The fascinating and quirky biography of a disheveled poet, skillfully interwoven with his original works. Zen monk Santoka Taneda (1882–1940) is one of Japan's most beloved modern poets, famous for his "free-

verse" haiku, the dominant style today. This book tells the fascinating story of his life, liberally sprinkled with more than 300 of his poems and extracts from his essays and journals—compiled by his best friend and biographer Oyama Sumita and elegantly translated by William Scott Wilson. Santoka was a literary prodigy, but a notoriously disorganized human being. By his own admission, he was incapable of doing anything other than wandering the countryside and writing verses. Although Santoka married and had a

son, he devoted his life to poetry, studying Zen, drinking sake and wandering the length and breadth of the Japanese islands on foot, as a mendicant monk. The poet's life alternated between long periods of solitary retreat and restless travel, influenced by his tragic childhood. When not on the road, he lived in simple grass huts supported by friends and family. Santoka was a lively conversationalist who was often found so drunk he could only make it home with the help of a friendly neighbor or passerby.

But above all, throughout his life, he wrote constantly; poetry and essays flowed from him effortlessly. Santoka's eccentric style of haiku is highly regarded in Japan today for being truly modern and free from formal constraints. His journals and essays are equally thought-provoking—the musings of an unkempt but supremely self-conscious mind on everything from writing to cooking rice and his failure to live a more orderly life. This translation and its introduction are by best-selling author William Scott Wilson, whose other

works include *The Book of Five Rings* and *The Lone Samurai*. Wilson provides sensitive renditions of the haiku illustrating Santoka's life as well as an extensive introduction to the influences on Santoka's work, from contemporary haiku poets and his Buddhist teachers. Alongside the book, readers have access to a two-hour online audio recording of 331 of Santoka Taneda's haiku, read in Japanese by a native speaker, and in English. As Zen takes root in the West, new forms arise. For centuries Zen masters have tested their students with “ koans ” and “ capping phrases. ” A koan is a spiritual paradox that must be solved intuitively. A capping phrase is a trenchant comment. Both are meditative practices that reveal deeper truths about the self and, ideally, lead to enlightenment. In Zen Traces, Buddhist scholar Kenneth Kraft plays off these practices in a new idiom. He selects passages

When a koan-like story about a contemporary Zen teacher is paired with a pithy comment by Mark Twain, something fresh emerges. “ In this lovely book, Ken Kraft provides a unique opening for American Buddhism and American wisdom in general. Each poem evokes the natural world - the cherry blossom, the leaping frog, the summer moon or the winter snow - suggesting the smallness of human life in comparison to the vastness and drama of nature. Basho himself enjoyed solitude and a life free from possessions, and his haiku are the work of an observant eye and a meditative mind, uncluttered by materialism and alive to the beauty of the world around him. The black sun, an ages-old image of the darkness in individual lives and in life itself, has not been treated hospitably in the modern world. Modern psychology has seen darkness primarily as a negative force, something to move through and beyond, but it actually has an intrinsic importance to the human psyche. In this book, Jungian analyst Stanton Marlan reexamines the paradoxical image of the black sun

and the meaning of darkness in Western culture. In the image of the black sun, Marlan finds the hint of a darkness that shines. He draws upon his clinical experiences—and on a wide range of literature and art, including Goethe's Faust, Dante's Inferno, the black art of Rothko and Reinhardt—to explore the influence of light and shadow on the fundamental structures of modern thought as well as the contemporary practice of analysis. He shows that the black sun accompanies not only the most negative of psychic experiences but also the most sublime, resonating with the mystical experience of negative theology, the Kabbalah, the Buddhist notions of the void, and the black light of the Sufi Mystics. An

important contribution to the understanding of alchemical psychology, this book draws on a postmodern sensibility to develop an original understanding of the black sun. It offers insight into modernity, the act of imagination, and the work of analysis in understanding depression, trauma, and transformation of the soul. Marlan's original reflections help us to explore the unknown darkness conventionally called the Self.
