The definitive biography of the great soldier-statesman by the acclaimed author of Churchill and The Last King of America—winner of the LA Times Book prize, finalist for the Plutarch prize, winner of the Fondation Napoleon prize and a New York Times bestseller “A thrilling tale of military and political genius... Roberts is an uncommonly gifted writer.” —The Washington Post Austerlitz, Borodino, Waterloo: his battles are among the greatest in history, but Napoleon Bonaparte was far more than a military genius and astute leader of men. Like George Washington and his own hero Julius Caesar, he was one of the greatest soldier-statesmen of all times. Andrew Roberts’s Napoleon is the first one-volume biography to take advantage of the recent publication of Napoleon’s thirty-three thousand letters, which radically transform our understanding of his character and motivation. At last we see him as he was: protean multitasker, decisive, surprisingly willing to forgive his enemies and his errant wife Josephine. Like Churchill, he understood the strategic importance of telling his own story, and his memoirs, dictated from exile on St. Helena, became the single bestselling book of the nineteenth century. An award-winning historian, Roberts traveled to fifty-three of Napoleon’s sixty battle sites, discovered crucial new documents in archives, and even made the long trip by boat to St. Helena. He is as acute in his understanding of politics as he is of military history.

The legendary Dutch 'Red' Lancers – the 2nd Light Horse Lancers of Napoleon's Imperial Guard – were formed in 1810 after the emperor annexed Holland and its army to France. The former hussars of the Dutch Royal Guard got a handsome new uniform, a new weapon, and a hard-driving new colonel in Baron Edouard Colbert. His lancers distinguished themselves in Russia in 1812, at huge cost; in Germany in 1813, and in the Low Countries in 1814.

When Napoleon returned from exile in 1815 the Red Lancers were with him until night fell over Waterloo.

King Louis is imprisoned. The Republican faction in Paris is growing stronger as the beat of the snare begins to ring in the ears of Europe. To quell the seething discontent of threats inside and outside of France, Napoleon is dragged into supporting a regime that has thrown away any pretence of Liberty in its quest to cover the globe. is forced to challenge his own traditions and overcome the pain of betrayal and exile from his home, to continually prove loyalty to a country that spurns him still. As the blade rasps down and the cruelty of those he serves becomes even more difficult to justify, Napoleon must strive to preserve his exiled family and navigate the unconscionable. As France struggles to survive the onslaught of foreign invasion, Napoleon must conquer an inner turmoil so raw and powerful that it drove him to the siege of Toulon and the beginning of greatness.

Napoleonic war was nothing if not complex—an ever-shifting kaleidoscope of moves and intentions, which by themselves went a long way towards baffling and dazing his conventionally-minded opponents into that state of disconcerting moral disequilibrium which so often resulted in their catastrophic defeat. The Campaigns of Napoleon is an exhaustive analysis and critique of Napoleon's art of war as he himself developed and perfected it in the major military campaigns of his career. Napoleon disavowed any

suggestion that he worked from formula, but military historian David Chandler demonstrates this was at best only a half-truth. To be sure, every operation Napoleon conducted contained unique improvisatory features. But there were from the first to the last certain basic principles of strategic maneuver and battlefield planning that he almost invariably put into practice. To clarify these underlying methods, as well as the style of Napoleon's fabulous intellect, Mr. Chandler examines in detail each campaign mounted and personally conducted by Napoleon, analyzing the strategies employed, revealing wherever possible the probable sources of his subject's military ideas.

The author of *Battle for Paris 1815* examines the uniforms and equipment of the cavalry of Napoleon's Imperial Guard. Few military formations have attracted more attention than Napoleon's Imperial Guard, and fewer still have been so extravagantly clothed and accoutered with the finest materials and the brightest colors. On both campaign and parade, the Guard, and especially the cavalry regiments, provided a dazzling display of military grandeur.

The Campaigns of Napoleon

“A mesmerizing account that illuminates not just the Napoleonic wars but all of modern history . . . It reads like a novel” (Lynn Hunt, Eugen Weber Professor of modern European history, UCLA). The twentieth century is usually seen as “the century of total war.” But as the historian David A. Bell argues in this landmark work, the phenomenon actually began much earlier, in the era of muskets, cannons, and sailing ships—in the age of Napoleon. In a sweeping, evocative narrative, Bell takes us from campaigns of “extermination” in the blood-soaked fields of

western France to savage street fighting in ruined Spanish cities to central European battlefields where tens of thousands died in a single day. Between 1792 and 1815, Europe plunged into an abyss of destruction. It was during this time, Bell argues, that our modern attitudes toward war were born. Ever since, the dream of perpetual peace and the nightmare of total war have been bound tightly together in the Western world—right down to the present day, in which the hopes for an “end to history” after the cold war quickly gave way to renewed fears of full-scale slaughter. With a historian’s keen insight and a journalist’s flair for detail, Bell exposes the surprising parallels between Napoleon’s day and our own—including the way that ambitious “wars of liberation,” such as the one in Iraq, can degenerate into a gruesome guerrilla conflict. The result is a book that is as timely and important as it is unforgettable. “Thoughtful and original . . . Bell has mapped what is a virtually new field of inquiry: the culture of war.” —Steven L. Kaplan, Goldwin Smith Professor of European history, Cornell University

In January 1794 the French 'Army of Italy' was commanded by General Dumerbion and he acknowledged a great debt to his 25-year-

old commander of artillery - Napoleon Bonaparte. The French Revolution had resulted in major changes in the military system, conscription created a national army and new tactics and initiatives allowed an officer of such promise as Napoleon to rise quickly through the ranks. By 1796 he was the general commanding the French in Italy and at the conclusion of fourteen months campaigning he was the decisive military personality of his age. Philip Haythornthwaite examines Napoleon's campaigns in Italy, and the uniforms of his soldiers are illustrated in eight colour plates by Richard Hook. Provides an account, from the point of view of the U.S. Army forces employed, of the 1990-91 Persian Gulf War, from the Iraqi invasion of Kuwait to the withdrawal of coalition forces from southeastern Iraq. It focuses on the Army's part in this war, particularly the activities of the Headquarters, Third Army, and the Army Forces Central Command (ARCENT). It looks especially at the activities of the VII Corps, which executed ARCENT's main effort in the theater ground force schwerpunkt -- General Schwarzkopf's "Great Wheel." This is not an official history; the author speaks in his own voice and makes his own judgments. Maps.

cheated the height restriction with the connivance of the normally strict Davout and four packs of playing cards in his stockings). Despite being illiterate until late into his adult life, due to his rough childhood as recounted in the first notebook, many famous personalities of the Empire are sketched in his honest style, although his own memory has somewhat embellished the facts. Prof. Jean Tulard refers to them as indispensable for understanding the mentality of the "grognard" or grumbler, the stalwart veterans of Napoleon's Guard. This edition benefits from a preface by Lorédan Larchey (1831-1902) author of numerous French historical works, and over a hundred illustrations. Includes 101 illustrations and TOC
