Pregnant with the Italian's child Aristocratically arrogant Cesare di Mondave dazzled Carla Charteris when he swept into her life. It wasn't long before the brooding Italian stole her innocence, and her heart. Realizing she'd never be more than a mistress was devastating, but Carla couldn't deny herself one last night in Cesare's arms... When Cesare discovers the shocking consequences, a thrill of possession runs through him. To claim his heir, it's imperative Carla accepts his proposal—but she defiantly refuses! Now Cesare must use every sinfully seductive skill he has to convince Carla he wants her in the bedroom and at the altar!

Raquel and Harrison sitting in a tree, K-I-S-S-I-N-G. First comes love. Then comes marriage. Then comes a baby in the baby carriage. That's how her brother used to sing it when we were kids—a simple ploy to get under my skin and make me stick my fist in his face—but man oh man, did he get the order wrong. One night of "kissing" in New York catapulted us straight to the pregnancy portion of the song—surprise!—and now I have to figure out how to carry out the whole melody in reverse. A baby on the way first. Then love and marriage? It's complicated on its best day. But our situation is far more problematic than just a simple twist of nursery rhyme lyrics. Before our night together, Raquel Weaver was the best-known good girl in Hollywood—a twenty-nine-year-old innocent beauty whom the world adored and watched like a hawk. Obviously, the consequences of that kind of reputation don't just go away. Add in pregnancy hormones, the media, a fake fiancé, and a selfish manager, and you have the short list of my problems. As a thirty-four-year-old, successful CFO of a multibillion-dollar media conglomerate, I thought I would be able to handle anything show business could throw my way, but I'm starting to think I might be in over my head. Good thing I'm all in. Winning Hollywood's goodest girl is going to take everything I've got.

Sander Volakis goes his own way. He's forged his reputation in business, rather than relying on the family fortune, and indulges his darkly passionate, wild streak. He has no intention of marrying... He doesn't do country weekends, either. Pitching up at Westgrave Manor is a favor to his father and a bore...until he sees Tally Spencer, so pretty and voluptuous that he can't resist her. Sander's looking forward to casually seducing her, not knowing that one night with the innocent Tally could end his playboy existence...

Sander and Tally's story continues next month in *Bride for Real*.

Integrating Social Care into the Delivery of Health Care: Moving Upstream to Improve the Nation's Health was released in September 2019, before the World Health Organization declared COVID-19 a global pandemic in March 2020. Improving social conditions remains critical to improving health outcomes, and integrating social care into health care delivery is more relevant than ever in the context of the pandemic and increased strains placed on the U.S. health care system. The report and its related products ultimately aim to help improve health and health equity, during COVID-19 and beyond. The consistent and compelling evidence on how social determinants shape health has led to a growing recognition throughout the health care sector that improving health and health equity is likely to depend "at least in part" on mitigating adverse social determinants. This recognition has been bolstered by a shift in the health care sector towards value-based payment, which incentivizes improved health outcomes for persons and populations rather than service delivery alone. The combined result of these changes has been a growing emphasis on health care systems addressing patients' social risk factors and social needs with the aim of improving health outcomes. This may involve health care systems linking individual patients with government and community social services, but important questions need to be answered about when and how health care systems should integrate social care into their practices and what kinds of infrastructure are required to facilitate such activities. Integrating Social Care into the Delivery of Health Care: Moving Upstream to Improve the Nation's Health examines the potential for integrating services addressing social needs and the social determinants

of health into the delivery of health care to achieve better health outcomes. This report assesses approaches to social care integration currently being taken by health care providers and systems, and new or emerging approaches and opportunities; current roles in such integration by different disciplines and organizations, and new or emerging roles and types of providers; and current and emerging efforts to design health care systems to improve the nation's health and reduce health inequities.
