Conventional wisdom has it that the successful functioning of the UN Security Council almost completely depends on the role played by its five permanent members and the extent to which they can agree—or avoid to fundamentally disagree—on the many issues on the Council's agenda. But the Council also consists of ten non-permanent or elected members who represent five different regions of the world, and who, though not vested with the right of veto, play an indispensable role in Council decision-making. This book aims to take a closer look at that role.

Resting in a hospice for the terminally ill, Annie is dying. Supported by her oldest friend, Clemmie, who listens and sympathises, she looks back over her life. Each woman has had a disappointing marriage: Clemmie to a man who turned out to be gay; Annie to a man who left her under tragic circumstances. Gradually Annie reveals her story. At 18 a GI whom she never sees again impregnates her in the back of a truck. Living alone with her mother, she brings up her daughter to believe the child's father is a dead war hero. After a few years Annie marries Eric, a charming man. However when Mary, her daughter, discovers the truth she is horrified and goes to the US - to Milwaukee - to try and locate her genuine father. She returns with a man who claims to be him, but Annie is highly suspicious. Achieving Excellence

Almost a century after J'Accuse, another Dreyfus is imprisoned, another victim of hatred and conspiracy, another Jew. Sir Alfred Dreyfus, eminent, skilled and beloved headmaster of one of the greatest schools in England, is found guilty of the calculated murder of a child. When Sam Temple, literary agent and fellow Jew, visits Dreyfus in his prison cell, he finds a man sunk beyond despair: estranged from his loving family, publicly reviled, condemned to the company of murderers. As Dreyfus begins, reluctantly, on the appalling narrative of his betrayal he must confront, too, his own guilt at a lifetime's denial of his race and his faith. All the poignancy of his lost heritage is brought sharply into focus as painfully, urgently he draws near to the truth. In the second Alfred Dreyfus Bernice Rubens has created a character of profound and moving humanity; in placing him at the end of our century, she makes his story a tragedy which resonates with its particular and terrible freight of history, bound in with the fate of six million others.

Strengthening the Role of the Elected Member

Pick his brains - you know it makes sense. Well, what would you do? Your mentor and best friend, herald as the 'greatest novelist of our time', suddenly expires, and you find yourself bereft of a cherished companion's wit and wisdom. Your twelve-year stretch of writer's block, too, now seems like a life sentence. For Martin Peabody, the answer is simple. You remove your dead friend's brain, syphon off his thoughts, and use them as inspiration to revive your career and write a fitting testament to a great man - an autobiopsy, if you like. This superbly sharp and funny novel shows Booker-winner Bernice Rubens at her best.
