The Five-Minute Fix began as a way for photographer Dale Benfield to share his photography and business knowledge with a growing base of photographers who followed his business, Benfield Photography. These tips evolved into a huge collection of techniques, tricks, and advice for beginning through early-professional photographers, covering a variety of topics, from posing, shooting, and lighting to social media and sales—and much more! Unlike many books for “beginners,” Dale takes photographers from the beginning stages and continues nurturing them into starting a business and becoming a professional. His approach of providing a lot of bite-sized chunks of information on photography techniques, business, and marketing in one book is truly unique. For the photographer who wants both business and photography knowledge, this single book takes the place of two! Plus, with Dale’s accessible, conversational voice, you’ll not only find the book informative—but fun and engaging, too.
