

The Guns Of South Harry Turtledove

Reproduction of the original: The Wrong Twin by Harry Leon Wilson

From the New York Times-bestselling “standard-bearer for alternate history”:

A spy takes on the enemies of the Byzantine Empire (USA Today). In another, very different timeline—one in which Mohammed embraced Christianity and Islam never came to be—the Byzantine Empire still flourishes in the fourteenth century, and wondrous technologies are emerging earlier than they did in our own. Having lost his family to the ravages of smallpox, Basil Argyros has decided to dedicate his life to Byzantium. A stalwart soldier and able secret agent, Basil serves his emperor courageously, going undercover to unearth Persia’s dastardly plots and disrupting the dark machinations of his beautiful archenemy, the Persian spy Mirrane, while defusing dire threats emerging from the Western realm of the Franco-Saxons. But the world Basil so staunchly defends is changing rapidly, and he must remain ever vigilant, for in this great game of empires, the player

who controls the most advanced tools and weaponry—tools like gunpowder, printing, vaccines, and telescopes—must certainly emerge victorious. A collection of interlocking stories that showcase the courage, ingenuity, and breathtaking derring-do of superspy Basil Argyros, Agent of Byzantium presents the great Harry Turtledove at his alternate-world-building best. At once intricate, exciting, witty, and wildly inventive, this is a many-faceted gem from a master of the genre.

Imperialistic England has driven the French from Atlantis and seized the continent's eastern coastal town, prompting Victor Radcliff, leader of the revolutionaries, to preserve the freedom of the Atlantean people at all costs.

Excerpt from Tom Swift and His Electric Rifle The young inventor jumped into his electric runabout which stood outside the institution, and was about to start Off when he saw a news boy selling papers which had just come in from New York, on the morning train. Turtledove's alternate history of a century-long American civil war continues . . . The second book in the Settling Accounts sequence takes the story to 1942, during an utterly different World War II. The Confederate States of America are locked in a tangle of jagged, blood-soaked battle lines with the United States of

America. In Richmond, dictator Jake Featherston is shocked by what his own aircraft have done in Philadelphia - killing U. S. president Al Smith in a barrage of bombs. But he presses ahead with a secret plan on the dusty plains of Texas, where a so-called detention camp hides a far more evil purpose. The United States face a furious thrust by Confederate army into Pennsylvania. But with the industrial heartland under siege, Canada in revolt and US ships fighting against the Japanese in the Sandwich Islands, the most dangerous place in the world may be overlooked.

The Earth is at a crossroads. Adrian Miller, one-time ruler of the modern world, reviled by many, is presumed dead. But in truth, he is quite lost, trapped on an alien world. Now finding himself with a second chance, he takes the opportunity to try and reconcile with his past, build a new future. But it soon becomes apparent that far more than his conscience is at stake if he can't. Henry Forman, beloved hero and brilliant engineer, has his new life with the woman he loves ripped swiftly out from under him before it begins. A crisis of unprecedented scale emerges. He must rise to face this challenge, as there aren't many others who

will. And yet, he doubts that he can do enough to make a difference this time. Both must race against the clock if they are to rediscover who they really are, and save all of humanity from a terrible fate. Destiny may have stitched their lives in place, but strings can sometimes unravel. The impossible has spawned the unthinkable. In 2021, a quantum military experiment goes horrifically wrong. A multinational taskforce of ultra-modern warships is suddenly transported back in time to 1942 right into the path of the US naval battle group bound for Midway Atoll. History is rewritten in an instant as the future smashes into the past, and high-tech hardware goes head to head with World War Two technology. In the chaos that ensues, thousands are killed, but the maelstrom has only just begun. The veterans of Pearl Harbour have never seen a helicopter, or a cruise missile - let alone nanotechnology, ceramic bullets, and F22 Raptor stealth jetfighters. Allied and Axis forces are then caught in a desperate struggle to gain the upper hand - each hoping to tip the balance with a fist full of twenty first century firepower. What happens next is anybody's guess and everybody's nightmare

Harry Truman The Man Who Divided the World

Truman was the epitome of the American dream. Born and raised by poor, struggling farmers in America's heartland, he had become President through his integrity, a little bit of luck, and sheer hard work. He became the leader of the United States at the tail end of the world's deadliest conflict. Thrust into the middle of a world of conflicting ideologies, Truman would be faced with the newest threat to international stability: a ravenous Soviet Union ready to devour the world with its communist philosophies. As the nation's leader, it fell to him to decide the path which the United States would take into the future. A dedicated public servant and a lover of the freedoms guaranteed by the United States Constitution, Truman realized it was not only his duty but his responsibility to safeguard the free world. By pledging to protect the people of the world from totalitarian rule, Truman unintentionally triggered the Cold War. With his pledge, this often overlooked President forever reshaped American foreign policy, dividing the world into East and West for over forty years.

The Guns of the South A Novel Del Rey

This isn't a feel-good churchy pie-in-the-sky treatment of this subject. It's a needed expose of what the Bible actually teaches about these sometimes controversial topics. It also focuses on the Bible beliefs and faith of the Founding Fathers of the United States, and the original meaning of the Constitution and Bill of Rights. In the process, it brings greater clarity to these much debated topics. You won't be subjected to gory details in this book, but you will be exposed to the difficult choices which surround firearm defense. Importantly, you'll be given the biblical tools needed for making hard, life and death moral choices. You've probably never heard a pastor or church leader teach on this topic. Yet it is critically important for us to understand what the Bible actually has to say about these time issues. Subjects such as our God-given Right of self-defense, firearm ownership, concealed carry, castle doctrines, the use of deadly force, and shoot-to-kill or shoot-to-wound, are all pivotal issues for us today. Many are shocked to learn that these topics are addressed in the Bible. This book explains the Bible viewpoint, and what Jesus taught on these subjects which today are taboo in most churches. Bible passages are cited

throughout, and hundreds more are included in footnotes, keeping the focus on the Bible not personal opinion. The author, SIG SWANSTROM, is a former police detective and SWAT team operator who worked in the Los Angeles area. During his years of service, he personally had many deadly force encounters with armed criminals, so his writing is real world. And today, as the owner of a highly acclaimed firearms training academy in Texas, SIG has also learned how to capture the interest of his audiences as he teaches practical skills in the unique context of biblical truth."

Rabbis Against Gun Violence

In her debut, Ashley Garcia explores themes of love, feminism, and struggling with mental illness as a young woman in today's era. Is This Poetry is a collection of poetry that takes the reader on a three year journey that weaves through the murky waters of early womanhood that will resonate through generations.

Alice Keppel, the married lover of Queen Victoria's eldest son and great-grandmother to Camilla Parker-Bowles, was a key figure in Edwardian society. Hers was the acceptable face of adultery. Discretion was her hallmark.

It was her art to be the king's mistress and yet to laud the Royal Family and the institution of marriage. Formidable and manipulative, her attentions to the king brought her wealth, power, and status. Her daughter Violet Trefusis had a long tempestuous affair with the author and aristocrat Vita Sackville-West, during which Vita left her husband and two sons to travel abroad with Violet. It was a liaison that threatened the fabric of Violet's social world, and her passion and recalcitrance in pursuit of it pitted her against her mother and society. From memoirs, diaries, and letters, Diana Souhami portrays this fascinating and intense mother/daughter relationship in *Mrs. Keppel and Her Daughter*. Her story of these women, their lovers, and their lovers' mothers, highlights Edwardian - and contemporary - duplicity and double standards and goes to the heart of questions about sexual freedoms. A great leader rises when forced to defend his troubled lands against an onslaught of monsters in the second book of this remarkable fantasy series

featuring Gerin the Fox Peace in the North has been fragile and tentative in the five years since the terrible Werenight, when the light of four full moons transformed men into beasts. Now cut off completely from the Elabon Empire, the land is in violent dispute, squabbled over by minor barons hungry for greater power. Gerin the Fox is one of the few who stand firm against the encroaching chaos, but his own life has been violently shaken, first by a heartless betrayal and then by the kidnapping of his young son. Having angered a vengeful deity, he cannot look to the gods for support. Yet it is Gerin to whom the people must turn when an earthquake tears their land open, undoing an ancient warding spell and releasing a host of ravaging beasts from the dark underground. The stunning sequel to Werenight, Hugo Award-winning author Harry Turtledove's Prince of the North is a magnificent work of fantasy fiction. The master builder of wondrous worlds and alternate histories works his literary sorcery once again in this richly imagined tale of war, magic, gods, and monsters.

From the master of alternate history comes an epic of the second Civil War. It was an epoch of glory and success, of disaster and despair. . . . 1881: A generation after the South won the Civil War, America writhed once more in the bloody throes of battle. Furious over the annexation of key Mexican territory, the United States declared total war against the Confederate States of America in 1881. But this was a new kind of war, fought on a lawless frontier where the blue and gray battled not only each other but the Apache, the outlaw, the French, and the English. As Confederate General Stonewall Jackson again demonstrated his military expertise, the North struggled to find a leader who could prove his equal. In the Second War Between the States, the times, the stakes, and the battle lines had changed--and so would history. . . .

The prophet Jeremiah told the weary and heart-broken exiles of Jerusalem that they should “seek the peace of the city.” Rabbis, along with faith leaders of every tradition, teach that a broken society is one in which we fail to take care of others. This book asks some very hard questions of America in the midst of a Gun Violence epidemic, and presents a passionate, hopeful, healing response to a moment of national pain and fragility. The rabbis in this collection ask: How many innocent deaths will it take for our elected officials to respond with moral conviction? How long must America wait to acknowledge that we lose 30+ American lives to Gun Violence every day, scarring our national life? How many tears must be shed? Learn, connect, and be inspired with the voices of today's rabbinic leaders. Can history be changed? Can the South still win the War Between the States? Colonel McCulloch thinks so...and his gold, his gun, and some very special blueprints stand behind him to help him prove it. Sargeant Harmon is a black man who hopes not...and only his readiness, ingenuity, and wit stand behind him to help him stop it. In the corridors of contemporary Washington and on the fields where Civil War battles have yet to be fought, these two men take each other on--and the winner will determine the course of history... The Guns of Bull Run follows the adventures of Harry Kenton, a Southern sympathizer from Kentucky, who travels to South Carolina to volunteer his services to the new Confederacy. He soon finds himself swept up into greater events, being present at the inauguration of Jefferson Davis, the firing on Fort Sumter, and on to the battle of Bull Run. Written in 1913, this gripping story will transport readers back to a different place and time. Joseph Altsheler does a good job of presenting the Southern side in a realistic, non-preachy manner. The classic novel of speculative history, showing how the South could have won the Civil War, is accompanied by the author's essay on his work.

"The Guns of Shiloh," by Joseph A. Altsheler tells the story of war time scenes. It is a complete story in itself, is the complement of "The Guns of Bull Run." In "The Guns of Bull Run" the Civil War and its beginnings are seen through the eyes of Harry Kenton, who is on the Southern side. In "The Guns of Shiloh" the mighty struggle takes its color from the view of Dick Mason, who fights for the North and who is with Grant in his first great campaign.

The Daily Show (The Book)

After the Downfall

A humorous, yet poignant social historic narrative of a priest grappling with the changing mores of both the Catholic Church and contemporary life. Father Harry Schlitt encountered movie stars as well as cardinals and popes. But his real ministry centered around common people he met through his radio and television shows over the span of 50 years. In this book we look at the history of the South African Nuclear Weapons Program, long denied but always winked about, an open secret to many although the details were always vague with rumours of Israeli assistance in designing the bombs. In fact, the Israeli input was negligible as the South African nuclear weapons worked in an entirely unique way, yielding about what the Hiroshima bomb did and considered "sufficient" as a deterrent against a Soviet Union originated and supported conventional attack. This attack almost came to be in 1988 - 1989 via Angola into what was then South West Africa and today Namibia. Masses of conventional

forces were gathered, and plans were made - in history the same as the attack on South Vietnam by North Vietnamese Forces the decade before. History always repeats itself. A brilliant South African "Maskirovka" from the Chief of Staff in Pretoria stopped the planned invasion as well as the very public mobilising order of 400,000 men from the Army Reserves. South Africa also had the means to deliver nuclear bombs accurately, all discussed in this book and may even have done so, although, we don't know. It is one of the big "ifs" in history. As said, the invasion never took place and in no small way due to the Battle of Cuito Cuanavale which is often written about in GMJ Books. It was the largest tank battle in Africa since the Second World War and South African Forces won hands down. It is beyond maddening to the author that no Western "Expert" today knows that in 1978, South Africa produced working nuclear weapons. They either don't know, forgot history, or are incompetent, or more probably, both. Just before Mr. Mandela took office as the newly democratically elected president, the atomic devices were handed over to the US Government for dismantling. That act was until now the only time in the world where a country willingly got rid of its nuclear arsenal. Everyone applauded. Yet, the means to manufacture such weapons did not disappear

with the weapons, something no one in the West realises. If a place like Iran wants a nuclear weapon, they merely need to ask the South Africans that have the know-how and proven capability to produce them in record time. It is old technology. In Code Name Angel we deal with nuclear weapons and the risk of such weapons in the hands of terrorists using them against the West. You should not doubt that terrorists will use nuclear devices if they have them - they stated their intentions to do so many times in the past. The normal rules of MAD, retaliation, do not apply to them. There is no reason to doubt that they would flatten a Western city if given the opportunity and such opportunities can be created easily enough as this book explains. Description: Spymaster extraordinaire, Angelique Dawson and her team must recover lost or roguery manufactured South African nukes on their way to Iran or Al-Qaeda or both for all we know. The warheads are escorted by Zimbabwean Intelligence operatives in cahoots with Iranian Intelligence. This was one of the first major Egg Breaker operations that never made the newspapers and took place mostly in southern Mozambique, the chosen exfiltration point for the weapons. Major Geoffrey Foxtrot, under command of his handler, Angelique Dawson, later his wife and soul, tracks

the weapons down in a combined operation with Mossad Agents but that is only the first step. Disarming the devices is another story as Angelique insists on doing so herself, plus the Zimbabweans are also around to prevent the bombs from being intercepted in the first place. A clash between the two groups is unavoidable. If you wish to read about Covert and Special Forces Operations in sub-Saharan Africa, the GMJ Books are the place to start. You will learn about covert operations, Special Forces techniques, and military history not known outside the select few. Code Name Angel is the 7th book of the popular GMJ Series.
