

The Handbook Of Japanese Verbs Kodansha Dictionary

Essential Japanese Grammar is an indispensable study guide for students of the Japanese language at all levels. Long the standard in Japanese language education, it provides clear, jargon-free explanations of how Japanese grammar works and offers hundreds of example sentences. It is an essential handbook for self-study or for the classroom and should be a valued resource for years to come. A strong foundation in grammar is vital to those wishing to learn Japanese as a whole. Essential Japanese Grammar presents a number of unique features. First, grammatical terminology has been kept to a minimum so that extensive prior knowledge of grammar is not required. Second, abundant example sentences written in Japanese characters (kana and kanji) followed by romanji and English translations. Third, the authors have tried to reveal aspects of grammar that may not be found in comparable grammar books such as rare Japanese verbs, adjectival nouns, clauses adverbs, etc. This Japanese grammar book contains: parts of speech. sentence constructions. conjugations forms. speech styles and tones. accentuation rules. essential words and functional elements. an appendix for referencing and cross-referencing Japanese words.

A Dictionary of Basic Japanese Sentence Patterns is a fundamental learning tool for all students of the Japanese language, whether they be unblemished beginners or scarred veterans. With both types of struggling student, as well as for all the gradations that fall in between, there is a strong tendency, in the heat of battle, to lose sight of the essential nature of the Japanese sentence. It is for just such people that this dictionary has been created, to help them keep their eyes fixed firmly on the target and not be led astray. The dictionary contains fifty of the most fundamental Japanese sentence patterns as well as sixty-nine variations. This number covers all the patterns that are needed for levels 3 and 4 of the Japanese Language Proficiency Test. Each pattern and variation is clearly defined by a formula given in Japanese, romanization, and English. Each is exemplified by sample sentences (both in single sentences and in dialogues), and each is represented in both polite and informal usage. By means of this approach, the essential nature of the Japanese sentence is clarified, and once that has been done, the many patterns and variations fall easily into place. The simple, undisguised truth is that there are only three types of sentence in Japanese, and all of the convolutions and complications that distract and bemuse the student are nothing more than modifications of these three fundamental types. The study of the Japanese sentence need not be as difficult as it is seems. A Dictionary of Basic Japanese Sentence Patterns may be used as a reference book to look up individual patterns for the purpose of learning, confirming, or reapproaching them, or it may be used as a textbook to be read from beginning to end, providing an overview of the Japanese sentence while buttressing the student's grasp of individual patterns. Naoko Chino, the author of the best-selling All about Particles and Japanese Verbs at a Glance, has again presented one of the more forbidding aspects of the language in a way that is both approachable and eminently comprehensible. Main Features - Fifty of the Most Common Basic Patterns - Sixty-nine Variations of the Basic Patterns - Formulas Delineating Basic Pattern Structure - Definitions of Terms Used in the Formulas - Polite Example Sentences and Dialogues - Informal Example Sentences and Dialogues - Commentary on Individual Usages - All the Basic Patterns Needed for Levels 3 & 4 of the Japanese Language Proficiency Test

The Handbook of Japanese Contrastive Linguistics is a unique publication that brings together insights from three traditions—Japanese linguistics, linguistic typology and contrastive linguistics—and makes important contributions to deepening our understanding of various phenomena in Japanese as well other languages of the globe. Its primary goal is to uncover principled similarities and differences between Japanese and other languages of the globe and thereby shed new light on the universal as well as language-particular properties of Japanese. The issues addressed by the papers in this volume cover a wide spectrum of phenomena ranging from lexical to syntactic and discourse levels. The authors of the chapters, leading scholars in their respective field of research, present the state-of-the-art research from their respected field. Making Sense of Japanese is the fruit of one foolhardy American's thirty-year struggle to learn and teach the Language of the Infinite. Previously known as Gone Fishin', this book has brought Jay Rubin more feedback than any of his literary translations or scholarly tomes, "even if," he says, "you discount the hate mail from spin-casters and the stray gill-netter." To convey his conviction that "the Japanese language is not vague," Rubin has dared to explain how some of the most challenging Japanese grammatical forms work in terms of everyday English. Reached recently at a recuperative center in the hills north of Kyoto, Rubin declared, "I'm still pretty sure that Japanese is not vague. Or at least, it's not as vague as it used to be. Probably." The notorious "subjectless sentence" of Japanese comes under close scrutiny in Part One. A sentence can't be a sentence without a subject, so even in cases where the subject seems to be lost or hiding, the author provides the tools to help you find it. Some attention is paid as well to the rest of the sentence, known technically to grammarians as "the rest of the sentence." Part Two tackles a number of expressions that have baffled students of Japanese over the decades, and concludes with Rubin's patented technique of analyzing upside-down Japanese sentences right-side up, which, he claims, is "far more restful" than the traditional way, inside-out. "The scholar," according to the great Japanese novelist Soseki Natsume, is "one who specializes in making the comprehensible incomprehensible." Despite his best scholarly efforts, Rubin seems to have done just the opposite. Previously published in the Power Japanese series under the same title and originally as Gone Fishin' in the same series.

The Handbook of Japanese Verbs**Vertical Inc**

Over the past twenty years or so, the work on Japanese within generative grammar has shifted from primarily using contemporary theory to describe Japanese to contributing directly to general theory, on top of producing extensive analyses of the language. The Oxford Handbook of Japanese Linguistics captures the excitement that comes from answering the question, "What can Japanese say about Universal Grammar?" Each of the eighteen chapters takes up a topic in syntax, morphology, acquisition, processing, phonology, or information structure, and, first of all, lays out the core data, followed by critical discussion of the various approaches found in the literature. Each chapter ends with a section on how the study of the particular phenomenon in Japanese contributes to our knowledge of general linguistic theory. This book will be useful to students and scholars of linguistics who are interested in the latest studies on one of the most extensively studied languages within generative grammar.

Publisher's Note: Products purchased from Third Party sellers are not guaranteed by the publisher for quality, authenticity, or access to any online entitlements included with the product. The most hands-on, practical workbook for learning to read, write and speak Japanese flawlessly Practice, practice, practice—and improve your ability to read, write and speak Japanese as it's really used. Practice Makes Perfect: Complete Japanese Grammar, Premium Second Edition has everything you need to progress from beginning to advanced fluency, from clear explanations and practical examples to all the practice required for language mastery. This updated, new edition boasts audio support online and via mobile app, ensuring you'll speak the language as well as you write and speak it. The answers to more than 100 exercises in the book have been recorded and are available via the McGraw-Hill Language Lab app, and you can also (depending on your mobile device's capabilities) record your own answers to compare with native speakers. • 200 exercises in 15 units covering all aspects of Japanese grammar, with explanations that include useful/helpful comparisons with English grammar—including hiragana, katakana, and kanji script • Author has a proven teaching record, with extensive experience as an educator and curriculum developer • All example sentences are written in Japanese script, with Romanization alongside to help pronunciation • Exercises for use either in the classroom use or for individual study • New to this edition: recordings of answers to many exercises throughout book

The Ultimate Japanese Phrasebook is an ambitious new phrasebook for students who want to improve their speaking and listening skills. The book features 1,800 expressions for daily use, in English and Japanese, with the Japanese presented in both native script and roman letters. Topics include basic greetings, self-introductions, talking about the weather, getting around, ordering at a restaurant, visiting a Japanese friend's home, special events (birthdays, funerals, weddings, baby's birth), and much, much more. What sets this book apart from others is its focus on sentence-level utterances. Many phrasebooks present loads of useful vocabulary, but provide little or no guidance on how to use those words in actual sentences. The Ultimate Japanese Phrasebook shows readers how Japanese sentences work. All the sentences are of the sort learners are likely to use in Japan, whether as students or professionals. Throughout the book, key vocabulary is listed along the bottom of each page, allowing learners to build on what they already know. And there are notes and special columns on usage and communication strategies. Best of all, the book comes with a free MP3 audio CD containing all the sentences read aloud, with feeling, in both English and Japanese, so that readers can casually listen on their iPods or in their cars.

Essential Japanese Grammar

The linguistic study of Japanese, with its rich syntactic and phonological structure, complex writing system, and diverse sociohistorical context, is a rapidly growing research area. This book, designed to serve as a concise reference for researchers interested in the Japanese language and in typological studies of language in general, explores diverse characteristics of Japanese that are particularly intriguing when compared with English and other European languages. It pays equal attention to the theoretical aspects and empirical phenomena from theory-neutral perspectives, and presents necessary theoretical terms in clear and easy language. It consists of five thematic parts including sound system and lexicon, grammatical foundation and constructions, and pragmatics/sociolinguistics topics, with chapters that survey critical discussions arising in Japanese linguistics. The Cambridge Handbook of Japanese Linguistics will be welcomed by general linguists, and students and scholars working in linguistic typology, Japanese language, Japanese linguistics and Asian Studies.

Japanese Verbs: Saying What You Mean is your guide to understanding and successfully speaking real Japanese

This is an invaluable study guide and practice book for learning basic Japanese kanji. Learning Japanese Kanji Practice Book is intended for beginning students, or experienced speakers who need to practice their written Japanese. Kanji are an essential part of the Japanese language and together with kana (hiragana and katakana) comprise written Japanese. This book presents the kanji characters that are most commonly used. All the kanji and related vocabulary words in this book are those that students are expected to know for Level 5 of the Japanese Language Proficiency Test. (JLPT). Characters that appear in the AP Japanese Language and Culture Exam are flagged. Readings, meanings, and common compounds are presented. The correct method of writing each character is clearly indicated and practice boxes with strokes that can be traced are provided, along with empty boxes for freehand writing practice. Lots of exercises are included to give students the opportunity to practice writing sentences containing the Kanji. Indexes at the back allow you to look up the characters by their readings and English meanings. This kanji book includes: Step-by-step stroke order diagrams for each character. Special boxes with grid lines to practice writing characters. Extra printable practice grids Words and phrases using each kanji. Romanizations (romanji) to help identify and pronounce every word.

Classical Japanese: A Grammar is a comprehensive, and practical guide to classical Japanese. Extensive notes and historical explanations make this volume useful as both a reference for advanced students and a textbook for beginning students. The volume, which explains how classical Japanese is related to modern Japanese, includes detailed explanations of basic grammar, including helpful, easy-to-use tables of grammatical forms; annotated excerpts from classical premodern texts. Classical Japanese: A Grammar - Exercise Answers and Tables (ISBN: 978-0-231-13530-6) is now available for purchase as a separate volume.

Learning Hiragana and Katakana is a systematic and comprehensive Japanese workbook that is perfect for self study or in a classroom setting. Written Japanese combines three different types of characters: the Chinese characters known as kanji, and two Japanese sets of phonetic letters, hiragana and katakana, known collectively as kana, that must be mastered before the Japanese kanji can be learned. Learning Japanese Hiragana and Katakana provides beginning-level students of Japanese a thorough grounding in the basic hiragana and katakana phonetic symbols or syllabaries. A comprehensive introduction presents their basic function, origin, pronunciation and usage. The main body of the book is devoted to presenting the 92 hira and kata characters along with their variations, giving step-by-step guidelines on how to write each character neatly in the correct stroke order, with plentiful practice spaces provided for handwriting practice. This Japanese workbook includes: Systematic and comprehensive coverage of the two Japanese kana systems. Ample provision for Japanese kana practice, review, and self-testing at several levels Detailed reference section explaining the origin and function of kana, and the various kana combinations. Access to online Japanese audio files to aid in correct pronunciation. Helpful additional information for language students accustomed to romanized Japanese. Vocabulary selected for usefulness and cultural relevance. About this new edition: The new third edition has been expanded and revised to include many additional reading and writing exercises. Accompanying online recordings demonstrate the correct pronunciation of all the characters, vocabulary, and sentences in the book.

A guide designed to master the most essential verbs of the Japanese language. Containing over 2,800 verbs and 4,100 synonyms, this comprehensive reference book equips learners with the knowledge necessary to live and work in Japanese society. Inside you will find: - 2800 Japanese verbs from basic to beyond the JLPT N1 - Over 4300 English definitions and expressions - 2600 Japanese sentences with English translations - Japanese and Chinese readings over of 1000 unique characters - Japanese - English Dictionary - Japanese Thesaurus with over 4100 synonyms to target verbs - Review sections to test reading ability - An overview section to test ability to recall vocabulary - Verb conjugation charts for quick reference of all tenses - Practice charts to gauge writing ability -Reduce time studying while improving linguistic ability effectively- The Handbook of Japanese Verbs is organized by kanji (traditional Chinese characters) stroke count with priority placed on frequency of exposure. This structure allows learners to understand, read and speak Japanese by applying a systematic approach to reach advanced levels effortlessly. Example sentences provide descriptive scenarios filled with colorful adverbs and adjectives. Synonyms listed next to target verbs help create links between concepts and increase the learner's rhetorical ability at a glance. Furthermore, review sections are included to improve memory retention. With this handbook as a guide, learners will find themselves able to apply their knowledge to an ever-growing number of situations. Download our sample PDF and start learning today! This volume presents a comprehensive survey of the lexicon and word formation processes in contemporary Japanese, with particular emphasis on their typologically characteristic features and their interactions with syntax and semantics. Through contacts with a variety of languages over more than two thousand years of history, Japanese has developed a complex vocabulary system that is composed of four lexical strata: (i) native Japanese, (ii) mimetic, (iii) Sino-Japanese, and (iv) foreign (especially English). This hybrid composition of the lexicon, coupled with the agglutinative character of the language by which morphology is closely associated with syntax, gives rise to theoretically intriguing interactions with word formation processes that are not easily found with inflectional, isolate, or polysynthetic types of languages.

Starting at the very basics and working its way up to important language constructions, "An introduction to Japanese" offers beginning students, as well as those doing self-study, a comprehensive grammar for the Japanese language. Oriented towards the serious learner, there are no shortcuts in this book: no romanised Japanese for ease of reading beyond the introduction, no pretending that Japanese grammar maps perfectly to English grammar, and no simplified terminology. In return, this book explains Japanese the way one may find it taught at universities, covering everything from basic to intermediary Japanese, and even touching on some of the more advanced constructions.

Japanese Short Stories for Beginners

The Handbook of Japanese Verbs (Pilot Edition)

Japanese Verbs at a Glance

The Handbook of Japanese Adjectives and Adverbs An Introduction to Japanese - Syntax, Grammar & Language

600 Basic Japanese Verbs is a handy, easy-to-use guide to one of the building blocks of Japanese grammar—verbs. This book will be an essential resource for students wishing to learn Japanese as it shows how to conjugate the 600 most common Japanese verbs quickly, and with very little effort. This is the only guide to list all verb forms in both Japanese script and romanized form, while giving an accurate English translation for each conjugated form, making this book far more comprehensive than any other book on the subject. Compiled by Japanese language experts at The Hiro Japanese Center, more than 30 different verbal forms are given for each verb including all forms used in contemporary spoken, written, formal and conversational Japanese—making this the ideal reference when reading any sort of Japanese printed materials including manga, newspapers, magazines and books. 600 Basic Japanese Verbs places an expert resource at your fingertips, giving you the information you need to speak, read, and write Japanese sentences correctly. Key features of this book are: Includes all the most useful verbs and Kanji (logographic Chinese characters) in Japanese, including less common ones. A wealth of example sentences are given to demonstrate correct verb usage. Over 30 forms are given for each verb including polite or formal, plain, negative, potential, conditional, passive, causative, and many more. Both Kana, Japanese script, and romanized forms are given for each entry. An ideal study guide for the standard Advanced Placement college test and the Japanese Language Proficiency Exam. Special sections are devoted to compound verbs and suru verbs such as Kaimono suru (to shop), benkyo suru (to study), and much more.

At last. A book of useful Japanese, offering the language you need to handle a wide variety of situations. Through hundreds of example sentences and dialogues, you'll learn what to say and do when: Setting up a business appointment Opening a bank account Making a wedding speech Reserving a place to stay Renewing a visa and much more Included is an additional chapter on writing cards and letters, featuring examples of New Year cards, thank-you notes, and normal letters. No other book covers colloquial Japanese as thoroughly as Japanese for All Occasions. Whether you're a student, traveler, or businessperson, you'll find that this book offers any easy and enjoyable way to improve your Japanese.

Students of Japanese are familiar with the term "particle," and realize that they, like English prepositions, require a special effort to master. This handbook provides all the information one would need on these tricky units of grammar. All About Particles covers more than 70 particles those that are used regularly as well as those used less frequently in more than 200 uses. The book can be approached as a guiding textbook and studied from beginning to end. It is as a reference book, however, that All About Particles shines. It is light and easy to carry, slim enough to fit into the corner of a shoulder bag, and concise enough to quickly clarify particle-related questions. It is a priceless tool for any serious student of Japanese. In its previous incarnation as a part of the Power Japanese Series, ISBN 978-0-87011-954-5, and sold more than 40,000 copies worldwide.

For any beginner of Japanese, adjectives and adverbs are bound to present a challenge. Unlike English adjectives, Japanese ones conjugate, meaning that you must memorize their various forms before being able to build sentences of any complexity. Adverbs do not conjugate, but make use of particles to show their grammatical relationship to other words, and some have very subtle shades of meaning that are difficult to grasp. Moreover, many do not translate into adverbs in English. The role these parts of speech play in adding flavor to the Japanese language is invaluable. This handy reference manual introduces the basic (and basics of) adjectives and adverbs in a clear and sensible way, enabling students not only to speak Japanese but to do it with pizzazz. The book is divided roughly in half, the first half dealing with adjectives, the second with adverbs. Each is prefaced by a short introduction that serves as an overview of the material introduced. The section on adjectives is divided into two parts: Part 1 covers the conjugations of i- and na-adjectives and some basic auxiliary adjectives, and Part 2 presents common sentence patterns in which adjectives appear. The adverb section is arranged by topic. Among the types of adverbs explained here are those used to express time, quantity, degree, circumstance, and natural sounds or actions (the ubiquitous onomatopoeic adverbs). Each entry in this book is given a simple, concise English explanation and two or more example sentences to illustrate its usage. Exercises every few pages enable students to measure their understanding. Finally, a number of quick-reference lists in the appendixes provide a convenient means of recalling and building vocabulary. Together with its sister publication, The Handbook of Japanese Verbs, this unique manual is certain to provide years of friendly guidance.

The Right Word at the Right Time: Japanese Phrasebook & Language Learning Guide

Grammatical terms - Characteristics of Japanese grammar - Basic conjugations - Verbs - Connection forms of important expressions - Numerals and counters - Compound words.

In one compact volume, Japanese Verbs & Essentials of Grammar, Second Edition, offers an integrated beginner's guide to all major verbal and grammatical concepts of the Japanese language. This latest edition of the popular and accessible guide has been updated to include: Expanded vocabulary lists featuring common idiomatic phrases New examples of sentences and sentence structure An in-depth introduction to Japanese scripts Each of the 46 units includes clear explanations and examples to help you master the Japanese language. Roomaji, or transliteration, is featured throughout.

The volume on Semantics and Pragmatics presents a collection of studies on linguistic meaning in Japanese, either as conventionally encoded in linguistic form (the field of semantics) or as generated by the interaction of form with context (the field of pragmatics), representing a range of ideas and approaches that are currently most influential in these fields. The studies are organized around a model that has long currency in traditional Japanese grammar, whereby the linguistic clause consists of a multiply nested structure centered in a propositional core of objective meaning around which forms are deployed that express progressively more subjective meaning as one moves away from the core toward the periphery of the clause. The volume seeks to achieve a balance in highlighting both insights that semantic and pragmatic theory has to offer to the study of Japanese as a particular language and, conversely, contributions that Japanese has to make to semantic and pragmatic theory in areas of meaning that are either uniquely encoded, or encoded to a higher degree of specificity, in Japanese by comparison to other languages, such as conditional forms, forms expressing varying types of speaker modality, and social deixis.

Updated to reflect questions found on the most recent ESL tests, this book presents 400 common phrasal verbs as they are used in everyday English. Phrasal verbs are verbs combined with prepositions or adverbs. Familiarity with phrasal verbs and understanding their use as nouns (breakup, showoff, etc.) or adjectives (spaced-out, broken-down, stressed-out, and many others) is essential to ESL students. Updated information includes: the most commonly used phrasal verbs; activities and examples that reflect our current technology and the world around us; an expanded introduction for the teacher with a thorough breakdown and explanation of phrasal verbs; and, a discussion of separable and inseparable phrasal verbs in Unit I, and more. This book’s hundreds of examples in context and hundreds of exercises will be extremely useful to ESL students who are preparing for TOEFL or who simply wish to improve their English.

An indispensable tool for acquiring basic communication skills in a limited amount of time. With Japanese Sentence Patterns for Effective Communication, even absolute beginners can learn to communicate in Japanese in a matter of days. Designed specifically for native-English speakers approaching Japanese as a second language, this book presents 142 essential Japanese sentence patterns, first by giving equivalents in English, then following with Japanese translations. Each pattern is accompanied by a concise, easy-to-follow explanation and several Japanese example sentences that demonstrate its usage. In addition, practice sections for each pattern allow the student to test his or her understanding of the material presented. Japanese Sentence Patterns for Effective Communication is organized into twelve chapters according to communicative function, including such tasks as making simple, declarative statements about people and things in the world; making comparisons; talking about events in the past, present and future; expressing desire, conjecture and intention; stating causes or reasons; making requests; asking and giving permission; and using the passive and causative-passive voices. Extensive charts at the back of the book outline the rules for inflecting and conjugating adjectives and verbs – essential to fluent communication.

Do you know what the hardest thing for a Japanese learner is? Finding PROPER reading material that they can handle...which is precisely the reason we’ve written this book! You may have found the best teacher in town or the most incredible learning app around, but if you don’t put all of that knowledge to practice, you’ll soon forget everything you’ve obtained. This is why being engaged with interesting reading material can be so essential for somebody wishing to learn a new language. Therefore, in this book we have compiled 20 easy-to-read, compelling and fun stories that will allow you to expand your vocabulary and give you the tools to improve your grasp of the wonderful Japanese language. How Japanese Short Stories for Beginners works: - Each chapter possesses a funny, interesting and/or thought-provoking story based on real-life situations, allowing you to learn a bit more about the Japanese culture. - Having trouble understanding Japanese characters? No problem - we provide you with the English translation below each paragraph, allowing you to fully grasp what you’re reading! - The summaries follow a synopsis in Japanese and in English of what you just read, both to review the lesson and for you to see if you understood what the tale was about. Use them if you’re having trouble. - At the end of those summaries, you will be provided with a list of the most relevant vocabulary from that chapter, as well as slang and sayings that you may not have understood at first glance! Do not get lost trying to understand or pronounce it all, either, as all of the vocabulary words are Romanized for your ease of learning! - Finally, you’ll be provided with a set of tricky questions in Japanese, allowing you the chance to prove that you learned something in the story. Whether it’s true or false, or if you’re doing the single answer questions, don’t worry if you don’t know the answer to any - we will provide them immediately after, but no cheating! We want you to feel comfortable while learning Japanese; after all, no language should be a barrier for you to travel around the world and expand your social circles! So look no further! Pick up your copy of Japanese Short Stories for Beginners and level up your Japanese language skills right now!

This grammar has been written to help the student to think in the Japanese way. Part One contains several introductory notes on Nomenclature, Syntax, Verbs, Aru, Iru, Oru, on Adjectives and on Foreign Words. Part Two concentrates on connectives – the particles and suffixes which modify the sense of other words or show the relationship of these words to each other. These connectives, the heart of Japanese grammar, present unusual difficulty to foreign students. Arranged alphabetically in dictionary form, each word is followed by a textual explanation of how it is used and of its various meanings, with cautions as to its translation. The forms covered include not only those of the “standard” colloquial literary or bungo styles, but also the more common colloquialisms and provincial forms, whether or not these are strictly grammatical. No other text available makes as through or as complete a classification.

Japanese Sentence Patterns for Effective Communication

The Handbook of Japanese Verbs (Starter Edition)

All About Particles

A Handbook of Japanese Function Words

From the very earliest stages of study until far into the intermediate level, students of the Japanese language are continually scratching their heads over the usage of verbs. It is no wonder that they should feel the need for a solid reference book, one they can continually turn to throughout their studying careers. The Handbook of Japanese Verbs is just that book. The Introduction takes the first step toward comprehension by pointing out the features of Japanese verbs that stand in contrast to their English counterparts, such as tense, politeness level, auxiliaries, and transitive and intransitive forms. Part 1 shows through tables and concise commentary how Japanese verbs are categorized, conjugated, and combined with auxiliaries. Each form is followed by a short exercise, reinforcing the points just made. Part 2 takes up the forms described in the first part and shows how they function in full-fledged sentences. Each discussion is followed by examples and exercises, ensuring that the student has understood the forms under discussion. In the appendices, the student is offered a number of look-up methods, including an English-Japanese verb dictionary. This completes the apparatus necessary for a solid handbook on Japanese verbs, a book students can rely on for many years to come

A guide designed to master the most essential verbs of the Japanese language. In Japanese, register--the way you change your words depending on who you are speaking to--plays a key role. The rules of register in Japanese are far more complicated than they are in English, but until now there hasn't been a book that lays it all out in an accessible format. Japanese for All Occasions is a much-needed introduction to this bewildering aspect of the language, aimed at intermediate students and above. Through 57 dialogues, veteran teacher Taeko Kamiya shows learners how the Japanese change their way of speaking according to the social setting or their relationship with the listener, with examples ranging from casual to superpolite. Chapters are organized by function ("Introducing People," "Identifying Things," etc.) so that learners can absorb the most common sentence patterns used in daily life at the same time that they study casual, polite, and honorific styles. Each chapter presents three similar dialogues that show contrasting styles of speech. Detailed notes explain the grammar or usage at work in the dialogues, and quizzes at the end of each chapter allow learners to test their understanding. Best of all, the book comes with a free CD containing all the dialogues, narrated by professional Japanese actors.

For English-speaking students of Japanese, particles are perhaps the most difficult aspect of the language to learn. It would be no exaggeration to say that, for most people, they can never be completely mastered. Thus, the study of particles is a lifetime undertaking, and students need a lifelong companion to help them along the way. That companion is A Dictionary of Japanese Particles. Covering over 100 particles in alphabetical order, the dictionary explains the meanings of each (most have more than one) and gives sample sentences for each meaning. Illustrations are provided where necessary for clarification. There are also exercises at the back of the book for those who wish to test their knowledge of particle usage. Appendices and end paper charts are provided for easy access. A Dictionary of Japanese Particles is an essential reference work, meant to be used over the years as students continue to confront puzzling particles.
