In 1891 this congregation was organized in the home of Mr. and Mrs. Sven Peterson by 21 charter members, known as Brushy Evangelical Free Church. The congregation built a sanctuary in 1892 on land southeast of Georgetown donated by C. J. Gustafson. This Georgetown site was acquired in 1960, and a new sanctuary was dedicated in 1963. This church has been part of Williamson County history for nearly a century. (1988) Who wants to settle for fleeting treasures on earth . . . when God offers everlasting treasures in heaven? idea that we would be voluntary slaves is offensive to all of our sensibilities," says Soaries. "But when we continue to spend what we don't have, charge what we don't need, and borrow more than we can repay, then we must call the problem what it is: slavery." This is not another financial literacy program assuming that all people need is information. Soaries believes living in debt is an emotional, spiritual, and psychological problem as much as it is an educational and informational one. Here, Soaries shares the four vital keys to debt-free living that have helped hundreds of families in his church get out of debt. By replacing the "get more money" mentality with a "get out of debt" approach to financial freedom, not only were

Find out how you can leave a financial legacy of your own by saying yes to no debt. Says Soaries: "There may be no greater need than to understand the value and joy of debt-free living. There may be no greater legacy we can leave our children."

Travis Moody shares his personal story of how he went from being \$100,000 in debt to debt free in just three years and the spiritual truths and biblical lessons he learned along the way. *When did churches start to appear more empty than full - and why? The very physicality of largely empty churches and chapels in Britain plays a powerful role in popular perceptions of 'religion'. Empty churches are frequently cited in the media as evidence of large scale religious decline. The 'Empty' Church Revisited presents a systematic account of British churchgoing patterns over the last two hundred years, uncovering the factors and the statistics behind the considerable process of decline in church attendance. Dispelling as myth the commonly held views that the process of secularization in British culture has led to the decline in churchgoing and resulted in the predominantly empty churches of today, Gill points to physical factors, economics*

principles, case studies, and practical advice, the authors answer the questions.

In this book, Craig Blomberg addresses the tough questions about the place and purpose of wealth and material possessions in a Christian's life. He points to the goodness of wealth, as God originally designed it, but also surveys the Bible's many warnings against making an idol out of money. So are material possessions a blessing for which we should long? And what are the dangers that the use or abuse of material possessions can produce? Blomberg expounds upon how the sharing of goods and possessions is the key safeguard against both

greed and covetousness. He expands on the concept of giving generously, even sacrificially, to those who are needier, demonstrating how Christians can participate in God's original good design for abundance and demonstrate the world-altering gospel of Christ. Is there any one key to keeping possessions in their proper, God-intended perspective? Are there limits on how rich we should become or on how poor we should allow others to get? What does a truly Christian economic system look like? How does the Bible's teaching on wealth fit into the gospel?
