Ittner clarifies the answer in her introductory chapter, explaining that she intended to "avoid all animal and petroleum-based products, synthetic colorants and fragrances." That said, the rest is amazingly easy. Take run-of-the-mill kitchen equipment such as measuring spoons and double boilers, mix, then heat in the stove or microwave; add other techniques, from embedding objects to layering and swirling; and it's soap. She spends many pages detailing the natural materials, colorants, additives, and scents for a good foundation; the next four chapters are devoted to 45 recipes, each with color photographs, lists of materials and tools, and easy-to-follow numbered instructions.
