

The Empty City Survivors 1 Erin Hunter

There are no more red or blue states; just empty states. And empty cities. But a few Americans survived, and are fighting to stay alive. Ted, the pilot, still protects Vice President Emily Williams as he retains the hope of finding his niece. His skills are tested as enemy forces zero in on their location. Tabby, the tour guide, is stuck with three young teens as she looks for her parents. Entire cities are theirs to explore. Dwight, the homeless man, is known for talking to an invisible parrot. He might also be witness to the first wave of the invasion force. Journey along with these characters as they travel through the haunting remains of a once-thriving nation. Fires rage out of control. Unmanned power grids begin to shut down. As they cross state lines and drive through new cities, each of them begins to appreciate this was a terrorist attack beyond anything in history. And the terrorists make their next big move... If you enjoy a mixture of apocalyptic exploration, a little pew-pew, and long-odds rebellion against an unseen enemy, check out Empty Cities, the second book in the Minus America series. Book 3, Rebel Cause, will be available soon. Book 4, Two Wolves and a Sheep, will also release soon.

What happens to consciousness during the act of dying? The most compelling answers come from people who almost die and later recall events that occurred while lifesaving resuscitation, emergency care, or surgery was performed. These events are now called near-death experiences (NDEs). As medical and surgical skills improve, innovative procedures can bring back patients who have traveled farther on the path to death than at any other time in history. Physicians and healthcare professionals must learn how to appropriately treat patients who report an NDE. It is estimated that more than 10 million people in the United States have experienced an NDE. Hagan and the contributors to this volume engage in evidence-based research on near-death experiences and include physicians who themselves have undergone a near-death experience. This book establishes a new paradigm for NDEs.

This book presents an overview of the key debates that took place during the Economic and Social Council meetings at the 2007 High-level Segment, at which ECOSOC organized its first biennial Development Cooperation Forum. The discussions also revolved around the theme of the second Annual Ministerial Review, "Implementing the internationally agreed goals and commitments in regard to sustainable development."--P. 4 of cover.

A Cold Case is the story of how Andy Rosenzweig, retired Manhattan cop, reopened an investigation into a double murder that had happened more than thirty years earlier. It bothered him that Frankie Koehler, the notoriously dangerous suspect, had eluded capture. In a surprising, intensely dramatic narrative, Philip Gourevitch has transformed Rosenzweig's crusade into a searing literary masterpiece, reckoning with the forces that drive one man to murder and another to hunt murderers. Philip Gourevitch's first novel, *We Wish to Inform You That Tomorrow We Will Be Killed With Our Families: Stories from Rwanda*, won the Guardian First Book Award.
