

The All Breed Dog Grooming Guide

One of the responsibilities of every dog or cat owner is that of coat care. There are many and varied coat types and there is a vast difference between the time it takes to groom a Doberman and an Old English Sheepdog, a Siamese and a Persian cat. This book provides much needed guidance for groomers, breeders and owners. It will be invaluable for those taking the City and Guilds 775 Grooming exam and animal care students of all levels. Step by step grooming/clipping techniques are described for the more popular breeds of dog and cat and in each case the technique is illustrated with photographic sequences. The book also includes allied subjects such as skin care, commonly found skin parasites and basic first aid and handling.

Master dog groomer to the stars Jorge Bendersky bathes, brushes, trims and pampers some pretty important pooches. Nevertheless, the fundamental skills and techniques he uses every day in his Manhattan salon can and should be in every dog owner's repertoire. From breed identification to tool selection, clipping to scissoring, Bendersky shares, in his unmistakably playful way, the tricks of his trade, ensuring your canine companion will never again suffer a bad hair day.

Structure: the foundation for health and function What sets apart the average dog enthusiast from the expert? Often it's an in-depth knowledge of the anatomy of the dog and a solid understanding of terminology used in the world of dogs. Do you know what a judge is talking about when he mentions "stifle let-down," "shallow brisket," or "excessive angulation?" K-9 Structure and Terminology defines and illustrates these and hundreds of other terms in easy to understand language so you can train your mind and eye to evaluate dogs. All dogs need sound structure for health, show, work, or sport, and, by learning to see beneath the skin the reader will be more able to work with, understand, and appreciate canis familiaris. Gain a better understanding of:

- Breed Standards including breed variations.
- How the original purpose of the breed is expressed in the structure of the dog.
- Terminology used in veterinary care and dog sports, especially Conformation.
- How to identify what is right and sound in any dog you encounter.

Bonus! A 31-page glossary of words including common and less common terms. What experts are saying about K-9 Structure and Terminology: "If you wish to significantly improve your knowledge of canine conformation, K-9 Structure and Terminology provides a...comprehensive description of the details...of canine variation. And it does so with a clear focus on the importance of establishing a common terminology that can be understood and applied." James W.

Edwards, Ph.D., Professor of Biology, Emeritus, Salem College; AKC, Director, Judging Research and Development "All of us in the dog world should strive for perfection...We need to train our eyes and our hands to recognize the strengths in a dog's structure and movement. This book is an excellent guide in our unending quest of applicable knowledge." Pat Hastings, author of Tricks of the Trade. From Best Intentions to Best in Show, AKC Judge and noted lecturer Edward M. Gilbert is a multiple breed and group AKC judge, lecturer, and writer. His engineering and technical writing background makes him especially well-suited to the task of explaining canine structure and terminology. He lives in California with his wife Pat and their retired Champion Afghans and Salukis. Thelma Brown, AKC Emeritus judge, worked side by side with her husband Curtis Brown breeding and showing dogs beginning in 1937. She is retired and living in California.

Jodi has been well respected as an educator in the grooming industry for many years. She is one of the top pet stylists in the world winning multiple titles included World Grand Champion and Best American Groomer. She is here to share her knowledge in this extraordinary book. With over 190 breeds recognized by the American Kennel Club along with individual breed-specific grooming instructions, it can become very overwhelming for new groomers to retain the information. Straight to the Point is the solution to learning about pattern lines, which simplifies the learning process. Whether the patterns are set tight or left more natural, the patterns are set in the same fashion. Once a groomer understands basic patterns he or she will be able to groom any breed with ease. The dogs pictured in this book are top winning show dogs presenting the correct profile according to their breed standards. Jodi chose to illustrate this way for several reasons. First, a show dog presents an excellent representation of the breed and how it should be groomed per the breed standard. Second, the reader will be able to see the realistic depth and dimensions of the coat. Last, it will give the reader a vision of the pattern in a realistic view and will be a great reference source when grooming each breed. Once the groomer understands correct pattern placement, it can easily be applied to pet trims. A pet dog does not have to be groomed using show techniques, i.e., hand stripping, to present the proper breed profile. With proper pattern placement and techniques described in this text, the groomer will be able to present a well-balanced, well-blended pet trim to the pet owner.

The ultimate goal of wellness care is improved quality of life and longevity. Comprehensive life stage wellness care permits early detection and treatment or control of disease and cost-saving in long-term healthcare expenses. Clearly defined wellness plans encourage a unified approach from the entire veterinary team. The client is a crucial member of this team. A collaborative approach is generally linked to best outcomes.^{11,96} Table 4 (below) provides web-based resources useful to both the veterinary team and clients. A strong, clear recommendation must always begin with the veterinarian and be followed up by the entire veterinary team. Incorporate individualized life stage guidelines into reminder and callback systems.⁴⁸ Strong, unified follow-up recommendations from the multiple members of the entire veterinary team will produce better compliance. Discuss future life stage recommendations beginning

with the first visit to help set client expectations. Make it easy for the client to comply (e.g., consider types of or timing of preventive medications), advise clients of the risks and benefits, and provide encouragement in carrying out the patient's wellness care needs. Discuss healthcare financial planning to help pet owners prepare for the costs associated with optimal healthcare. Discuss wellness plans, including the pros and cons of insurance and/or other forms of healthcare financial planning to help pet owners comply with an optimal wellness plan. Staging of procedures, multiple visits, and various payment options may help increase compliance and ensure that patients receive as many of the wellness recommendations as possible.

Typically, where animals are involved in any capacity, there will inevitably be colorful stories to tell. It is a natural consequence of the fact that by nature animals are uninhibited creatures. They are not bound by a proper code of behavior; their actions are unabashed and in your face. No one is better positioned to observe and fully appreciate their unpredictable behavior than a pet groomer. If we allow ourselves a robust sense of humor, we will soon discover that their endless variety of antics will amaze, fill us with wonder, and provide us with hours of pleasure. I have chosen to lay bare every facet of the pet grooming profession with no sugar coating. The facts herein represent the raw truth. Happily, the better part of that truth is fun, productive, and rewarding. The dark side, however, is sad, dangerous, and disgusting. What follows is a candid account of that truth--the daily interactions of one pet groomer with the pets and their owners over a span of thirty-seven years. So come along with me for a peek inside the fascinating and always capricious world of pet grooming. I hope you enjoy reading about it as much as I enjoyed living it.
