The Hand of War

In 1971, India waged a momentous war against Pakistan. But before all-out war, an even more significant tank battle was fought on 21 November 1971 by the C Squadron 45 Cavalry, which demolished the Pakistani General A.A.K. Niazi's plans of victory and set the stage for the utter routing of the Pakistani Army. Equipped with the amphibious PT-76 tanks, the Indian Army's C Squadron 45 Cavalry was unleashed to swim across the River Kabodak, near the Boyra salient (now in Bangladesh), to counter the threat from East Pakistan. On 21 November 1971, the two warring armies clashed in a tank versus tank battle at Garibpur. In one fell swoop, Pakistan's 3 (Independent) Armoured Squadron, consisting of fourteen American M-48 Patton tanks, and Chaffee tanks, was completely destroyed and two of its infantry battalions were badly mauled. This was followed by the shooting down of three Sabre F-86 jets for the loss of two PT-76 tanks on the Indian side. And thus, the biggest attack planned by General A.A.K. Niazi to teach the Indians and the Mukti Bahini a lesson had gone up in smoke. This battle was a victory and a decisive one at that. It was a trumpet call to the rest of the world of India's intent to stand up for human liberty and dignity in this war of liberation. On 3 December 1971, Pakistan declared war. The rest is history. The Burning Chaffees is a thrilling account of the pivotal battle of 21 November by Brigadier B.S. Mehta.

On the tenth anniversary of the date that UN peacekeepers landed in Rwanda, Random House Canada is proud to publish the unforgettable first-hand account of the genocide by the man who led the UN mission. Digging deep into shattering memories, General Dallaire has written a powerful story of betrayal, naiveté, racism and international politics. His message is simple and undeniable: "Never again." When Lt-Gen. Roméo Dallaire received the call to serve as force commander of the UN intervention in Rwanda in 1993, he thought he was heading off on a modest and straightforward peacekeeping mission. Thirteen months later he flew home from Africa, broken, disillusioned and suicidal, having witnessed the slaughter of 800,000 Rwandans in only a hundred days. In Shake Hands with the Devil, he takes the reader with him on a return voyage into the hell of Rwanda, vividly recreating the events the international community turned its back on. This book is an unsparing eyewitness account of the failure by humanity to stop the genocide, despite timely warnings. Woven through the story of this disastrous mission is Dallaire's own journey from confident Cold Warrior, to devastated UN commander, to retired general engaged in a painful struggle to find a measure of peace, reconciliation and hope. This book is General Dallaire's personal account of his conversion from a man certain of his worth and secure in his assumptions to a man conscious of his own weaknesses and failures and critical of the institutions he'd relied on. It might not sit easily with standard ideas of military leadership, but understanding what happened to General Dallaire and his mission to Rwanda is crucial to understanding the moral minefields our peacekeepers are forced to negotiate when we ask them to step into the world's dirty wars.

Excerpt from Shake Hands with the Devil My story is not a strictly military account nor a clinical, academic study of the breakdown of Rwanda. It is not a simplistic indictment of the many failures of the UN as a force for peace in the world. It is not a story of heroes and villains, although such a work could easily be written. This book is a cri de coeur for the slaughter of thousands, a tribute to the souls hacked apart by machetes because of their supposed difference from those who sought to hang on to power. . . . This book is the account of a few humans who were entrusted with the role of helping others taste the fruits of peace. Instead, we watched as the devil took control of paradise on earth and fed on the blood of the people who were supposed to protect.

The Will to Battle—the third book of 2017 John W. Campbell Award winner Ada Palmer's Terra Ignota series—a political science fiction epic of extraordinary audacity “A cornucopia of dazzling, sharp ideas set in rich, wry prose that rewards rumination with layers of delight. Provocative, erudite, inventive, resplendent.” —Ken Liu, author of The Grace of Kings The long years of near-utopia have come to an abrupt end. Peace and order are now figments of the past. Corruption, deception, and insurgency hum within the once steadfast leadership of the Hives, nations without fixed location. The heartbreaking truth is that for decades, even centuries, the leaders of the great Hives bought the world's stability with a trickle of secret murders, mathematically planned. So that no faction could ever dominate. So that the balance held. The Hives' façade of solidity is the only hope they have for maintaining a semblance of order, for preventing the public from succumbing to the savagery and bloodlust of wars past. But as the great secret becomes more and more widely known, that façade is slipping away. Just days earlier, the world was a pinnacle of human civilization. Now everyone—Hives and hiveless, Utopians and sensayers, emperors and the downtrodden, warriors and saints—scrambles to prepare for the seemingly inevitable war. “Seven Surrenders veers expertly between love, murder, mayhem, parenthood, theology, and high politics. I haven't had this much fun with a book in a long time.” —Max Gladstone, author of Three Parts Dead Terra Ignota Series 1. Too Like the Lightning 2. Seven Surrenders 3. Why is the book of Revelation so difficult to understand? It is full of symbolism, ferocious animals and horses of varying colors, humanity being destroyed, and a woman riding a beast. It's supposed to be a book of revealing. The author spent forty-three years studying the Bible and found "keys of understanding." The keys are found throughout the Bible. They unlock the book of Revelation for us today. Most prophecies are for the end time we are now approaching. We need to understand them. No one wants to read a book concerning all bad news about World War III and the great tribulation. But there is good news following the bad. Can you imagine a world at peace? All armies are disbanded, all weapons melted down into farm implements. You will read the good news about the return of the Prince Of Peace, Jesus Christ's coming as King of Kings.

Based on meticulous research into the correspondence and documentation of the founding fathers from the crafting of the Declaration of Independence to the signing of the peace treaty with Britain, this book sheds light on how the Judeo-Christian world view motivated America's founding fathers.

The Art of War is an enduring classic that holds a special place in the culture and history of East Asia. An ancient Chinese text on the philosophy and politics of warfare and military strategy, the treatise was written in 6th century B.C. by a warrior-philosopher now famous all over the world as Sun Tzu. Sun Tzu's teachings remain as relevant to leaders and strategists today as they were to rulers and military generals in ancient times.
