

## The Franklin Codex

An entertaining and digestible volume that demystifies science, from the author of 16 bestselling popular science books Crave answers? A Feast of Science demystifies the chemistry of everyday life, serving up practical knowledge to both inform and entertain. Guaranteed to satiate your hunger for palatable and relevant scientific information, Dr. Joe Schwarcz proves that “chemical” is not necessarily synonymous with “toxic.” Are there fish genes in tomatoes? Can snail-slime cream and bone broth really make your wrinkles disappear? What’s the problem with sugar, resistant starch, hops in beer, microbeads, and “secret” cancer cures? Are “natural” products the key to good health? And what is “fake news” all about? Dr. Joe answers these questions and more. Cutting through the fat of story, suggestion, and social-media speculation, A Feast of Science gets to the meat of the chemical reactions that make up our daily lives.

Just because the marriage is fake doesn't mean the attraction is,Delillah Barrett is a head-turning beauty on a quest for justice. The former cop with a checkered past has made a career of recovering stolen rare books with her private detective firm. She's level-headed, smart, cool under pressure, and entirely unprepared for her new assignment.When a centuries-old book worth an astronomical fortune disappears from Philadelphia's Franklin Museum, Delillah is paired up with Henry Finch, a brilliant rare book librarian and celebrated academic. Their orders: Go undercover as a married couple and recover the book by whatever means necessary.Henry can speak four languages and wear a suit like he was born in Armani. But he's never squared off against criminals. Never operated in this underground society of glamour and greed. And he's certainly never pretended to be married to a woman who both dazzles and distrusts him.Delillah's keen instincts are her greatest gift, but her growing attraction to the sexy librarian is messing with her head. Every feigned caress, every for-the-audience-kiss only heightens the seduction, building a fire that refuses to extinguish. As the danger intensifies, so does the temptation to let their fake desire become real. With a priceless artifact at stake, can this undercover couple learn to trust each other, before it's too late?Author's Note: If fake marriage, closet sex, secret passages, guns and garter belts, high-society galas, mysterious code words, and danger pushes your pleasure buttons Behind the Veil is for you!

Archaeologist Angela Hunter unearths an ancient codex from a Native American burial mound. But how could an illiterate society have produced the complex writing? Seven hundred years ago, a thriving civilization suddenly vanished. As Angela deciphers the mysterious codex symbols, she begins to unravel one of archaeology’s greatest mysteries. Despite forces trying to stop her from learning the chronicle’s secrets, Angela discovers the horrifying truth. Can she prevent the tragedies of the past from happening again today?

Chronicle of the Mound Builders

Codex Apocryphus Novi Testamenti:

*Go on an epic adventure with Harry and Lloyd - the stars of the hit Dumb & Dumber franchise - as middle school students, in this hilarious illustrated novel! Despite their exhausted history teacher's best efforts to get them excluded from the trip, middle-schoolers Harry Dunne and Lloyd Christmas join their classmates on a special weekend-long trip to America's capital, Washington, D.C. Shortly after arriving, the boys wander off the guided path at the Museum of American History, where they find a very suspicious-looking security guard seemingly breaking into one of the cases. This doesn't ring any mental alarm bells for Harry and Lloyd, who are instead excited and fascinated by the case's contents, even as the security guard tries to hush them up and avoid attracting attention.Unfortunately, Harry and Lloyd end up setting off the actual alarm bells, and the "security guard" makes a break for it, but not before dropping a coded map that has certain locations around Washington, D.C. marked with arcane symbols. The boys have just one thought: SCAVENGER HUNT! Soon, Harry and Lloyd (and their exasperated classmate Tina) embark on a romp through Washington DC to find everything on this "scavenger hunt," all while being trailed by the thief who is after the REAL treasure the map leads to.Part Nicholas Cage heist of the declaration of independence, part hilarious middle grade adventure, "Irrational Treasure" is sure to be a hit of fans of Dumb & Dumber, and kids who are new to the franchise alike!*

*This fascinating study examines how Victorian fixation on disastrous Northwest Passage expeditions has conditioned our understanding of the Arctic and Polar exploration.*

*International organizations and other global governance bodies often make rules and decisions without input from many of the individuals, groups, firms, and governments that are affected by them. The standards of the Basel Committee on Banking Supervision, for instance, developed by a small number of states, govern financial markets and the safety of bank deposits in over a hundred jurisdictions. Historically, the interests of developing countries, as well as non-commercial and diffuse interests within countries, have been excluded or disregarded in global governance. Scholars and practitioners have criticised this democratic deficit and called for greater participation of such marginalized stakeholders. Against this background, international institutions have introduced a variety of reforms with the goal of increasing and facilitating the participation of these excluded stakeholders. This book brings together an expert group of scholars and practitioners to investigate the consequences of stakeholder participation reforms in the global governance of health and finance: What reforms have been introduced? Have these reforms given previously marginalized stakeholders a voice in global governance bodies? What effect have these reforms had on the legitimacy and effectiveness of global governance? To answer these questions, the book examines treaty-based intergovernmental organizations alongside newer forms of global governance such as trans-governmental regulatory networks, multi-stakeholder partnerships, and private standard setting bodies. Through a series of paired comparative analyses, the book provides insights into the experiences of large emerging and smaller or lower income developing countries (Brazil v. Argentina, China v. Vietnam, India v. the Philippines) in a diverse set of organizations, including the World Bank and the World Health Organization, the Basel Committee on Banking Supervision, the Global Fund to Fight AIDS, Tuberculosis and Malaria, the International Accounting Standards Board, Codex Alimentarius Commission and more.*

Franklin Furnace is a renowned New York-based arts organization whose mission is to preserve, document and present works of avant-garde art by emerging artists - particularly those whose works may be vulnerable due to institutional neglect or politically unpopular content. Over more than thirty years, Franklin Furnace has exhibited works by hundreds of avant-garde artists, some of whom - Laurie Anderson, Vito Aczonci, Karen Finley, Guillermo Gómez-Peña, Jenny Holzer and the Blue Man Group, to name a few - are now established names in contemporary art. Here, for the first time, is a comprehensive history of this remarkable organization from its conception to the present. Organized around the major art genres that emerged in the second half of the twentieth century, this book intersperses first-person narratives with readings by artists and scholars on issues critical to the organization's success as well as Franklin Furnace's many contributions to avant-garde art.

"I've worked side by side with Dr. Pescatore for many years. In this book—which I heartily recommend—Dr. Pescatore teaches you how to bring health and nutrition to the next generation."–Robert C. Atkins, M.D., author of the multimillion copy bestseller Dr. Atkins' New Diet Revolution. "Feed Your Kids Well offers a sensible approach to the difficult problem of childhood obesity—and many other children's health problems. Dr. Pescatore provides parents with excellent strategies for dealing with their children in a positive, sensitive way."–Carol Colman, coauthor of the New York Times bestseller The Melatonin Miracle. "Feed Your Kids Well is an excellent book that explains the importance of a well-balanced diet. It exposes the dangers associated with high-sugar foods and reveals the true cause of childhood obesity."–Joyce and Gene Daoust, authors of 40-30-30 Fat Burning Nutrition. "I helped nutritionally vet Adelle Davis's book, Let's Have Healthy Children. In my opinion, Feed Your Kids Well replaces that important work."–Fran Gare, nutrition expert, CBS-TV. Today, one-third of North American children and teenagers are overweight. And despite decades of medical and scientific breakthroughs, the percentage of children with health problems today is the highest in history. Feed Your Kids Well will be a revelation for millions of worried parents. Dr. Fred Pescatore, who was overweight and asthmatic as a child, brings an empathetic and hopeful tone to this groundbreaking guide to achieving optimum nutrition, ideal health, and self-confidence. Building on the low-carbohydrate principles of the hugely popular Dr. Atkins' New Diet Revolution—which has helped millions of adults lose weight permanently—Dr. Pescatore applies the Atkins Center's proven nutritional program to children and teenagers. Thoroughly tested over years of exhaustive research, his Next Generation Diet is the first health program to recognize that simply applying adult diet plans to children is ineffective—and often dangerous. The author argues that the real culprit behind dietary problems is not fat, but sugars and starches. Feed Your Kids Well brings something new to the table: sane and practical guidance for parents concerned not only about weight loss, but also about general wellness and the prevention of disease—from asthma to ADD, from earaches to allergies. After explaining how your child's body and metabolism work, Dr. Pescatore clearly outlines a straightforward nutritional lifestyle program that helps parents shape the important building blocks—proteins, fats, and carbohydrates—into complete, well-balanced meals. Packed with easy-to-follow sample menus for every day of the week, this book provides delicious, healthy alternatives. Kids will love the dozens of simple, step-by-step recipes for a variety of dishes, including pancakes with strawberry topping, chicken fingers, beef tacos, fudgy brownie squares, and peanut butter cookies. Some recipes are easy enough for kids to make themselves! Parents will also learn how to integrate effective nutrition with various vitamin supplements, complementary medical treatments, and a regular exercise program, which can help heal and even prevent childhood ailments. With fascinating case studies, Dr. Pescatore demonstrates how to treat these problems simply by monitoring nutrient deficiencies and sugar overload. In childhood, the all-important seeds of our adult selves are planted—from our personalities to our eating habits. Feed Your Kids Well helps parents prepare their children for healthy, happy lives.

This book deals with the modern, northern half of the Isthmus, its social struggles and its varied problems in adapting a backward region to the need and ways of industrial civilization. It presents a view of the modern Isthmus Zapotecs, living around Juchitan and Tehuantepec.

Codex Exoniensis

Volume I: The Making of the Polish-Lithuanian Union, 1385-1569

From the moment King Fernando and Queen Isabel sponsored Christopher Columbus's voyage, they began issuing contracts, decrees, and privileges implementing the project. Previous editions of these collected documents, known as the Book of Privileges, have been published. Yet because such editions have ordered the material as Columbus left it, use of these books has proven problematic. The Repertorium Columbianum edition presents these documents in chronological order, providing a continuous historical narrative of the monarchs' and Columbus's enterprise. (The documents also appear, separately, in Columbus's arrangement.) Superbly translated, with historical and philological commentary, this edition of the Book of Privileges is a valuable historical resource.

37th report, 1889, has atlas of plates (35 cm.) illustrating new building.

A 2021 USA Today Bestseller! Get thousands of facts at your fingertips with this essential resource: business, the arts and pop culture, science and technology, U.S. history and government, world geography, sports, and so much more. The World Almanac® is America ' s bestselling reference book of all time, with more than 83 million copies sold. For more than 150 years, this compendium of information has been the authoritative source for school, library, business, and home. The 2022 edition of The World Almanac reviews the biggest events of 2021 and will be your go-to source for questions on any topic in the upcoming year. Praised as a " treasure trove of political, economic, scientific and educational statistics and information " by The Wall Street Journal, The World Almanac and Book of Facts will answer all of your trivia needs effortlessly. Features include: Special Feature: Coronavirus Status Report: A special section provides up-to-the-minute information about the world ' s largest public health crisis in at least a century. Statistical data and graphics across dozens of chapters show how the pandemic continues to affect the economy, work, family life, education, and culture. Special Feature: 20 Years in Afghanistan: The World Almanac provides history, data, and other context for the end of America's longest war and the future of Afghanistan and its people. 2021—Top 10 News Topics: The editors of The World Almanac list the top stories that held the world's attention in 2021. 2021—Year in Sports: Hundreds of pages of trivia and statistics that are essential for any sports fan, featuring complete coverage of the Olympic Games in Tokyo and the sports world's ongoing adaptations to the coronavirus pandemic, and much more. 2021—Year in Pictures: Striking full-color images from around the world in 2021, covering news, entertainment, science, and sports. 2021—Offbeat News Stories: The World Almanac editors found some of the strangest news stories of the year. World Almanac Editors' Picks: Time Capsule: The World Almanac lists the items that most came to symbolize the year 2021, from news and sports to pop culture. World Almanac Editors' Picks: Memorable Recent Sports Scandals: From a trash-can banging, sign-stealing scandal to the doping of horses and humans, World Almanac editors select some of the sports world's biggest black marks from the last 20 years. The World at a Glance: This annual feature of The World Almanac provides a quick look at the surprising stats and curious facts that define the changing world. Illuminating History: A Retrospective of Seven Decades

Italian Literature Before 1900 in English Translation

Handbook of Middle American Indians. Volumes 14 and 15

In the sixteenth century, the Franciscan friar Bernardino de Sahagún and a team of indigenous grammarians, scribes, and painters completed decades of work on an extraordinary encyclopedic project titled General History of the Things of New Spain, known as the Florentine Codex (1575-1577). Now housed in the Biblioteca Medicea Laurenziana in Florence and bound in three lavishly illustrated volumes, the codex is a remarkable product of cultural exchange in the early Americas. In this edited volume, experts from multiple disciplines analyze the manuscript's bilingual texts and more than 2,000 painted images and offer fascinating, new insights on its twelve books. The contributors examine the "three texts" of the codex—the original Nahuatl, its translation into Spanish, and its painted images. Together, these constitute complementary, as well as conflicting, voices of an extended dialogue that occurred in and around Mexico City. The volume chapters address a range of subjects, from Nahuca sacred beliefs, moral discourse, and natural history to the Florentine artists' models and the manuscript's reception in Europe. The Florentine Codex ultimately yields new perspectives on the Nahuca world several decades after the fall of the Aztec empire.

New York Times bestselling author David Mack's Dark Arts series continues as the wizards of World War II become the sorcerers of the Cold War in this globe-spanning spy-thriller sequel to The Midnight Front. 1954: Cade Martin, hero of the Midnight Front during the war, has been going rogue without warning or explanation, and his mysterious absences are making his MI-6 handlers suspicious. In the United States, Briget Sedfrunsdóttir serves as the master karist of the Pentagon's top-secret magical warfare program. And in South America, Anja Kernova hunts fugitive Nazi sorcerers with the help of a powerful magical tome known as the Iron Codex. In an ever-more dangerous world, a chance encounter sparks an international race to find Anja and steal the Iron Codex. The Vatican, Russians, Jewish Kabbalists, and shadowy players working all angles covet the Codex for the power it promises whoever wields it. As the dominoes start to fall, and one betrayal follows another, Anja goes on the run, hunted by friend and foe alike. The showdown brings our heroes to Bikini Atoll in March 1954: the Castle Bravo nuclear test. But unknown to all of them, a secret magick cabal schemes to turn America and its western allies toward fascism—even if it takes decades... The Dark Arts novels The Midnight Front The Iron Codex

The history of eastern European is dominated by the story of the rise of the Russian empire, yet Russia only emerged as a major power after 1700. For 300 years the greatest power in Eastern Europe was the union between the kingdom of Poland and the grand duchy of Lithuania, one of the longest-lasting political unions in European history. Yet because it ended in the late-eighteenth century in what are misleadingly termed the Partitions of Poland, it barely features in standard accounts of European history. The Making of the Polish-Lithuanian Union 1385-1569 tells the story of the formation of a consensual, decentralised, multinational, and religiously plural state built from below as much as above, that was founded by peaceful negotiation, not war and conquest. From its inception in 1385-6, a vision of political union was developed that proved attractive to Poles, Lithuanians, Ruthenians, and Germans, a union which was extended to include Prussia in the 1450s and Livonia in the 1560s. Despite the often bitter disagreements over the nature of the union, these were nevertheless overcome by a republican vision of a union of peoples in one political community of citizens under an elected monarch. Robert Frost challenges interpretations of the union informed by the idea that the emergence of the sovereign nation state represents the essence of political modernity, and presents the Polish-Lithuanian union as a case study of a composite state. The modern history of Poland, Lithuania, Ukraine, and Belarus cannot be understood without an understanding of the legacy of the Polish-Lithuanian union. This volume is the first detailed study of the making of that union ever published in English.

*This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright in the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.*

*This book presents a collective portrait of the inhabitants of Arpadian- and Angevin-era Hungary identified by their countrymen as Rutheni, illuminating their role in the social and political life of the kingdom.*

*Volumes 14 and 15 of the Handbook of Middle American Indians, published in cooperation with the Middle American Research Institute of Tulane University under the general editorship of Robert Wauchope (1909–1979), constitute Parts 3 and 4 of the Guide to Ethnohistorical Sources. The Guide has been assembled under the volume editorship of the late Howard F. Cline, Director of the Hispanic Foundation in the Library of Congress, with Charles Gibson, John B. Glass, and H. B. Nicholson as associate volume editors. It covers geography and ethnogeography (Volume 12); sources in the European tradition (Volume 13); and sources in the native tradition: prose and pictorial materials, checklist of repositories, title and synonymy index, and annotated bibliography on native sources (Volumes 14 and 15). The present volumes contain the following studies on sources in the native tradition: “A Survey of Native Middle American Pictorial Manuscripts,” by John B. Glass “A Census of Native Middle American Pictorial Manuscripts,” by John B. Glass in collaboration with Donald Robertson “Techialoyan Manuscripts and Paintings, with a Catalog,” by Donald Robertson “A Census of Middle American Testerian Manuscripts,” by John B. Glass “A Catalog of Falsified Middle American Pictorial Manuscripts,” by John B. Glass “Prose Sources in the Native Historical Tradition,” by Charles Gibson and John B. Glass “A Checklist of Institutional Holdings of Middle American Manuscripts in the Native Historical Tradition,” by John B. Glass “The Botutini Collection,” by John B. Glass “Middle American Ethnohistory: An Overview” by H. B. Nicholson The Handbook of Middle American Indians was assembled and edited at the Middle American Research Institute of Tulane University with the assistance of grants from the National Science Foundation and under the sponsorship of the National Research Council Committee on Latin American Anthropology.*

*"Italian Literature before 1900 in English Translation provides the most complete record possible of texts from the early periods that have been translated into English, and published between 1929 and 2008. It lists works from all genres and subjects, and includes translations wherever they have appeared across the globe. In this annotated bibliography, Robin Healey covers over 5,200 distinct editions of pre-1900 Italian writings. Most entries are accompanied by useful notes providing information on authors, works, translators, and how the translations were received. Among the works by over 1,500 authors represented in this volume are hundreds of editions by Italy's most translated authors - Dante Alighieri, [Niccoló] Machiavelli, and [Giovanni] Boccaccio - and other hundreds which represent the author's only English translation. A significant number of entries describe works originally published in Latin. Together with Healey's Twentieth-Century Italian Literature in English Translation, this volume makes comprehensive information on translations accessible for schools, libraries, and those interested in comparative literature."--Pub. desc.*

*The brilliance of a master historian shines through this “elegant and engaging memoir” of a lifetime’s work (Richard Aldous, Wall Street Journal). Over a remarkable career Bernard Bailyn has reshaped our understanding of the early American past. Inscribing his superb scholarship with passion and imagination honed by a commitment to rigor, Bailyn captures the particularity of the past and its broad significance in precise, elegant prose. His transformative work has ranged from a new reckoning with the ideology that powered the opposition to British authority in the American Revolution, to a sweeping account of the peopling of America, and the critical nurturing of a new field, the history of the Atlantic world. Illuminating History is the most personal of Bailyn’s works. It is in part an intellectual memoir of the significant turns in an immensely productive and influential scholarly career. It is also alive with people whose actions touched the long arc of history. Among the dramatic human stories that command our attention: a struggling Boston merchant tormented by the tensions between capitalist avarice and a constrictive Puritan piety; an ordinary shopkeeper who in a unique way feverishly condemned British authority as corrupt and unworthy of public confidence; a charismatic German Pietist who founded a cloister in the Pennsylvania wilderness famous for its strange theosophy, its spartan lifestyle, and its rich musical and artistic achievement. And the good townspeople of Petersham, whose response in 1780 to a draft Massachusetts constitution speaks directly to us through a moving insistence on individual freedoms in the face of an imposing central authority. Here is vivid history and an illuminating self-portrait from one of the most eminent historians of our time.*
