Explore the world and satisfy your wanderlust in the most eco-friendly way. How can we lessen our impact on the world without giving up the things we love? This series of easy-to-follow guides show that positive change is possible without radical changes to your everyday life. Sustainable tourism doesn't have to mean vowing to never take another flight or spending holidays camping in

your back garden. This short expert guide from eco-travel journalist Juliet Kinsman, takes you through every step of planning your trip, from booking to boarding, and arms you with everything you need to know for a lower-impact getaway. Whether it's explaining how to know which plane to take (yes, some are greener than others) or how to avoid the mini toiletries trap; this book shows that you can save the planet and still live life to the full.

Unfortunately, many manufacturers of school-related products deserve an "F" for selling items laced with chemicals that are linked to developmental and learning problems, among other ailments. Some of these products also take a toll on the health of our planet, adding to the mountains of trash and waste that strain our resources and releasing toxic chemicals that pollute air, water, and soil. The good news is that parents, public health leaders, and advocacy groups have been calling for safer products--and marketers are listening. So there are more and more options for smart choices that protect your family's health. To help you navigate the sometimes confusing array of backpacks, book bags, lunch boxes, art supplies, and other educational accessories--and separate the truly healthful from the overly hyped--the editors of Rodale Books editors have compiled this unique shopping guide to the healthiest, safest, kid-friendliest options on the market today. Based on

extensive research and interviews and advice from child health experts, environmental specialists, and concerned parents, Rodale's Nontoxic Back-to-School Shopping Guide covers more than 150 specific products, provides dozens of creative ideas for materials and sources, and offers important guiding principles for evaluating other items you may find on your own. It's the ultimate handbook for equipping your kids to have a safe, healthy, nontoxic school year!

Change starts at home. In the office. Change starts with you. Your family. Your friends. Change starts with everyday things. One object at a time. Sometimes it can feel overwhelming thinking about all that needs to be done to save our planet. This book is the antidote to that feeling. Easy to read and easy to do – here's all the information and inspiration you need to make a difference, simply by making smart choices about everyday objects, tasks and habits. Environmental scientist Dr Tara Shine guides you from room to room and occasion to occasion with environmentally friendly solutions, backed by science. From swapping bottled soap to bars, to replacing cling film with a simple plate, you will reduce your environmental footprint in an instant, while saving money. This book busts persistent myths and will once and for all show that living sustainably can be both fun and convenient. Besides, it will not only have a positive impact on the environment, but your wellbeing too! 'Dr. Tara Shine is an enlightened big-picture thinker, and with this book she shows that she is equally and delightfully adept at bringing details into focus. This book is all about realising the power you have as an individual by informing yourself, asking

questions and making smart choices. By getting becoming active and joining the conversation, you become empowered and you do something about the problem we face rather than feeling powerless in its presence.' Christiana Figueres, Former Executive Secretary of the United Nations Framework Convention on Climate Change 'Tara's book reminds us we all have the power to make changes in our lives. The only way to achieve systemic change is through the actions of many. We can all make that change and bring about climate justice.' Mary Robinson, Chair of The Elders, former President of Ireland, UN High Commissioner for Human Rights and UN Special Envoy on Climate Change 'Dr Tara Shine is a much loved and admired member of the Homeward Bound team - both past participant and now faculty member in the visibility stream. She has many stories to share and is a connected and pragmatic activist. Her book should be handed round, downloaded, talked about and acted on.' Fabian Dattner, founder, Dattner Group & CEO, Homeward Bound

Globalizing Responsibility: The Political Rationalities of Ethical Consumption presents an innovative reinterpretation of the forces that have shaped the remarkable growth of ethical

consumption. Develops a theoretically informed new approach to shape our understanding of the pragmatic nature of ethical action in consumption processes Provides empirical research on everyday consumers, social networks, and campaigns Fills a gap in research on the topic with its distinctive focus on fair trade consumption Locates ethical consumption within a range of social theoretical debates -on neoliberalism, governmentality, and globalisation Challenges the moralism of much of the analysis of ethical consumption, which sees it as a retreat from proper citizenly politics and an expression of individualised consumerism

Sustainable tourism is a widely used term that has accumulated considerable attention from researchers and policy makers over the past two decades. However, there is still an apparently wide gap between theory and practice in the area. Recent scholarly research has tended to focus on niche areas of alternative tourism rather than address the broader issues and vagaries and paradoxes that appear to plague the broader notion of sustainable tourism. As such, there is a need for a new and pragmatic analysis of sustainable tourism as an overarching idea

Acces PDF The Good Shopping Guide Certifying The Uks Most Ethical Companies And Brands Good Shopping Guides

and how this manifests in practice. The Practice of Sustainable Tourism fulfils this need by offering a fresh perspective on sustainable tourism as an umbrella concept with inherent tensions. It presents a way of thinking about tourism based on the notion of finding common ground using the dialectic tradition of philosophy. Dialectics focusses on resolving opposing viewpoints by recognising they have common elements that can be combined into a rational and practical solution over time. As part of this approach, the book examines the strongly apparent tensions within alternative tourism as well as the paradox of continuing growth and other mass tourism related issues. It is divided into three parts, Part I includes chapters discussing the general concept of sustainable tourism, its history, current status and possible futures; Part II includes a range of destination case studies exploring how sustainable tourism has been applied and Part III includes perspectives from the tourism operator view. Given the international content and challenging themes, the book will be appealing internationally to students, researchers and academics in the fields of tourism, geography, sustainability and social science.

myhealthiestlife.com Shopping Guide

A guide for the earth-conscious consumer shows shoppers which products come in packages made from recycled materials, which companies help the environment and which hurt it, how to decode confusing environmental claims on labels, and more.

From electric cars to recycling to organic food--it's all here! Uncle John puts a green spin on its fun facts, figures and trademark trivia. Only Uncle John could make the Green Movement this much fun! This timely edition takes an even-handed look at the trials and tribulations (and downright goofiness) of environmentalism. You'll learn how landfills operate, where plastic goes to die, how to understand food labels, how to save some green around the house, and the lowdown on all the alternative forms of energy currently being bandied about (even beer power). And we cover the really important stuff, such as: Who has the bigger carbon footprint--Fred

Flintstone or George Jetson? And lots more, including... * Lady Bird Johnson's quest for a prettier nation * Whatever happened to the electric car? * Paper vs. plastic: A fight to the death * Not-so-green Hollywood movies * The true meaning of "organic" * Ancient environmentalists * Living on an Amish farm * NOISE POLLUTION! * Animals that recycle * The power of poo And much, much more!

Providing extensive instructions and tips on various wireless devices, this text covers several tools and focuses on several task-oriented explanations for each highlighted device (for example, sending or beaming data between a PC and a PDA).

Everyone knows that we should be doing more to be good to our body, but moving toward an organic lifestyle can be overwhelming. This guide provides step-by-step information on everything from food to cleaning products to how to detoxify our bodies. It includes choosing quality natural products, exploring holistic alternatives to conventional medicine, and determining what to eat - and what not to eat. - Global market for organic products reached \$38.6 billion in 2006 - Practical, step-by-step advice for making the transition Globalisation and consumerism affect every area of our lives. But it's not just about shopping; these powerful forces shape our personal lives, how we relate to one another, how we view the world - and they are having a seriously detrimental impact both on the lives of the global poor, and on the health of the planet itself. Every Christian in every generation down through the history of the church has had to work out what it means to be a follower of Jesus in their particular

culture; for us in the twenty-first century, we must think about discipleship in a globalised, consumerist context. Environmentalist and theologian Ruth Valerio examines these issues in a book that is intellectually rigorous yet practical, and as inspiring as it is challenging.

Presents an eight-week plan for weight loss that can be tailored to individual needs, examines common myths that thwart weight loss, and includes recipes that aid in detoxifying and balancing the metabolism.
