There are many questions that intelligent people have about the Bible, science and evolution theory. Finding intelligent answers is difficult.

The problem is that specialization is required in the sciences, in

philosophy and  
theology, so  
people tend to pick  
one and disregard  
the others. There  
aren't so many  
people that  
consider all three  
fields with much  
depth of  
understanding. I  
made a try at that

what should be  
written about, and  
difficult to write  
well. I didn't by any
