In high school, everyone's talking about college. What to do. Where to go. Why it's important. Classes are given on it. Books are written about it. But details get left out. Every year, college graduates learn this the hard way as they step into adulthood. I was one of them. After earning a four-year degree, I went through two of the worst years of my life. Not that my situation is unique. I am a part of a generation that was told to go to college first and sort out the details later. Most of us did. We chased the promise of a big shiny future, and we ended up being chased by the mistakes of our past. That's not to say we completely regretted going. This book isn't a list of privileged millennial complaints. It's a collection of wisdom gained in less than pleasant ways. It's a story of hardship, failure, victory, and perseverance. It's all of the things we wish someone had told us. And it takes place before college, in college, after college, and without college. This is the wild, painful, awkward, hilarious, depressing, & beautiful journey from youth to maturity. This is the college book that no one ever gave us.

The Writer Behind the Words (Revised and Updated)

Fall and Rise

I Am Safe. I Am Good. I Am Loved.

Everything Nobody Told Us about Life After High School

Multiplying the 23

Stop Sabotaging Your Life

A devoted employee of the FIA (Federal Intelligence Agency), Eurian lives a comfortable and secure life, spanned with bureaucratic conflicts and desires for promotion. He will find himself thrust into an international conflict to track down and stop a subversive cyberterrorist movement. His desire for a foreign assignment will finally be met, but not in the way he expected. Assigned to Kerploueck, a sleepy village at the far edge of the world, he will be forced to let go of the comfort and stability of his previous lifestyle. With this temporary assignment, the complacent bureaucrat finds himself a spy-but with none of the excitement and adventure he had dreamed of. He now must find new objectives to survive this wholly uninteresting assignment. What happens to the FIA and to the success of the worldwide search for the subversive cyber-terrorists will slowly drift away from Eurian's mind. Interestingly enough, when this book was started, internet spying, hacking, and cyberterrorism were rhetorical discussions. Today, we live in a different reality. Truth and facts are not as important as swaying unmindful, gullible populations. George Orwell's "alternative facts" are common place and universally acceptable. With the ocean of information now accessible to anyone, individuals, organizations, and even governments are scrambling to control its sources and promulgate their agendas. This is the essence of "The Happy Fools." Following Eurian and his unanticipated quest for truth, many topics of modern society will be discussed. This book also serves as a compendium of the latest technologies, sciences, ideas and movements. Focusing primarily on the most pertinent latest developments, each providing hope and insights that could change our lives. The underlying prerequisite of being happy is to avoid stress and the unknown. Therein lies a potential philosophical issue. Shutting the doors to outside turmoil, to world problems and issues, is a good safeguard for happiness. Close-mindedness brings confidence, as the world's problems appear simple and the solutions two-sided. Inversely, knowledge creates a spirit of inquiry, a burning desire for more knowledge, spurring new questions that beg for answers, ultimately resulting in a loss of conviction and an understanding that we will never truly understand the world in its endless complexities. Do we choose closed-minded confidence, or a life dedicated to the pursuit of knowledge with the uncertainties, frustrations, and complexities that it yields?

Choose Happiness! is a treatise on Practical Perspectivism, a way of seeing the world, and a practice of living in it, elaborated by Jeffrey Zahn, MD, a recognized happy person, practicing anesthesiologist, family guy, and all around connoisseur of the simpler things in life. Easy to understand and put into effect, Choose Happiness! describes the Ten Precepts of Practical Perspectivism and explains how to put them to use in your everyday life as a means to eke more happiness out of each day.

Fernando Soto dreamed of owning a business. For years he worked and struggled, never imagining that he could have a better life and then one day he woke up and believed that he could. In What's Next for You?, Mr. Soto shares the secrets to the fulfillment of his dream. But guess what? It's not so secret at all. Living your dream is possible through hard work, dedication and an unrelenting will to succeed. Today, Mr. Soto owns a contract janitorial services company that services a broad range of clients in a variety of industries, from small office clients to automobile dealerships, manufacturing facilities, office buildings, medical practices and universities. One of his largest clients has annual revenues exceeding \$550 million with over ten thousand employees! He built his business from the ground up, taking notes and sketching his ideas on the manufacturing floor where he worked for years as an employee. The company where he last worked is now one of his valued clients. "Anything is possible," Mr. Soto says. Just keep your dream front and center and with Mr. Soto's help, you could be living your dream life, too.

Like anything else in life, it things become a lot easier once we understand them. Doing math, for example, is only difficult as long as we don't understand it. Happiness works on the same principle. Rather than teaching us how happiness works, society presents us with stepping-stones on the road to happiness, such as: if you study this, you will get that job, and then you will be happy. If you own this, you will impress your friends, and then you will be happy. If you eat healthy and exercise regularly, you will lose those pounds, and then you will be happy. Lucky Go Teenagers is not a stepping-stone and yet demonstrate how we lose out on more than 70 percent of potential happy time by living for weekends; ? explain how contentment can yield the same amount of happiness as ecstasy; ? provide concrete proof that money can never make us happy; ? highlight why it is absolutely essential to be unhappy at times; ? illustrate how a midlife crisis happens; ? offer the simple formula to calculate the amount of happiness, or unhappiness, you experience; ? show that happiness is not around the next corner; it is here and now; and ? help you understand how happiness works. Written for teenagers and adults, this easy-to-read book will equip you with the knowledge to make you happier and happy more often. Rather than waiting for it, you can make happiness happen for yourself and for those around you. ?Money makes the world go round; however, happiness greases the axle. Without this lubricant, life will seize.?

If you're like most people, you can't afford to charter a yacht on the Bahamas on a moment's notice, nor can you take a week off work to attend a soul-cleansing spiritual retreat. So how is the busy, everyday, hard-working person supposed to find joy and passion in life? This is exactly the problem that Neil A. Panosian has spent most of his life trying to solve. A bartender and postal worker, the author felt uncomfortable with the rampant negativity in the world today and wanted to turn this discontent into something constructive—something the average person could use to increase their overall happiness, in just a few simple steps. So he started a blog dedicated to his pursuit of positivity, and quickly gained thousands of followers who were also looking for good ideas for improving their lives. Soon, he found that certain small actions were adding up to big rewards, and the rest is history. This fun-to-read book contains the best of the best—tips that can be used quickly and universally to increase joy, whether you're a busy professional, a blue-collar worker, or a single parent doing the best you can with little money or time.

facility that addresses the significant needs of children and their families who have suffered the trauma of abuse. Author Greg Ahlijian has been a volunteer at the Jasper Mountain facility since 2008, teaching and mentoring children from ages 8-14 about character development, nature, and poetry. Inspired by the children, he has written two books that contain life lessons: *The Large Rock* and the *Little Yew* teaches the virtues of courage, perseverance, self-respect, and hope; and *An Elephant Would Be Wonderful*, a book about self-discovery. He says, "To be able to provide a smile on a child's face, a bit of joy or inspiration, is what my book projects are all about!"

On a scale of 1 to 10, with 1 being not happy at all and 10 being very, very happy, how happy would you say you are right now, BEFORE reading this book? Now remember that number. Inside "Happy As a Rat In a Trash Can" Don challenges the reader to raise that number just as a student would be challenged to raise up school grades. Don says this book is about YOU! It is about you becoming a little more faithful a little more grateful a little more understanding a little more forgiving a little more thoughtful a little more caring and a lot more loving why? Because these are the things that beget happiness. In early 2009 Don's Mom went to be with the Lord. She was a person just like your Mom. . . very loving and invariably, always in your corner. Her Christian values were instilled in him and are presented to the readers throughout this book. Don presents his points with a sense of humor (as reflected in the title) but never does he joke about the seriousness of becoming a happier person. He'll explain why faith is necessary and how the Law of sowing and reaping is creating the world YOU live in. He'll give you a simple question to ask yourself whenever confronted with the tough choices that life brings to all of us. This book's objective is to raise your level of happiness even if you are already a happy person. Don't be surprised if those around you start to wonder what got into you! This book can be your little secret happiness project. You'll learn how and why we all need to pay more attention to others and why that will result in a better future for yourself. How to Become a Straight-A Student

The unfathomable rate of Black males in education should result in a national call to action. Across the country Black males represent only 2% of the teaching workforce. By the year 2024, minority students will be the majority, yet our current education workforce does not reflect this growing trend in what has been called "The Browning of America." Why is it acceptable that a student can matriculate from Kindergarten through twelfth grade and not have one Black male as his or her teacher? Why has it been a challenge to recruit and in many instances retain Black males in the classroom? Unopened Books explains what is referenced in the book as the Five Black Male Deterrents in Education. Through the personal narrative of Jermaine D. Gassaway, a native Washingtonian, educator, and school leader, coupled with practical solutions, Unopened Books provides insight to multiply the 2%. It is intended to not only be a provocative conversation starter but an actionable approach to increase the number of Black men in the classroom.

The Happy Student is written by a student for students.
