Discover the unique joys of pastel painting with this easy-to-use guide to one of the most versatile and forgiving mediums. More than 100 visual sequences reveal key techniques such as mixing, blending, scumbling, sgraffito, hatching and feathering. Includes tips on composing your painting, using color, adding highlights and shadows, and creating textured effects. Step-by-step demonstrations show how to approach a range of subjects from landscapes and flowers to portraits and still life. Over 65,000 copies sold worldwide. This information-packed book is divided into five sections. The first, Materials, introduces you to the range of pastels and papers that is available to you, with examples of how paper textures and colors can affect your work. The Color section looks at the principles of color and gives suggestions for mixing colors and choosing a basic palette, especially important since manufacturers produce a bewildering array of colored pastels.

Many manuals on pastel painting take for granted the use of traditional soft pastels, a dry medium that provides the richness and variety of paint colors. Soft pastel is certainly the most versatile and widely used, but the modern range of materials include other pastel types that have their own specific purpose. In this exhaustive A-Z reference for artists of all skills, a variety of different pastel types are detailed, from oil through to water-soluble pastels, amongst the multitude of techniques broken down and easily explained.

Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.
