging field of progressive medicine and star of BBC's *Doctor in the House*, *Feel Better in 5* draws on his 20 years of experience, including real-life case studies from his medical practice, to identify simple, effective strategies that will help you become healthier, happier, and less stressed. Inside, discover:**

- A strength workout that you can do anywhere**
- Gut-boosting snacks you can eat on the go**
- Yoga moves to relax and stay supple**
- Breathing exercises to calm the mind**

**To get healthy and stay that way, you need a program that doesn't force you to shape your life around its demands. *Feel Better in 5* gives you a program that shapes itself around your life. It is your daily five-minute prescription for a happier, healthier you.**

**Why is it so easy for certain people to obtain success in their**

career? This guide seeks to enhance your understanding of the potential and capabilities given to us at birth. Trapped inside of you, waiting to be realised, is an incredible potential. Using the year, month, day, and hour of your birth, you can use the ancient Chinese astrological method of Four Pillars to systematically map out the blueprint of your life in matters of health, wealth, career, love, and happiness. Learn how the five-element theory, cosmic flow, combinations, the Ten Gods, and special stars pertain to the context of your career, potential, and wealth. Grounded in real-life case studies, the influence of cosmic energy on your choice of career and many aspects of life is explained. This manual also teaches you how to interpret the indicators in your life so you'll know when to take risks—and when you should be conservative. Have you ever wondered just how energy factors into your choices? And how you should choose a career that will truly fulfill your interests, skills, and talents? You will learn to see the crucial role that energy and flow play in creating opportunities for success, timing of investments, and job satisfaction.

"In this warm, wise, and witty overview, Jonathan Rauch combines evidence and experience to show his fellow adults that the best is yet to come." —Steven Pinker, bestselling author of *Enlightenment Now*

This book will change your life by showing you how life changes. Why does happiness get harder in your 40s? Why do you feel in a slump when you're successful? Where does this malaise come from? And, most importantly, will it ever end? Drawing on cutting-edge research, award-winning journalist Jonathan Rauch answers all these questions. He shows that from our 20s into our 40s, happiness follows a U-shaped trajectory, a "happiness curve," declining from the optimism of youth into what's often a long, low slump in middle age, before starting to rise again in our 50s. This isn't a midlife crisis, though. Rauch reveals that this slump is instead a natural stage of life—and an essential one. By shifting priorities away from competition and toward compassion, it equips you with new tools for wisdom and gratitude to win the third period of life. And Rauch can testify to this personally because it was his own slump, despite acclaim as a journalist and commentator that compelled him to investigate the happiness curve. His own story and the stories of many others from all walks of life—from a steelworker and a limo driver to a telecoms executive and a philanthropist—show how the ordeal of midlife malaise reboots our values and even our brains for a rebirth of gratitude. Full of insights and data and featuring many ways to endure the slump and avoid its perils and traps, *The Happiness Curve* doesn't just show you the dark forest of midlife, it helps you find a path through the trees. It also demonstrates how we can—and why we must—do more to help each other through the woods. Midlife is a journey we mustn't walk alone.

How much further should the affluent world push its material consumption? Does relative dematerialization lead to absolute decline in demand for materials? These and many other questions are discussed and answered in *Making the Modern World: Materials and*

## Get Free The 4 Pillar Plan How To Relax Eat Move And Sleep Your Way To A Longer Healthier Life

**Dematerialization.** Over the course of time, the modern world has become dependent on unprecedented flows of materials. Now even the most efficient production processes and the highest practical rates of recycling may not be enough to result in dematerialization rates that would be high enough to negate the rising demand for materials generated by continuing population growth and rising standards of living. This book explores the costs of this dependence and the potential for substantial dematerialization of modern economies. **Making the Modern World: Materials and Dematerialization** considers the principal materials used throughout history, from wood and stone, through to metals, alloys, plastics and silicon, describing their extraction and production.

grasp; you just have to step out of the way. In *Effortless Healing*, online health pioneer, natural medicine advocate, and bestselling author Dr. Joseph Mercola reveals the nine simple secrets to a healthier, thinner you. The results are amazing and the steps can be as easy to implement as: • Throwing ice cubes in your water to make it more "structured" • Skipping breakfast, as it could be making you fat • Eating up to 75 percent of your calories each day in fat for optimal health, reduction of heart disease, and cancer prevention • Avoiding certain meat and fish, but enjoying butter • Eating sauerkraut (and other fermented foods) to improve your immune system and your mood • Walking barefoot outside to decrease system-wide inflammation (and because it just feels great) • Enjoying a laugh: it's as good for your blood vessels as fifteen minutes of exercise *Effortless Healing* is the distillation of decades of Dr. Mercola's experience and cutting-edge medical knowledge. With his wisdom and that of your body, you can optimize your health, your weight, and your life...effortlessly.

We've all been there—angry with ourselves for overeating, for our lack of willpower, for failing at yet another diet that was supposed to be the last one. But the problem is not you, it's that dieting, with its emphasis on rules and regulations, has stopped you from listening to your body. Written by two prominent nutritionists, *Intuitive Eating* focuses on nurturing your body rather than starving it, encourages natural weight loss, and helps you find the weight you were meant to be. Learn: \*How to reject diet mentality forever \*How our three Eating Personalities define our eating difficulties \*How to feel your feelings without using food \*How to honor hunger and feel fullness \*How to follow the ten principles of *Intuitive Eating*, step-by-step \*How to achieve a new and safe relationship with food and, ultimately, your body With much more compassionate, thoughtful advice on satisfying, healthy living, this newly revised edition also includes a chapter on how the *Intuitive Eating* philosophy can be a safe and effective model on the path to recovery from an eating disorder.

The much-anticipated new book from bestselling author and nutritional therapist Amelia Freer, that will help you transform your relationship with food, for life. In *Amelia Freer's* most comprehensive book yet, she shares the practices she has developed and refined over years of working with high-profile clients, such as James Corden and Victoria Beckham. It includes a 10-day plan and over 40 recipes that will fundamentally transform the way you grocery shop, cook, and eat—now and for life. With gentle yet authoritative guidance, this book will empower you to achieve a healthier and happier relationship with

## Get Free The 4 Pillar Plan How To Relax Eat Move And Sleep Your Way To A Longer Healthier Life

food, and to discover a way of eating that is right for you. Amelia recognizes that there is no "one-size-fits-all" approach to food, and the simple, delicious recipes she provides are bright, fresh antidotes to what many people envision when they think of eating on a diet. Nourishing yet creative recipes (and their vegan alternatives) like Turmeric & Mango Spiced Chia Pot, Rainbow Abundance Bowl, Salmon Salad in a Jar, Overnight Oat Crumble with Apple, and Falafel Burgers, will leave you satisfied and inspired to embark on a journey of healthy eating for life.

You will learn the four pillars of management: planning, organizing, directing, and controlling, and learn how to apply them to turn wishes, dreams, and ideas into reality. You will become a better manager and leader. You will learn how to create strategic and operational plans and put them into action to achieve your goals. You will learn a lot of terms and techniques, such as Strategic Business Model, Line of Business LOB, Strategic Business Unit SBU, and Key Performance Indicators KPI. You will be able to set SMART goals, do a SWOT analysis, and Gap analysis. You will learn the organizing process and how to prioritize and group activities, and the most important techniques in time management to become more efficient and achieve the optimal results. You will learn the directing process, effective communication, motivation. and its theories, and leadership, to become a great leader. You will learn how to do the controlling process to make sure everything is going according to your plan, and how to do the right adjustment in case you have any deviation in the process. Every entrepreneur needs to have this knowledge and acquire these skills to be a successful businessman.

any one pillar; what matters is the balance across all the things you do, from- - Having an electronic 'sabbath' once a week - Aiming for 12 hours every day without food - Exposing yourself to sunlight first thing each morning Based on cutting edge research and his own experience as a GP, and featuring fascinating case studies from real patients, *The Power of Balance* is an inspiring, easy-to-follow and practical guide to good health.

Revised and updated Shortlisted for the *Financial Times/McKinsey Business Book of the Year Award* From one of the most important economic thinkers of our time, a brilliant and far-seeing analysis of the current populist backlash against globalization. Raghuram Rajan, distinguished University of Chicago professor, former IMF chief economist, head of India's central bank, and author of the 2010 *FT-Goldman-Sachs Book of the Year Fault Lines*, has an unparalleled vantage point onto the social and economic consequences of globalization and their ultimate effect on our politics. In *The Third Pillar* he offers up a magnificent big-picture framework for understanding how these three forces--the state, markets, and our communities--interact, why things begin to break down, and how we can find our way back to a more secure and stable plane. The "third pillar" of the title is the community we live in. Economists all too often understand their field as the relationship between markets and the state, and they leave squishy social issues for other people. That's not just myopic, Rajan argues; it's dangerous. All economics is actually socioeconomics - all markets are embedded in a web of human relations, values and norms. As he shows, throughout history, technological phase shifts have ripped the market out of those old webs and led to violent backlashes, and to what we now call populism. Eventually, a new equilibrium is reached, but it can be ugly and messy, especially if done wrong. Right now, we're doing it wrong. As markets scale up, the state scales up with it, concentrating economic and political power in flourishing central hubs and leaving the periphery to decompose, figuratively and even literally. Instead, Rajan offers a way to rethink the relationship between the market and civil society and argues for a return to strengthening and empowering local communities as an antidote to growing despair and unrest. Rajan is not a doctrinaire conservative, so his ultimate argument that decision-making has to be

devolved to the grass roots or our democracy will continue to wither, is sure to be provocative. But even setting aside its solutions, *The Third Pillar* is a masterpiece of explication, a book that will be a classic of its kind for its offering of a wise, authoritative and humane explanation of the forces that have wrought such a sea change in our lives.

"Fundraising has a major problem facing its sustainability, and it has nothing to do with the charitable tax deduction, with the transfer of wealth, or with the new generation of donors -- the millennials. It has everything to do with donor retention. Average donor retention rates for first time donors hover at a dismal less than 30% rate. Yet a focus on acquisition cannot be the whole solution -- not when studies reveal that donor acquisition costs seven times as much as retention. It's more cost effective to keep the donors an organization has than to chase new ones. A well-executed, strategic donor relations program is key to successful fundraising. In this book, Lynne Wester of Donor Relations Guru® helps you rethink donor relations practices and offers specific tips for more powerful acknowledgements, stewardship and impact reporting, recognition, and donor engagement."--Publisher's website.

The brilliant, inspirational next book by the author of the incredible No. 1 bestseller *FIRST MAN IN*.

The very existence of stress generates more stress. The more of it that piles up, the less we're able to cope. It's time to take back control. For Dr Chatterjee, the key to solving the problem of stress is about addressing the underlying causes of our anxieties in four main areas: Body, Mind, Relationships, and Life. Pairing the science of what happens in our brains and our bodies when we become stressed, with personal accounts and patient cases, Dr Chatterjee provides easy to implement solutions for the whole spectrum of stressors we face on a daily basis. From identifying our 'Micro Stress Doses' - those individual portions of stress we encounter moment to moment, and our 'Macro Stress Doses' - those big adverse life events that can have long-lasting impact; Dr Chatterjee will take you on a journey to regain control over your stress, rather than it having control over you. Introducing a new way of thinking about health, *The Stress Solution* will help you to live a happier, more fulfilling and stress-free life.

**"A terrific and timely book that makes a compelling case for fundamentally rethinking how your business communicates. Recommended!" —Jay Baer, founder of Convince & Convert and author of Hug Your Haters "Once upon a time, storytelling was confused with talking at people. Not anymore. Shane and Joe are your narrators in a journey that will transform how you talk to other human beings to be more believable, relevant, compelling and unforgettable." —Brian Solis, experience architect, digital anthropologist, best-selling author "Shane Snow and Joe Lazauskas spend the overwhelming majority of their time thinking, writing, and theorizing about brand storytelling - so you don't have to. They're smart and they know this topic inside out (and sideways). Read their book. While I can't guarantee you'll rise to Shane and Joe's ridiculously obsessive level, you will be infinitely better prepared to tell your own brand's story. Promise!"**

**—Rebecca Lieb, Analyst, Author & Advisor "The Contently team understands the power of story, and how to craft and spread a great narrative, like no other. In an era where brand, design, and mission are a competitive advantage for every business, Contently underscores the importance of stories and how they transform companies and industries." —Scott Belsky, Entrepreneur, Investor, & Author (Founder of Behance, bestselling author of Making Ideas Happen) "I can't think of a better way to illustrate the power of story telling than by telling great stories. This book should be required reading not just by those with content in their titles, but by anyone in Marketing AND Sales. Then, when you're done, give it to your CEO to read... but make sure you get it back, because I guarantee you'll refer to it more than once." —Shawna Dennis, Senior Marketing Leader**

**"Neuroscience, algorithms, illustrations, personal anecdotes and good, old-fashioned empathy: This entertaining and informative tome journeys to the core of how we communicate and pushes us, as marketers and humans, to do it better, "speeding the reader through and leaving us wanting more." —Ann Hynek, VP of global content marketing at Morgan Stanley Transform your business through the power of storytelling. Content strategists Joe Lazauskas and Shane Snow offer an insider's guide to transforming your business—and all the relationships that matter to it—through the art and science of telling great stories. Smart businesses today understand the need to use stories to better connect with the people they care about. But few know how to do it well. In *The Storytelling Edge*, the strategy minds behind Contently, the world renowned content marketing technology company, reveal their secrets that have helped award-winning brands to build relationships with millions of advocates and customers. Join as they dive into the neuroscience of storytelling, the elements of powerful stories, and methodologies to grow businesses through engaging and accountable content.**

***With The Storytelling Edge you will discover how leaders and workers can craft the powerful stories that not only build brands and engage customers, but also build relationships and make people care—in work and in life.***

***'Anyone with skin complaints needs to read this book' - Tej Lalvani For more than 20 years, Hanna Sillitoe suffered from severe psoriasis, eczema and acne. They dominated her life and shattered her confidence. When her doctor told her the only remaining treatment was a chemotherapy drug, Hanna took matters into her own hands and started researching a natural solution. She changed her lifestyle dramatically and cut out caffeine, alcohol, added sugar, dairy, wheat and nightshades. Five years on, Hanna is free from all skin complaints and has gathered a huge online audience. Following the success of her first book, Radiant, and the launch of her new skincare range, for which she won support from Peter Jones and Tej Lalvani on BBC's Dragons' Den, this new book shows you how to apply Hanna's skincare advice to your everyday life with small, achievable changes that yield long-term, sustainable results. Based around 5 key areas or pillars, Hanna covers Diet with delicious recipes to heal you from within, Mind with advice on meditation and self-care, Exercise with tips on how to get into a healthy routine, Sleep with advice and remedies for a good night's rest, and Skincare with luxurious homemade lotions and creams. It's everything you need to take control of your health and achieve calm, clear skin.***

***The overwhelming majority of a software system's lifespan is spent in use, not in design or implementation. So, why does conventional wisdom insist that software engineers focus primarily on the design and development of large-scale computing systems? In this collection of essays and articles, key members of Google's Site Reliability Team explain how and why their commitment to the entire lifecycle has enabled the company to successfully build, deploy, monitor, and maintain some of the largest software systems in the world. You'll learn the principles and practices that enable Google engineers to make systems more scalable, reliable, and efficient—lessons directly applicable to your organization. This book is divided into four sections: Introduction—Learn what site reliability engineering is and why it differs from conventional IT industry practices Principles—Examine the patterns, behaviors, and areas of concern that influence the work of a site reliability engineer (SRE) Practices—Understand the theory and practice of an SRE's day-to-day work: building and operating large distributed computing systems Management—Explore Google's best practices for training, communication, and meetings that your organization can use***

***The must-have health bible that explains exactly how to stay in radiant, optimal health all year round. Are you confused about what supplements you should be taking? Do you want to know how you can reverse the effects of pollution on your body? Would you like to eat seasonally? Drawing on Dr Jenny Goodman's 20+ years' experience as a medical doctor, lecturer and qualified nutritionist, Staying Alive in Toxic Times sets out exactly what to eat in order to live our healthiest lives, and how to adapt our lifestyle according to the season we are in. Dr Jenny Goodman lays out how to safely and effectively supplement your diet with vitamins and minerals, explains what really works in terms of detoxing your body, and sorts through the confusing myriad of diets and healthy eating fads, using her expertise to myth-bust. Staying Alive in Toxic Times also reveals how to avoid seasonal health hazards, such as indoor pollution, hay fever and SAD. With so many people feeling tired, ill and run-down, this timely guide is what everyone needs to read in order to live vibrant, happy and long lives.***

**'Meik's new book will change the way you think' Dr Rangan Chatterjee**

**From the same author that brought us *The Little Book of Hygge*, this book reveals the secret to filling your life with happy moments, and how to remember them for ever. Happy memories don't have to be reserved for big life events. Drawing on global surveys, behavioural science experiments and data gathered by The Happiness Research Institute in Copenhagen, Meik is here to show how we can turn ordinary experiences into something extraordinary. Whether it's eating dinner at the table rather than in front of the TV, exploring a new part of your neighbourhood, or planning how you're going to celebrate your small wins, this book will help you find the magic in the every day, and create memories you will cherish forever. **Four Pillars of Investing for Thriving in Today's Markets**

**Weight loss isn't a race. It isn't one size fits all. Everyone wants fast results, but when it comes to losing weight with crash diets, what goes down nearly always comes back up. And weight-loss programs designed to fit "everyone" are often too broad and restrictive to fit into the complicated lives of real people. Drawing on twenty years of experience, Dr. Rangan Chatterjee-BBC personality and author of the bestselling *Feel Better in 5*-has created a conscious, compassionate, sustainable approach to weight loss that goes far beyond fad diets to find the individual strategies that will work for you. Packed with quick and easy interventions, this book will help you:**

- Understand the effects of what, why, when, where and how we eat**
- Discover the root cause of your weight gain**
- Nourish your body to lose weight without crash diets or grueling workouts**
- Build a toolbox of techniques to help you weigh less while living more**

**Feel Great, Lose Weight is a new way to look at weight loss-a 360-degree view that goes beyond calories to see the bigger picture, including not just physical but also mental and environmental factors. With Dr. Chatterjee's guidance and encouragement, you'll turn simple and sustainable lifestyle changes into a more energized, confident, and healthier you.**

**A much-needed program to prevent and reverse disease, and discover a path to sustainable, long-term health from an acclaimed international doctor and star of the BBC program**

**Doctor in the House. How to Make Disease Disappear is Dr. Rangan Chatterjee's revolutionary, yet simple guide to better health—a much-needed, accessible plan that will help you take back control of your health and your life. A physician dedicated to finding the root cause of ill health rather than simply suppressing symptoms with drugs, Dr. Chatterjee passionately advocates and follows a philosophy that lifestyle and nutrition are first-line medicine and the cornerstone of good health. Drawing on cutting edge research and his own experiences as a doctor, he argues that the secret to preventing disease and achieving wellness revolves around four critical pillars: food, relaxation, sleep, and movement. By making small, incremental changes in each of these key areas, you can create and maintain good health—and alleviate and prevent illness. As Dr. Chatterjee, reveals we can reverse and make disease disappear without a complete overhaul of our lifestyle. His dynamic, user-friendly approach is not about excelling at any one pillar. What matters is balance in every area of your life, which includes: Me-time every day An electronic-free Sabbath once a week Retraining your taste buds Daily micro-fasts Movement snacking A bedtime routine Practical and life-changing, How to Make Disease Disappear is an inspiring and easy-to-follow guide to better health and happiness. Packed with easy-to-follow advice, the latest science and accessible and nourishing recipes and meal plans, nutritionist Jeannette Hyde's radical new approach will help you:**

- Lose weight with a tried and tested four week plan
- Transform the look of your skin and hair
- Address any long-standing digestive problems including bloating and IBS
- Strengthen your immune system
- Experience fewer mood swings and less anxiety
- Sleep better
- Eat for a healthy mind and body with over 50 delicious recipes

**The Gut Makeover is based on revolutionary new science that reveals that the state of our gut is central to our weight and health. Learn how to rebuild your microbiome - the bacteria living in the human gut - which is the key to every single aspect of our health. The great news is there is a lot you can do to cultivate a healthy gut. The Gut Makeover is the only book you'll need for a whole health overhaul - to control your weight, improve your skin, lift your spirits and strengthen your immune system for good. This is more than another fad diet. This is a lifestyle you'll want to adopt for life.**

**A self-published phenomenon examining the habits that kept our ancestors disease-free—now with a prescriptive plan for “The Human Diet” to help us all live long, vital, healthy lives. Physician and biochemist Cate Shanahan, M.D. examined diets around the world known to help people live longer, healthier lives—diets like the Mediterranean, Okinawa, and “Blue Zone”—and identified the four common nutritional habits, developed over millennia, that unfailingly produce strong, healthy, intelligent children, and active, vital elders, generation after generation. These four nutritional strategies—fresh food, fermented and sprouted foods, meat cooked on the bone, and organ meats—form the basis of what Dr. Cate calls “The Human Diet.” Rooted in her experience as an elite athlete who used traditional foods to cure her own debilitating injuries, and combining her research with the latest discoveries in the field of epigenetics, Dr. Cate shows how all calories are not created equal; food is information that directs our cellular growth. Our family history does not determine our destiny: what you eat and how you live can alter your DNA in ways that affect your health and the health of your future children. Deep Nutrition offers a prescriptive plan for how anyone can begin eating The Human Diet to:**

- \*Improve mood**
- \*Eliminate cravings and the need to snack**
- \*Boost fertility and have healthier children**
- \*Sharpen cognition and memory**
- \*Eliminate allergies and disease**
- \*Build stronger bones and**

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Look for Brené Brown's new podcast, Dare to Lead, as well as her ongoing podcast Unlocking Us! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets

that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

The book begins by addressing many of the challenges stock market investors face today and the various ways many investors use the stock market to achieve their goals. A valuable discussion of where paper assets fit (and do not fit) in the context of Rich Dad principles and its place among the other assets classes such as real estate business and commodities. The bulk of the book educates investors on "Andy's 4 pillars of stock market income" and effectively simplifies the four concepts to help investors begin to harness their power. The book concludes with ideas for an individual action plan suited to the goals of the reader

**BUSINESS STRATEGY.** "The 4 Disciplines of Execution" offers the what but also how effective execution is achieved. They share numerous examples of companies that have done just that, not once, but over and over again. This is a book that every leader should read! (Clayton Christensen, Professor, Harvard Business School, and author of "The Innovator's Dilemma). Do you remember the last major initiative you watched die in your organization? Did it go down with a loud crash? Or was it slowly and quietly suffocated by other competing priorities? By the time it finally disappeared, it's likely no one even noticed. What happened? The whirlwind of urgent activity required to keep things running day-to-day devoured all the time and energy you needed to invest in executing your strategy for tomorrow. "The 4 Disciplines of Execution" can change all that forever.

Look Younger, Be Healthier, and Experience a New Kind of Energy  
Sluggishness. Boredom. Lack of concentration. Too many of us pour another cup of coffee and accept fatigue as the inevitable side effect of hectic lives. Dr. Matthew Edlund shows us there is a better way. (and it's not just sleeping more!) This groundbreaking program will rewire your body, improving your productivity, creativity, and sense of well-being. Experience the extraordinary benefits—including dramatically decreased stress and increased energy—of the four types of rest: Physical: From deep breathing to the "UnNap," learn how to vanquish stress in seconds. Mental: Practice key strategies of relaxed concentration, and marvel at how much more you can accomplish. Social: See how even walking to lunch with a coworker creates a new sense of security and support. Spiritual: Experience a connection to something greater than the self, the key to internal balance. The Power of Rest introduces one powerful technique each day, many of which can be accomplished in a minute or less. Rediscover the feeling of being truly alert and engaged with your body, your work, and the people you love.

gentle and accessible step-by-step guide to moving from excessive reliance on medications to fundamentally healing yourself through four pillars of natural wellness. Madisyn Taylor was plagued by depression and anxiety, suffering from chronic physical problems that left her desperate for solutions. Spending decades searching for answers, she first turned to the medical community, which put her on a rollercoaster course of numerous doctors, tests, and an unhealthy reliance on medications that left her numb and lifeless. With her happiness and future on the line, she then made the decision to become unmedicated, reaching out to the natural, holistic health realm. And after years of practice and research, Madisyn developed an integrative wellness program that put her back in the driver's seat of her health, and ultimately, her life. Unmedicated is her thoughtful account of how she broke free from binding mental chains and physical ailments to be happy, healthy, and productive; it is also a guide for you to apply her practical techniques to your own healing journey. Madisyn offers a daily program of easy-to-follow actions based on four pillars that will build a lifelong foundation for health: clear your mind; strengthen your body; nurture your spirit; and find your tribe. Whether you want to be happy and stay happy, find relief from depression and anxiety, or heal and create a healthy change, Unmedicated is a gentle, compassionate, and achievable path that empowers you to take back your life and live fully.

**“Joe Feldman shows us how we can use grading to help students become the leaders of their own learning and lift the veil on how to succeed. . . . This must-have book will help teachers learn to implement improved, equity-focused grading for impact.” --Zaretta Hammond, Author of Culturally Responsive Teaching & The Brain Crack open the grading conversation Here at last—and none too soon—is a resource that delivers the research base, tools, and courage to tackle one of the most challenging and emotionally charged conversations in today’s schools: our inconsistent grading practices and the ways they can inadvertently perpetuate the achievement and opportunity gaps among our students. With Grading for Equity, Joe Feldman cuts to the core of the conversation, revealing how grading practices that are accurate, bias-resistant, and motivational will improve learning, minimize grade inflation, reduce failure rates, and become a lever for creating stronger teacher-student relationships and more caring classrooms. Essential reading for schoolwide and individual book study or for student advocates, Grading for Equity provides A critical historical backdrop, describing how our inherited system of grading was originally set up as a sorting mechanism to provide or deny opportunity, control students, and endorse a “fixed mindset” about students’ academic potential—practices that are still in place a century later A summary of the research on**

motivation and equitable teaching and learning, establishing a rock-solid foundation and a “true north” orientation toward equitable grading practices Specific grading practices that are more equitable, along with teacher examples, strategies to solve common hiccups and concerns, and evidence of effectiveness Reflection tools for facilitating individual or group engagement and understanding As Joe writes, “Grading practices are a mirror not just for students, but for us as their teachers.” Each one of us should start by asking, “What do my grading practices say about who I am and what I believe?” Then, let’s make the choice to do things differently . . . with Grading for Equity as a dog-eared reference.

The award-winning literary critic takes readers down the rabbit hole of Victorian cultural and intellectual influences on Lewis Carroll’s Alice books. In *Alice’s Adventures in Wonderland* and *Through the Looking-Glass*, Lewis Carroll created fantastic worlds that continue to live in the minds of readers today. Carroll conceived his Alice books during the 1860s, a time of intense intellectual upheaval, as new scientific, linguistic, educational, and mathematical ideas flourished around the world. *Alice in Space* explores these historic currents, revealing essential context for Carroll’s jokes, concerns, and hidden references. Parody and Punch, evolutionary debates, philosophical dialogues, educational works for children, math and logic, manners and rituals, dream theory and childhood studies—all fueled the fireworks of Carroll’s restless imagination. In this lively investigation, Gillian Beer convincingly shows him at play in the spaces of Victorian cultural and intellectual life, drawing on then-current controversies, reading prodigiously across many fields, and writing on multiple levels to please both children and adults in different ways. With a welcome combination of learning and lightness, Beer reminds us that Carroll’s books are essentially about the risks and pleasures of curiosity. Along the way, *Alice in Space* shares Alice’s exceptional ability to spark curiosity in us, too.

Cultural vitality is an essential to a healthy and sustainable society as social equity, environmental responsibility and economic viability. In order for public planning to be more effective, its methodology should include an integrated framework of cultural evaluation similar to social, environmental and economic assessment.

The classic guide to constructing a solid portfolio—without a financial advisor! “With relatively little effort, you can design and assemble an investment portfolio that, because of its wide diversification and minimal expenses, will prove superior to the most professionally managed accounts. Great intelligence and good luck are not required.”

William Bernstein’s commonsense approach to portfolio construction has served investors well during the past turbulent decade—and it’s what made *The Four Pillars of Investing* an instant classic when it was first published nearly a decade ago. This down-to-earth book lays out in easy-to-understand prose the four essential topics that every investor must master: the relationship of risk and reward, the history of the market, the psychology of the investor and the market, and the folly of taking financial advice from investment salespeople. Bernstein pulls back the curtain to reveal what really goes on in today’s financial industry as he outlines a simple program for building wealth while controlling risk. Straightforward in its presentation and generous in its real-life examples, *The Four Pillars of Investing* presents a no-nonsense discussion of: The art and science of mixing different asset classes into an effective blend The dangers of actively picking stocks, as opposed to investing in the whole market Behavioral finance and how state of mind can adversely affect decision making Reasons the mutual fund and brokerage industries, rather than your partners, are often your most direct competitors Strategies for managing

**all of your assets—savings, 401(k)s, home equity—as one portfolio Investing is not a destination. It is a journey, and along the way are stockbrokers, journalists, and mutual fund companies whose interests are diametrically opposed to yours. More relevant today than ever, The Four Pillars of Investing shows you how to determine your own financial direction and assemble an investment program with the sole goal of building long-term wealth for you and your family.**

**In his new book, Dr. Greg Wells offers concrete strategies on how to get better and stay better—not just for a few weeks or a few months, but for life. Optimal well-being is obtained through a commitment to the “holy trinity” of healthy living—eating better, moving better, sleeping better. Together these lead to peak physical performance. With tremendous insight into the physiology of the human body and the reasons mankind has evolved the way it has, The Ripple Effect exposes exercise and diet myths, inspiring you and leading you on a clear path to achieving a health and fitness transformation. With small—and very achievable—daily changes in your life, you'll see the incredible effects of aggregate gains that professional athletes know. You'll learn how: Eating broccoli provides the body with more protein per calorie than eating steak Using one teaspoon less of sugar per day would help you lose four pounds of fat per year Walking for fifteen minutes per day decreases your risk of cancer by fifty per cent Playing games like tennis can prevent Alzheimer's disease Losing ninety minutes of sleep reduces daytime alertness by nearly a third Replacing an hour of television with an hour of sleep could help you lose over fourteen pounds in a year And much more.**
