From #1 New York Times bestseller Katherine Applegate, a singular middle-grade novel about a girl who risks everything to help a handmade creature who comes to life. The earth is old and we are not, and that is all you must remember . . . Eleven-year-old Willodeen adores creatures of all kinds, but her favorites are the most unlovable beasts of all: the villagers of Perchance call them pests, even monsters, but Willodeen believes the animals serve a vital role in the complicated web of nature. Lately, though, nature has seemed angry indeed. Perchance has been cursed with fires and mudslides, droughts and fevers, and even the annual migration of hummingbirds, a source of local pride and tiny animals have overwintered in shimmering bubble nests perched atop blue willow trees, drawing tourists from far and wide. This year, however, not a single hummingbird has returned to Perchance, and no one knows why. When a handmade birthday gift brings unexpected magic to Willodeen and her new friend, Connor, she's determined to uncover the answer to the mystery of the missing hummingbirds. A timely and timeless tale about our fragile earth, and one girl's fierce determination to make a difference.

A Study Guide for Shaun Tan's "the Arrival."

In the morning the people of the island found a man sitting on the shore, there where fate and the ocean currents had set him and his frail raft in the night. When he saw them coming towards him, he rose to his feet. He was not like them. This internationally acclaimed, award-winning picture book is astonishing, powerful and timely.

A beautifully illustrated book of imaginary fables about Earth's early--and lost--history. Before our history began, another--now forgotten--civilization thrived. The people who roamed Early Earth were much like us: curious, emotional, funny, ambitious, and vulnerable. In this series of illustrated and linked tales, Isabel Greenberg chronicles the explorations of a young man as he paddles from his home in the North Pole to the South Pole. There, he meets his true love, but their romance is ill-fated. Early Earth's unusual and finicky polarity means the lovers can never touch. As intricate and richly imagined as the work of Chris Ware, and leavened with a dry wit that rivals Kate Beaton's in Hark! A Vagrant, Isabel Greenberg's debut will be a welcome addition to the thriving graphic novel genre.

A small child awakes to find blackened leaves falling from her bedroom ceiling, threatening to overwhelm her. 'Sometimes you wake up with nothing to look forward to...' As she wanders around a world that is complex, puzzling and alienating, she is overtaken by a myriad of feelings. Just as it seems all hope is lost, the girl returns to her bedroom to find that a tiny red seedling has grown to fill the room with warm light. Astonishing Australian artist, Shaun Tan's latest creation, The Red Tree, is a book about feelings - feelings that can not always be simply expressed in words. It is a series of imaginary landscapes conjured up by the wizardry of his masterful and miraculous art. As a kind of fable, The Red Tree seeks to remind us that, though some bad feelings are inevitable, they are always tempered by hope.

Breathtakingly illustrated and hauntingly written, Tales from Outer Suburbia is by turns hilarious and poignant, perceptive and goofy. Through a series of captivating and sophisticated illustrated stories, Tan explores the precious strangeness of our existence. He gives us a portrait of modern suburban existence filtered through a wickedly Monty Pythonesque lens. Whether it's discovering that the world really does stop at the end of the city's map book, or a family's lesson in tolerance through an alien cultural exchange student, Tan's deft, sweet social satire brings us face-to-face with the humor and absurdity of modern life.

First published in 1976. Ideology plays an important role in many fields of human activity and has therefore been dealt with directly and indirectly in a vast number of studies, but a generally accepted definition of the term is lacking even in the various branches of social and political science. This book - the first since Mannheim to elaborate a comprehensive theory of ideology - seeks to offer a generally applicable definition, a task which of necessity involves taking issue with the logical and political implications of the conceptions in current use and which touches on central problems of politics and political science. Professor Seliger's theory is based on an approach and conceptualizations which will appeal both to 'traditionalists' and 'behaviourists' since he gives due weight to both kinds of literature. Indeed, this book reflects throughout a detachment and independence of thought which are refreshing and opens up the way for both theorists and practising politicians to re-examine ideological tenets in the light of actual and feasible policy orientations and embark upon ideological reconstruction.

From Newbery media winner Karen Hesse comes an unforgettable story of an immigrant family's journey to America. "America," the girl repeated. "What will you do there?" I was silent for a little time. "I will do everything there," I answered. Rilka knows nothing about America when she flees from Russia with her family in 1919. But she dreams that in the new country she will at last be safe from the Russian soldiers and their harsh treatment of the Jews. Throughout her journey, Rilka carries with her a cherished volume of poetry by Alexander Pushkin. In it, she records her observations and experiences in the form of letters to Tovah, the beloved cousin she has left behind. Strong-hearted and determined, Rilka must endure a great deal: humiliating examinations by doctors and soldiers, deadly typhus, separation from all she has ever known and loved, murderous storms at sea, detention on Ellis Island--and is if this is not enough, the loss of her glorious golden hair. Based on a true story from the author's family, Letters from Rilka presents a real-life heroine with an uncommon courage and unsinkable spirit.

A unique 128-page, textless graphic novel, in black, white and sepia, The Arrival draws its inspiration from tales of migrants in past and recent times. The central character is a middle-aged man who arrives in a strange new place and tries to find a place to live, a job and a handle on a new language. He encounters many challenges, all described entirely through visual sequences. The absence of words emphasises the strangeness of the situation and the loneliness experienced by many migrants, but the ending is full of affirmation and hope, when the wife and son the migrant had to leave behind are finally able to join him in their new homeland. www.thearrival.com.au

A concise, engaging, practical overview of children's literature that keeps the focus on the books children read. This brief introduction to children's literature genres leaves time to actually read children's books. Written on the assumption that the focus of a children's literature course should be on the actual books that children read, the authors first wrote this book in 1996 as a "textbook for people who don't like children's literature textbooks." Today it serves as an overview to shed light on the essentials of children's literature and how to use it effectively with young readers, from PreK to 8th grade. The authors use an enjoyable, conversational style to achieve their goal of providing a practical overview of children's books that offers a framework and background information, while keeping the spotlight on the books themselves.

The teachers are mean, the schedule is confusing, and Jenna starts giving hijab-wearing Nimra the cold shoulder around the other kids. Desperate to fit in and get back in Jenna's good graces, Nimra accepts an unlikely invitation to join the school's popular 8th grade boy band, Barakah Beats. The only problem is, Nimra was taught that music isn't allowed in Islam, and she knows her parents would be disappointed if they found out. So she devises a simple plan: join the band, win Jenna back, then quietly drop out before her parents find out. But dropping out of the band proves harder than expected. Not only is her plan to get Jenna back working, but Nimra really likes hanging out with the band—they value her contributions and respect how important her faith is to her. Then Barakah Beats signs up for a talent show to benefit refugees, and Nimra's lies start to unravel. With the show only a few weeks away and Jenna's friendship hanging in the balance, Nimra has to decide whether to betray her bandmates—or herself.
