**One of Michiko Kakutani's (New York Times) top ten books of 2016 A funny thing happened on the way to the digital utopia. We've begun to fall back in love with the very analog goods and ideas the tech gurus insisted that we no longer needed. Businesses that once looked outdated, from film photography to brick-and-mortar retail, are now springing with new life. Notebooks, records, and stationery have become cool again. Behold the Revenge of Analog. David Sax has uncovered story after story of entrepreneurs, small business owners, and even big corporations who've found a market selling not apps or virtual solutions but real, tangible things. As e-books are supposedly remaking reading, independent bookstores have sprouted up across the country. As music allegedly migrates to the cloud, vinyl record sales have grown**

more than ten times over the past decade. Even the offices of tech giants like Google and Facebook increasingly rely on pen and paper to drive their brightest ideas. Sax's work reveals a deep truth about how humans shop, interact, and even think. Blending psychology and observant wit with first-rate reportage, Sax shows the limited appeal of the purely digital life-and the robust future of the real world outside it.

For fifteen years August Sitwell has worked for the Barclays, a well-to-do white family who plucked him from an orphan asylum and gave him a job. The groundskeeper is part of the household's all-black staff, along with "Miss Mamie," the talented cook, pretty new maid Jennie Williams, and three young kitchen apprentices--the latest orphan boys Mr. Barclay has taken in to "civilize" boys like August. But the Barclays fortunes have fallen, and their money is almost gone. When a prospective business associate proposes selling Miss Mamie's delicious rib sauce to local markets under the brand name "The Rib King"--using a caricature of a wildly grinning August on the label--Mr. Barclay, desperate for cash, agrees. Yet neither Miss Mamie nor August will see a dime. Humiliated, August grows increasingly distraught, his anger building to a rage that explodes in shocking tragedy. Elegantly written and exhaustively researched, *The Rib King* is an unsparing examination of America's fascination with black iconography and exploitation that redefines African American stereotypes in literature. In this powerful, disturbing, and timely novel, Ladee Hubbard reveals who people actually are, and most importantly, who and what they are not.

A darkly comic recollection of a country that no longer exists, and a lyrical examination of the

importance of taking a stand when it counts. Set against a backdrop of horrific world events, this is narrative non-fiction at its best. To a young boy growing up poor but happy in an industrial town in Serbia, politics means many national holidays that result in parades, piglets roasting on a spit, and getting to see both his hard-working parents at the same time. An observant child, Dragan Todorovic quickly learns the power of words. Even before he can read or write, he is mesmerized by the squiggles made by the grownups around him and diligently recreates them in the notebooks he carries with him always. He also learns that reciting naughty limericks usually yields some chocolate. This love of words eventually takes Dragan to Belgrade, as editor for a cultural magazine. He hopes to inspire and support the young and innovative artists of the time, but soon discovers that naughty articles do not yield the same results as limericks, and he finds himself constantly clashing with the system. His many questions get only one answer: he is drafted into the army. Dragan survives his tour of duty, but his return to Belgrade is unsettling. Everything is changing, rapidly. Friendships are collapsing, conversations are guarded, nothing is as it seems. Bit by bit, the country he knows and loves is being torn apart. Filled with great characters and poignant and often hilarious stories, *The Book of Revenge* is a superb duet of a citizen and his country, a universal exploration of just what it is that inoculates the human spirit from dangerous ideologies and toxic nationalism. How is a man sent to prison for ten years on a controlled substance violation when the government concedes the substance is not controlled by United States drug laws? In 2007, Ali Awad was convicted and sentenced to ten years in federal prison. There he met an inmate who was a former police officer and lawyer convicted on tax charges. Together the two embarked on a journey in criminal procedure, international law and, most importantly, politics. Soon it became clear Ali was not in prison for what he did but for who he was and where he came from. His public trial was a means to an end and that end was a narrative designed to paint him as a terrorist and paint for the American people a spectacle of revenge.

When creatures like goblins and fairies and unicorns, all characters from a card game the Grey Griffins play, begin to make appearances in Max's backyard, Max and his friends know something is terribly wrong. A thrilling, new legend is born in the first book of the Grey Griffins' magical adventures.

Shockingly honest, richly detailed, and pulling no punches, Friends and Enemies traverses the highs and lows of Barbara Amiel's

storied life in journalism and high society. From her early childhood in London during the Blitz to emigrating to North America and her rise to the top rungs of journalism; to her four husbands and other assorted beaux both famous and not; and right up to her marriage to Conrad Black and their prolific legal battles against the powerful and vengeful American justice system, Barbara Amiel's life has been as dramatic as it is glamorous. She has been called every conceivable name in the book by the media (and authors of unauthorized biographies about her), pilloried for her extravagant lifestyle and sometimes regrettable quotes to the press ("My extravagance knows no bounds," for instance, to Vogue), not to mention her outspoken conservative political views as stated in her weekly newspaper columns around the world. It's no surprise she remains to this day a subject of utter fascination after over four decades in the public eye. But until now, very few people actually know her real story—the break-up of her family when she was a child, her bouts of debilitating depression and other chronic health issues, her thoughts on feminism and #MeToo, her travels with the international jet set and A-list celebrities, and, of course, her unvarnished views on the trial and conviction (since overturned) of Conrad Black and the iron-clad bond they have shared since they were married in 1992. Whether you are an admirer or critic of Amiel's, you will be completely engrossed in her operatic life, one that seems ripped from the pages of a scandalous novel. She also distinguishes herself as a woman well ahead of her time—the first female editor of a national newspaper in Canada, she challenged the sexual mores of society while also angering the feminist establishment. She has certainly had many friends and enemies over the years—Henry and Nancy Kissinger, Elton John, Tom Stoppard, David Frost, Anna Wintour, Oscar de la Renta, Margaret Thatcher, Princess Diana, Marie Jose Kravis, to name but a few—and she brings these personalities into the spotlight in this larger-than-life memoir that is sure to cause a sensation with readers everywhere.

The Black Book is Orhan Pamuk's tour de force, a stunning tapestry of Middle Eastern and Islamic culture which confirmed his reputation as a writer of international stature. Richly atmospheric and Rabelaisian in scope, it is a labyrinthine novel suffused with the sights, sounds and scents of Istanbul, an unforgettable evocation of the city where East meets West, and a boldly unconventional mystery that plumbs the elusive nature of identity, fiction, interpretation and reality.

Acclaimed author Sam Sykes returns with a brilliant new epic fantasy that introduces an unforgettable outcast mage caught between two warring empires. Her magic was stolen. She was left for dead. Betrayed by those she trusts most and her magic ripped from her, all Sal the Cacophony has left is her name, her story, and the weapon she used to carve both. But she has a will stronger than magic, and knows exactly where to go. The Scar, a land torn between powerful empires, where rogue mages go to disappear, disgraced soldiers go to die and Sal went with a blade, a gun, and a list of seven names. Revenge will

The classic ghost story from the author of *The Mist in the Mirror*: a chilling tale about a menacing spectre haunting a small English town. Arthur Kipps is an up-and-coming London solicitor who is sent to Crythin Gifford—a faraway town in the windswept salt marshes beyond Nine Lives Causeway—to attend the funeral and settle the affairs of a client, Mrs. Alice Drablow of Eel Marsh House. Mrs. Drablow's house stands at the end of the causeway, wreathed in fog and mystery, but Kipps is unaware of the tragic secrets that lie hidden behind its sheltered windows. The routine business trip he anticipated quickly takes a horrifying turn when he finds himself haunted by a series of mysterious sounds and images—a rocking chair in a deserted nursery, the eerie sound of a pony and trap, a child's scream in the fog, and, most terrifying of all, a ghostly woman dressed all in black. Psychologically terrifying and deliciously eerie, *The Woman in Black* is a remarkable thriller of the first rate. The basis for the major motion picture starring Daniel Radcliffe.
