Waking naked and alone on a deserted island, Rob Stone has no recollection of how he got there, or who he is. His memory is one of snapshots, each one building a picture of what he does and who he truly is. He discovers he has both the skills and will to survive. But survival is one thing, being hunted is another. A beautiful journalist in desperate need of help. The dark web, the dumping ground for the evil of the internet. An enemy from his past. Murder, abduction and betrayal. Stone must try to remember the time before the island changed everything. The island will help him remember. The island will make him wish he could forget.When the unthinkable becomes reality...

Extinction Horizon

*In the darkness of the Congo, a team of special operatives sent by a shadowy organization races to find the true origin of the Ebola virus. A doctor, a scientist, a bio-engineered martial artist, a voodoo priest and a cyborg... none is prepared for the true horror that awaits them. At a US research facility funded by the military and clandestine agencies a super-virus has been created as a first strike military weapon. During its conception the anti-virus has furthered the possibilities of medical research by decades. Such is its potential, treachery has struck from within. If the virus is released, then the anti-virus will be worth billions to the pharmaceutical industry. Isobel Bartlett worked on the project and knows its potential. After the suspicious death of her mentor, and upon hearing part of an audacious plan to make money from the project she flees the facility with the information needed to culture the viruses to seek help from the FBI. Up against rogue government forces, she is helped by Agent Rob Stone of the Secret Service who has been tasked by the president to investigate a disbanded assassination program after his investigation led him to the bio research facility. The two are hunted mercilessly by an assassin from Washington to the streets of New York. Only when the hunt reaches the wild forests of Vermont can ex-special forces soldier Stone take the fight to the enemy.*

*USA Today bestseller Nicholas Sansbury Smith's first book in his thrilling post-apocalyptic series about one man's mission to save the world. Master Sergeant Reed Beckham has led his Delta Force Team, codenamed Ghost, through every kind of hell imaginable and never lost a man. When a top secret Medical Corps research facility goes dark, Team Ghost is called in to face their deadliest enemy yet--a variant strain of Ebola that turns men into monsters. After barely escaping with his life, Beckham returns to Fort Bragg in the midst of a new type of war. As cities fall, Team Ghost is ordered to keep CDC virologist Dr. Kate Lovato alive long enough to find a cure. What she uncovers will change everything. Total extinction is just on the horizon, but will the cure be worse than the virus? Extinction is just on the horizon... Start reading the book that D. J. ***This Intergovernmental Panel on Climate Change Special Report (IPCC-SREX) explores the challenge of understanding and managing the risks of climate extremes to advance climate change adaptation. Extreme weather and climate events, interacting with exposed and vulnerable human and natural systems, can lead to disasters. Changes in the frequency and severity of the physical events affect disaster risk, but so do the spatially diverse and temporally dynamic patterns of exposure and vulnerability. Some types of extreme weather and climate events have increased in frequency or magnitude, but populations and assets at risk have also increased, with consequences for disaster risk. Opportunities for managing risks of weather- and climate-related disasters exist or can be developed at any scale, local to international. Prepared following strict IPCC procedures, SREX is an invaluable assessment for anyone interested in climate extremes, environmental disasters and adaptation to climate change, including policymakers, the private sector and academic researchers.***

Nythan must develop a plan to get his life back. You'll love this coming-of-age urban fantasy because it's an action-packed adventure that will keep you turning the pages.***

***When an MI6 agent is found to be keeping records of his missions to protect himself from betrayal he unwittingly makes himself a priority target. But how do you silence the most dangerous man imaginable? Send him into hell on earth... While Alex King is sent into Northern Iraq to tidy the loose ends of a botched mission, the archipelago of Indonesia is under communist threat from within its own military. A consortium of worried businessmen call for desperate measures and seek the services of an assassin. But what if MI6 could be duped into taking care of their problems for them? With secret links to China the communist contingent threatens Britain's trade initiatives with the largest mineral producing country on the planet. **This debut mystery from a fresh voice in Southwestern fiction stakes out the common ground between Tony Hillerman, Elmore Leonard, and Cormac McCarthy. In a remote corner of the Chickasaw Nation, tribal Lighthouse policeman Bill Maytubby and county deputy Hannah Bond discover the buzzard-ravaged body of Majesty Tate, a young drifter with a blank past. They comb Oklahoma’s rock prairie, river bottoms, and hard-bitten small towns for traces of her last days. Tate was seen dancing with Austin Love, a violent local meth dealer fresh out of prison. An Oklahoma City motel clerk connects her with an aspiring politician. An oil-patch roustabout and a shady itinerant preacher provide dubious leads. Ne'er-do-wells start dying off. A fluke lead propels Maytubby deep into Louisiana's bayou country, where a Cajun shrimper puts him on the scent of a bizarre conspiracy. He and Bond reunite in the Chickasaw Nation for the eventual face-off at Nail's Crossing. **The protagonist of this fictional autobiography wrestles with race in America from the perspective of someone who learns that he is considered black but also that he can pass as white if he wants to. His personal ambitiousness and racial ambivalence makes him a sort of American Hamlet: undone by indecision. Will he be “a credit to his race” by advancing an African-American heritage he loves and appreciates in the face of a hostile culture, or will he retreat into the mediocrity of a safe, white, middle-class family life? Along the way, he shares his penetrating observations about race relations in the American north and south, about the “freemasonry” of subterranean black American culture, about the emerging bohemian jazz subculture in New York City, and about traditions of African American religious music and oratory. *Silver traces the effects of English settlement on South Atlantic ecology, showing how three cultures interacted with their changing environment.*

*In the last days before signing the peace agreement, an IRA splinter cell mounts an operation on the British mainland using English criminals. This unprecedented move intrigues MI6 and they assume command of MI5's surveillance operation. A career criminal is released from prison and aims to win back the wife and child his sentence has cost him, but before he can, he is forced back into his old world. The stakes have changed and his family have become leverage for the most ruthless people imaginable. A woman imprisoned in an abusive relationship, desperate to escape with her son and rekindle her past becomes the pawn in a deadly world of deception, violence and retribution. A clandestine wing of the secret intelligence service tests its newest recruit. Alex King has trained and operated in the shadowy world of intelligence and now he must kill for his country, but before he can, he needs to discover more about the men he has been sent to kill.*

*Alex King knows he made a mistake, and as a result MI5 has been coerced into investigating the sudden and mysterious death of an MI6 operative. In the frozen wilds of Lapland at a point where Finland, Russia and Norway intersect, an isolated hotel becomes the only sanctuary from the most powerful Arctic storm in living memory. A Russian defector holds the key to a terrifying secret. Pursued by ruthless mercenaries, who will stop at nothing to silence them, the defector heads for the hotel, unaware that the man they mean to meet has been murdered. King must intercept the defector and get the deadly secrets they hold to safety. But who can he trust? And why, after all these years has King's past finally caught up with him here? Facing attack on all sides, and battling the frozen elements, King suspects that the fight most deadly is not always the one you can see.*

*This expanded twelfth edition of the bestselling guide to style is based on the Economist's own updated house style manual, and is an invaluable companion for everyone who wants to communicate with the clarity, style and precision for which the Economist is renowned. As the introduction says, 'clarity of writing usually follows clarity of thought.' The Economist Style Guide gives general advice on writing, points out common errors and clichés, offers guidance on consistent use of punctuation, abbreviations and capital letters, and contains an exhaustive range of reference material - covering everything from accountancy ratios and stock market indices to laws of nature and science. Some of the numerous useful rules and common mistakes pointed out in the guide include: "Which informs, that defines. This is the house that Jack built. But: This house, which Jack built, is now falling down. Discreet means circumspect or prudent; discrete means separate or distinct. Remember that "Questions are never indiscreet. Answers sometimes are" (Oscar Wilde). Flaunt means display, flout means disdain. If you flout this distinction you will flaut your ignorance Forgo means do without; forego means go before. Incarcerated in a prison hidden from society, an all but broken man has a terrifying secret. In a lifetime spent plotting against the West, former KGB General Vladimir Zuckovsky has done many unthinkable things. His captors know what he has done, have tortured it out of him, but they do not know everything. All he needs to do to bring down the Western World is hold out for long enough.Still reeling from a CIA double-cross, MI5 need their prisoner back. They have intelligence on America's secret prison, but there is only one way they can get an agent in place. Alex King accepts a mission of unparalleled risk. But first, he must commit a crime that will see him treated outside the US legal system and get to a prisoner who can destroy or save mankind with the knowledge he holds.For King, the risk to his life is worth the gamble. He knows the penalty if he does not act. But getting into America's secret prison to snatch back an asset is nothing compared to breaking out...

MI5 agents have been executed and more agents have been abducted with no terms received from the kidnappers. An MI5 analyst is missing having accessed and downloaded prohibited security data. The trial of notorious radical cleric Mullah Al-Shaaqaf collapses, his extradition falls apart. A man known to have funded ISIS, recruit fighters for Syria and coerce teenagers to martyr themselves. Again he walks free. The hunt for a nuclear warhead stolen ten years ago has led Russian intelligence to London. One man connects them all... When retired MI6 operative Alex King is contacted by the deputy director of MI5 with a proposition, he feels compelled to act. His brief is illegal, his actions unprecedented. The law and the courts have failed. Time and events are against the nation's intelligence services and the battle can no longer be fought by the rules. Britain's enemies will soon find the game has changed. As MI5 agent Caroline Darby investigates with the help of a seasoned Scotland Yard detective she soon starts to look through the elaborate misdirection and discovers the horrifying truth... Author Bio A P Bateman is an Amazon #1 best selling author. Both of his novels have reached the top 4 positions in the paid top 100 categories, with The Contract Man reaching no 1. A P Bateman has previously worked as a private investigator and trained and worked in close protection with ex-military, police and special forces. He has studied karate most of his life and still enjoys training. Having trained on US SWAT ranges in the past with serving police officers gives him a unique insight into weapons and tactics which adds realism to his writing.

"Alex King is unstoppable, a force to be reckoned with..." Stephen Leather - Sunday Telegraph bestselling author "From the editor: New to Alex King? Don't worry, this prequel novel is a great place to start. Timeline: Twenty years ago. A delegation of OPEC executives and intelligence operatives working deep undercover are taken hostage in Angola and moved across the border into the Congo. The region is recovering from thirty years of civil and tribal war and international oil contracts are up for grabs, but only if the area can be deemed stable. The standoff must be ended quickly but the newly appointed Angolan government will not grant Britain permission to deploy the SAS and has charged the woefully under-skilled defence force with rescuing the hostages. Alex King has much to prove. His first mission to halt a coup by a splinter cell of the IRA and London criminals was deemed a failure and his mentor Peter Stewart is having second thoughts about training him for the field. The brief is simple: Avoid an international incident and bring home the hostages. The reality is altogether more deadly. A small force of mercenaries led by Stewart and King must cross into the Congo and take on the Southside Boys - a gang of tribal rebels and boy soldiers, high on drugs and violence, who have made kidnapping, rape and murder their way of life.

Harnessing technology for a better future Looking into the future is always difficult and often problematic—but sometimes it’s useful to imagine what innovations might resolve today’s problems and make tomorrow better. In this book, 15 distinguished international experts examine how technology will affect the human condition and natural world within the next ten years. Their stories reflect major ambitions for what the future could bring and offer a glimpse into the possibilities for achieving the UN’s ambitious Sustainable Development Goals. The authors were asked to envision future success in their respective fields, given the current state of technology and potential progress over the next decade. The central question driving their research: What are likely technological advances that could contribute to the Sustainable Development Goals at major scale, affecting the lives of hundreds of millions of people or substantial geographies around the globe. One overall takeaway is that gradualist approaches will not achieve those goals by 2030. Breakthroughs will be necessary in science, in the development of new products and services, and in institutional systems. Each of the experts responded with stories that reflect big ambitions for what the future may bring. Their stories are not projections or forecasts as to what will happen: they are reasoned and reasonable conjectures about what could happen. The editors’ intent is to provide a glimpse into the possibilities for the future of sustainable development. At a time when many people worry about stalled progress on the economic, social, and environmental challenges of sustainable development, Breakthrough is a reminder that the promise of a better future is within our grasp, across a range of domains. It will interest anyone who wonders about the world’s economic, social, and environmental future.

Global Education Monitoring Report 2020

Narcoterrorism wreaks havoc on the world as drug cartels operate as dominating, murderous dictatorships. The powerful Irish Drug Cartel has set up drug manufacturing plants around the world and they will kill anyone who gets in their way. Sarah is an ambitious policewoman from an antiterrorist unit. She's also smart, beautiful, and extremely good at her job, which is why she is assigned to an Interpol Incident Response Team in Manchester, set up to find and stop The Cartel. Alongside colleagues from the United Kingdom's SAS, she must quickly learn new Close Quarters Battle tactics and apply them to a vengeful and threatening battlefield. Sarah's investigation appears to be going well until the fight turns personal. She must now struggle to save her friends, family, and even herself. Spanning the globe with a keen knowledge of special forces tactics and some genuinely shocking twists, this book warns of a bloody, drug-addled future we may soon face.

This publication assesses progress towards Sustainable Development Goal 4 (SDG 4) on education and its ten targets, as well as other related education targets in the SDG agenda. It addresses inclusion in education, drawing attention to all those excluded from education, because of background or ability. The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration, and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4, the global goal for education. It reminds us that, no matter what argument may be built to the contrary, we have a moral imperative to ensure every child has a right to an appropriate education of high quality.

The first science fiction course in the American academy was held in the early 1950s. In the sixty years since, science fiction has become a recognized and established literary genre with a significant and growing body of scholarship. The Cambridge History of Science Fiction is

a landmark volume as the first authoritative history of the genre. Over forty contributors with diverse and complementary specialties present a history of science fiction across national and genre boundaries, and trace its intellectual and creative roots in the philosophical and fantastic narratives of the ancient past. Science fiction as a literary genre is the central focus of the volume, but fundamental to its story is its non-literary cultural manifestations and influence. Coverage thus includes transmedia manifestations as an integral part of the genre's history, including not only short stories and novels, but also film, art, architecture, music, comics, and interactive media.

"Intriguing and cleverly constructed. One of the best thriller writers out there..." Stephen Leather, Sunday Times Bestselling Author When a disgraced Metropolitan detective is thrown a lifeline with a posting to Cornwall, he expects his life of dangerous undercover work will be replaced by monotony and a backlog of cases more suited to a junior detective. However, after a young girl goes missing and a local man is accused, DI Jackson is thrown into a world of deception, murder and confusion. How can social outcast Thomas Jago be accused of such terrible crimes and yet always have an alibi? Jackson is surprised when his teenage daughter turns up, breaking the custody order imposed after his divorce. Time is of the essence with a missing girl to find, but Jackson can't neglect his own daughter, and finds his world thrown into further chaos when he discovers a former enemy has placed a price on his head, with an assassin who won't quit.

From the #1 New York Times bestselling author of the Penn Cage series comes a gripping World War II thriller that " vaporizes almost every cliché about the limits of the genre...[it ' s] good enough to read twice " (Kirkus Reviews). It is January 1944—and as Allied troops prepare for D-Day, Nazi scientists develop a toxic nerve gas that will repel and wipe out any invasion force. To salvage the planned assault, two vastly different but equally determined men are sent to infiltrate the secret concentration camp where the poison gas is being perfected on human subjects. Their only objective: destroy all traces of the gas and the men who created it—no matter how many lives may be lost...including their own.

One friendly encounter leads to a brutal act of vengeance... Can Sullivan get the surviving child to safety before his enemies get to him? Sullivan, a former legendary assassin and now a wandering drunk, gets so wasted he ends up falling asleep on the street. When an old man takes pity on Sullivan and takes him home to his farm, Sullivan experiences kindness he didn't know existed, and he forms a bond stronger than he realises. So when he leaves the next day and sees a group of thugs heading to this man's farm, he knows he has no choice to go back. When he returns to find the man's corpse, he is filled with an intense rage, and swears he will hunt down these thugs and have revenge.. But when the old man's granddaughter appears, still left alive, Sullivan knows he has no choice but to protect her from the powerful men who are looking to complete their murder.

Can he get the girl to safety before they catch up with him? Or will his weakened state end up putting this girl in too much danger?
