Crystal Children reflect the new generation that has come to the Earth plane after the Indigo Children. They are approximately ages 0 through 5, although some members of the first wave of Crystal Children are as old as 7. These children are like Indigos—highly psychic and sensitive—but without the dark edge and the anger energy. The term Crystal Children is already taking hold worldwide, and people everywhere are talking about these special kids. Since Doreen is the only researcher who is publicly giving speeches on the subject, her audiences have been asking her for a book on the topic. It's a natural sequel to her book *The Care and Feeding of Indigo Children*. As babies, Crystal Children may take longer than normal to begin talking. They are highly telepathic, and their tuned-in mothers communicate with them nonverbally. Because they're so sensitive, the Crystal Children babies may fuss and cry a lot in crowded places. They're also very fond of nature. Doreen once watched one Crystal Child walk from tree to tree, giving each one a big hug. Crystal Children are beautiful inside and out, like magnificent little high-priests and priestesses. One look in their eyes, and you'll recognize Divine love and wisdom. Their auras are bright, radiant, and opalescent—they seem to glow from the inside! They talk about past lives, distant galaxies, and profound insights concerning peace and love. Most Crystal Children's parents are aware

that their kids are special, and they're thrilled to be parenting such delightful children. The book includes many interviews with Crystal Children, their parents, and teachers. It discusses parenting and teaching methods that are essential to keeping these children happy and healthy, and how to avoid pitfalls that could spoil their special gifts.

Do you work magic with herbs? Do you use them in spells, for talismans or simply use their innate powers? If you don't have Cunningham's Encyclopedia of Magical Herbs, you need to get it right away. This book has become a classic in its field. Paul Beyerl, a respected author on herbs calls it "...an essential reference book by students of herbalism and magick alike ... Scott's personable charm touches every page... I highly recommend this book." And Jeanne Rose, famous author of books on herbs and developer of an herbal course says "I love books like this ... It is accessible, easy to read, and with its encompassing index (all too often neglected), simple to use as well." Over 200,000 people already have this book and use it frequently. In this edition of the book (it's expanded and revised on the 15th anniversary of original publication) you will find the magical properties and folklore of over 400 herbs! You'll also find lists of herbs based on their magical powers, their genders, their planetary rulers, and more. Perhaps the most important list is the folk name cross-reference. With that information, when a recipe calls for "bramble," you'll know it needs blackberry. Or if the magic calls for "enebro," you'll know you that is juniper. The main part of this book is the listings of the herbs. Each one includes names, associations, and magical attributions. Violets can be used for protection, luck, love, and more. Primrose is for protection and love. Garlic is for protection, healing, exorcism, lust, and prevention of theft. This book is considered a classic. It is probably consulted more than any other book on this subject. If you want to learn the secrets of magical herbs, this book is a must!

Bestselling author Barbara Walker debunks the tall tales surrounding crystal mysticism and offers instead an intelligent alternative that includes a complete guide to minerals and their histories. Because of her profound admiration for the beauty and mystery of crystals, Barbara Walker reveals in this two-part examination what crystals truly are, what they can -- and cannot do, and what they have meant to cultures down through the ages. She exposes the crystal mystics' grotesque ignorance of the very subject of which they claim expertise and presents detailed discussions on crystal "vibrations," healing, and energies. She points with humor and insight to the incomprehensible "word salad" crystal mystics use to explain their notions. Then, featuring an illustrated A to Z listing of all the minerals used in esoteric studies, Walker presents the true history, mythology, and attributes of each stone. This invaluable reference is for anyone interested in the facts and fiction of crystal mysticism.
