

treatments as well as for hepatitis, osteoporosis, liver detoxification, and the prevention of UV damage and melanoma • Presents simple recipes and protocols for strengthening the immune system; for treatment of common ailments, such as colds, flu, herpes, and candida; and for pain management Exploring science's new biological understanding of essential oils and their advantages over synthetic drugs, renowned aromatherapist Kurt Schnaubelt reveals how the effectiveness of essential oil treatments stems from our common biochemical and cellular heritage with plants. He explains how essential oils preserve a plant's complex natural life-supporting and immune-building qualities, developed through millions of years of interaction with animals and humans. Reviewing recent research in molecular, cellular, and evolutionary biology, he shows how the multilayered activity of plant essences helps maintain the integrity of our genetic code--the reason why pathogens cannot develop resistance toward essential oils as they do with antibiotics and antivirals--making essential oils a more effective and sustainable form of treatment for a variety of health problems. Laying to rest old arguments over essential oils' alleged toxicity and whether they can be ingested or used undiluted, Schnaubelt presents simple recipes and protocols for treating and preventing common ailments, such as colds, flu, herpes, and candida, as well as for pain management. Offering new essential oil treatment opportunities for hepatitis, osteoporosis, liver detoxification, and the prevention of UV damage and melanoma, he shows how essential oils can also ameliorate the debilitating side effects of chemotherapy and other cancer treatments as well as how even home use of essential oils for relaxation or skin care can help build one's immunity and overall well-being.

To make the journey into the Now we will need to leave our analytical mind and its false created self, the ego, behind. From the very first page of Eckhart Tolle's extraordinary book, we move rapidly into a significantly higher altitude where we breathe a lighter air. We become connected to the indestructible essence of our Being, "The eternal, ever present One Life beyond the myriad forms of life that are subject to birth and death." Although the journey is challenging, Eckhart Tolle uses simple language and an easy question and answer format to guide us. A word of mouth phenomenon since its first publication, The Power of Now is one of those rare books with the power to create an experience in readers, one that can radically change their lives for the better. "We are all touched at some point by the dark emotions of grief, fear, or despair. In an age of global threat, these emotions have become widespread and overwhelming. While conventional wisdom warns us of the harmful effects of "negative" emotions, this revolutionary book offers a more hopeful view: there is a redemptive power in our worst feelings. Seasoned psychotherapist Miriam Greenspan argues that it's the avoidance and denial of the dark emotions that results in the escalating psychological disorders of our time: depression, anxiety, addiction, psychic numbing, and irrational violence. And she shows us how to trust the wisdom of the dark emotions to guide, heal, and transform our lives and our world. Heal yourself from the inside out Our immune systems can no longer be taken for granted. Current trends in public healthcare are disturbing: our increased air travel allows newly mutated bacteria and viruses to spread across the globe, antibiotic-resistant strains of bacteria outstrip the new drugs that are meant to fight them, deaths due to hospital-acquired infections are increasing, and the childhood vaccinations of our aging population are losing their effectiveness. Now more than ever, our well-being is at a dangerous crossroad. But there is hope, and the solution lies within ourselves. The Healing Self is the new breakthrough book in self-care by bestselling author and leader in integrative medicine Deepak Chopra and Harvard neuroscientist Rudolph E Tanzi. They argue that the brain possesses its own lymphatic system, meaning it is also tied into the body's general immune system. Based on this brand new discovery, they offer new ways of increasing the body's immune system by stimulating the brain and our genes, and through this they help us fight off illness and disease. Combined with new facts about the gut microbiome and lifestyle changes, diet and stress reduction, there is no doubt that this ground-breaking work will have an important effect on your immune system.

Consolidates today's available information and guidance into a single, convenient resource. Premier Renewal Leaders Present Complete, Accessible Guide to Healing Ministry The Bible is full of accounts of miraculous healing. And God is moving as amazingly today as he was back then. Thousands are being healed all over the world--and his children are part of it. For the first time, premier renewal leaders Bill Johnson and Randy Clark team up to equip Christians to minister healing. Grounded from start to finish in Scripture, Johnson and Clark lay out the rich theological and historical foundation for healing in the church today. Full of inspiring stories, this book offers practical, proven, step-by-step guidance to ministering healing, including how to • understand the authority of the believer in healing • create an atmosphere of faith • receive words of knowledge • implement the five-step model of healing prayer The ministry of healing is not reserved for a select few. God's miraculous healing is part of the Good News--and every believer can become a conduit for his healing power.

Carefully researched and comprehensive, this reference gives extraordinary insights into the emotional world of animals and explores the healing powers of Australian Bush Flower Essences. Providing practical hints for keeping creatures fit and happy as well as dealing with health and behavior problems, this helpful guide offers naturopathic remedies that are both safe and time saving. Exploring a variety of case studies, particular Australian Bush Flower Essences are recommended to support sound management, balanced diet, and exercise by stabilizing the energy that is essential for the well-being of animals.
