They were Roman soldiers³/₄ and they were still alive because there were no better killers in the galaxy. The Galactics need fighters who could win battles without the aid of technology. That's why, when Rome's legions suffered disaster at Carrhae, secretive alien traders were waiting to buy them on the Persian slave market. Now, virtually immortal, the Romans fight strange enemies on stranger worlds; and though they win every battle, the spoils of victory never include freedom. If the legionaries are ever to return to Earth, it must be through the beam weapons and force screens of their ruthless alien owners. But no matter the odds, two thousand years is a long time; the Romans are coming home. At the publisher's request, this title is sold without DRM (Digital Rights Management).

This novel is based on a much shorter version published in David Drake's "Foreign Legions".

winning podcast The Worldshapers during its second year, and including several international bestsellers and winners of every major award in the field, as well as newer authors just beginning what promise to be stellar careers. A woman seeking the power to see the evil hiding within others regrets receiving it. Letters written by a wizard in the past threaten a queen's reign in the present. Competing for Earth, a human wrestler faces an alien shapeshifter in an interstellar tournament. A guide in Tibet must weigh the good of his people when asked to lead a westerner to the fabled realm of Shangri. An activist imprisoned for illegal genetic modification works with the materials at hand and the threads of the multiverse to make the world—a world, at least—a better place. A demonic agent sent to help a human turns the tables on his summoner. Like the “cabinets of curiosities” created by collectors of the sixteenth century, Shapers of Worlds Volume II displays a varied array of thought-provoking delights: tales of humour and sorrow, darkness and light, and hope and despair that are full of adventure, full of life, and sometimes full of regret. There are stories set in alternate histories, in possible futures, near and far, and in the here-and-now, taking place on Earth, on distant planets, or in fantastic realms. All arise from the innate need of human beings to create, to imagine . . . to shape worlds. Praise for Shapers of Worlds Volume I: “One of the most wide-ranging volumes I’ve encountered in terms of sub-genre. It’s rather like a speculative fiction buffet, offering steampunk, fantasy, military fiction, magic, space opera, post-apocalyptic, hard science fiction, and others . . . Inventive and varied, the collection has a lot to offer for those seeking an interesting, entertaining, and thought-provoking read.” –

In celebration of one of science fiction's most beloved franchises, an updated edition of the acclaimed Ships of the Line hardcover collection. They dared to risk it all in a skiff of reeds or leather, on a ship of wood or steel, knowing the only thing between them and certain death was their ship. To explore, to seek out what lay beyond the close and comfortable, every explorer had to embrace danger. And as they did so, what arose was a mystical bond, a passion for the ships that carried them. From the very first time humans dared to warp the fabric of space, escaping from the ashes of the third World War, they also created ships. These vessels have become the icons of mankind's desire to rise above the everyday, to seek out and make the unknown known. And these ships that travel the stellar seas have stirred the same passions as the ones that floated in the oceans. While every captain has wished that their starship could be outfitted in the same manner as the sailing ship H.M.S. Beagle—without weapons—that proved untenable. From the start, Starfleet realized that each vessel, due to the limited range of the early warp engines, must be able to stand alone against any attack. Thus arose the idea, taken from the days of wooden sailing ships, that every Starfleet vessel must stand as a ship of the line. Through the actions of their captains and crews, countless starships have taken on that role. Here we remember some of those ships and their heroic crews. In celebration of one of science fiction's most beloved franchises, this updated edition of the acclaimed Ships of the Line hardcover collection now includes dozens of additional images brought together for the first time in book format—spectacular renderings featured in the highly

successful Star Trek: Ships of the Line calendar series. With text by Star Trek's own Michael Okuda, the story of each of these valiant starships now comes to life. ™, ®, & © 2014 CBS Studios, Inc. STAR TREK and related marks are trademarks of CBS Studios, Inc. All Rights Reserved.
