

The Little Black Hen

Alyosha follows a magical black hen down into an underground kingdom of little people and receives a special gift from their king.

Writing this book of creative ideas and school-readiness lessons for preprimary and junior school learners is the result of years of contact with young children and their artistic, mental, and physical development. I am charmed by childrens natural ability to spontaneously create wonderful art when given the material and opportunity to do so. Their astounding physical and mental abilities and play activities led to my lifelong interest in and involvement with small children and their growth toward adulthood. Over the years, I put together a collection of themes and ideas for promoting childrens creative abilities and thinking, as well as their physical and emotional development. Some ideas worked; others did not. Some ideas work for certain children and not for others, and some work for everyone. Many of these ideas I shared with or learned from fellow preprimary schoolteachers; most are my own ideas. All the ideas were adapted to suit the learners needs and also to the available materials. The ideas in this book are exactly that: ideas only. There is no right or wrong way to do anything. Creativity is open-ended; it forms an integral part of the personality of the person creating an artwork, game, or anything new. Therefore, the ideas in this book must be adjusted and explored to suit the moment, such as it might be. Every idea has to be adapted to suit the availability of materials, the groups or individual childs learning needs, their teachers creative ability, their surroundings (life world), their level of development, and their physical and emotional needs. Each one of these ideas can be changed; they are guidelines, not prescriptions. Prescriptive teachingparticularly in art, language development, and free playdestroys creativity and creative thinking because it does not allow for individual creative exploration. Creative thinking, not only in art but also in all spheres of life, forms the highest level of cognitive development, namely, problem-solving thinking patterns. Allowing children to explore their creative ideas through the media of free but guided art, play, and language development helps them develop creative thinking patterns. This book is dedicated to all my friends and colleagues who shared their ideas with me and, in particular, to all the children whom Ive taught and who taught me to see life through their eyes with their clear and honest perceptions of the world. Their artistic play and verbal expression gave us a direct glimpse into their joys and sorrows, which opens the mind to a plethora of new concepts and a new understanding of the world we live in. Every one of the lessons is aimed at school readiness, but the creative activities and developmental-play activities are also suitable for use in junior primary school classes. My hope is that this book will bring joy and happiness to all who use it and, in particular, that it will help the little ones for whom it was written to explore their world successfully and prepare them for the challenge of growing up. Different ATB from AR MS: The book comprises a collection of creative ideas and activities, including developmental play, music, movement, rhymes, songs, and stories for grade 0/R (preschool learners). Every creative activity in this collection is aimed at helping learners to grow into well-adjusted, happy human beings and to prepare them for the challenges of formal schooling. All activities are theme related and serve to develop skills while the learner has fun. The activities prepare the learner to cope in the primary school phase as well as later in life. Every creative activity should be seen as an informal teaching tool. These should never cause stress for the learners but should help them understand themselves and their world better. The book is meant for use by nursery schoolteachers, parents of preschool children, and students.

It is rare indeed when a writer’s original stories are regarded as masterpieces on a par with the great folkloristic fairy tales which have been handed down through the ages. However, Howard Pyle’s absorbing tales have for generations enjoyed such overwhelming popularity with boys and girls that they have earned this unique distinction. This collection includes 24 of his most entertaining and imaginative works In The Wonder Clock you will find a fairy tale for each hour of the day ÷ 24 in all. A short verse introduces each fairy tale. In addition, you will also find the stories embellished by 122 full page pen and ink illustrations which will keep children and adults engaged for hours. Also known as Four-and-Twenty Marvellous Tales were written by Howard Pyle and illustrated by his sister Katharine Pyle, an author and illustrator in her own right, penned and added the 24 poems which can be found at the start of every hour of the day. We do suggest reading a tale-a-day at bedtime. Maybe you can stretch some of the longer tales over 2 days. This way you make the stories in this book last a whole month. Included are tales: I - Bearskin II. - The Water of Life III. - How One Turned his Trouble to Some Account IV. - How Three Went out into the Wide World V. - The Clever Student and the Master of Black Arts VI. - The Princess Golden-Hair and the Great Black Raven VII. - Cousin Greylegs, the Great Red Fox, and Grandfather Mole VIII. - One Good Turn Deserves Another IX. - The White Bird X. - How the Good Gifts were Used by Two XI. - How Boots Befooled the King XII. - The Step-mother XIII. - Master Jacob XIV. - Peterkin and the Little Grey Hare XV. - Mother Hildegarde XVI. - Which is Best XVII. - The Simpleton and his Little Black Hen XVIII. - The Swan Maiden XIX. - The Three Little Pigs and the Ogre XX. - The Staff and the Fiddle XXI. - How the Princess’s Pride was Broken XXII. - How Two Went into Partnership XXIII. - King Stork XXIV. - The Best that Life has to Give ===== KEYWORDS/TABS: Wonder clock, Howard Pyle, Katharine Pyle, 24, fairy tales, folk tales, fables, children’s stories, Bearskin, Water of Life, Turn Trouble, Account, Three, Wide World, Clever Student, Master, Black Arts, Princess, Golden-Hair, Great Black Raven, Cousin Greylegs, Great Red Fox, Grandfather Mole, One Good Turn, White Bird, Good Gifts, Boots, fooled, King, Queen, Prince, Step-mother, Master Jacob, Peterkin, Little Grey Hare, rabbit, Mother Hildegarde, Best, Simpleton, Little Black Hen, Swan Maiden, Little Pigs, Ogre, Staff, Fiddle, Pride, Broken, Partnership, King Stork,

Written by the siblings, Howard and Katharine Pyle, this book is a collection of short stories for children, oftentimes set in fantastical settings. It is uniquely divided into 12 chapters, each dedicated to every hour of the clock. Titles featured here include Bearskin, The Water of Life, and The Clever Student and The Master of Black Arts.

This book is the first comprehensive survey of mood in the languages of Europe. It gives readers access to a collection of data on mood. Each article presents the mood system of a specific European language in a way that readers not familiar with this language are able to understand and to interpret the data. The articles contain information on possible combinations of tense and mood morphology, and the possible uses of the non-indica-tive mood(s). The papers address the explanation of mood from an empirical and descriptive perspective. This book is of interest to scholars of mood and modality, language contact, and areal linguistics and typology.

The American illustrator and author Howard Pyle is best known for his celebrated children’s books. His magazine and book illustrations are regarded as among the finest of the turn-of-the-century period in the Art Nouveau style. Pyle achieved especial fame as an accomplished and original illustrator of historical legends and fairy stories, noted for the vivid richness and historical accuracy of his work – both as a writer and an artist. Many of Pyle’s children’s stories are now regarded as American classics, including 'The Merry Adventures of Robin Hood', 'Otto of the Silver Hand', 'Jack Ballister’s Fortunes' and his magical tales of Arthurian legend. For the first time in publishing history, this eBook presents Pyle’s complete published works, with hundreds of illustrations, rare texts, informative introductions and the usual Delphi bonus material. This collection of papers offers an alternative to mainstream functional linguistics on two points. Especially in American linguistics, function and structure are often viewed almost as polar opposites; in addition, structure is often understood as being only a matter of linguistic form – or expression – as opposed to content. The book tries to illustrate why function and structure must be understood as mutually dependent in relation to language – and why the most interesting aspect of language structure is the way it structures the content side of language. In this, the book represents a reaffirmation of traditional concerns in structural linguistics, especially with respect to the structural integrity of individual languages – but with a reversal of traditional priority: structure is not autonomous, but must be understood on the basis of function. Without being hostile to typological and universal generalizations, the articles suggest that similarities between languages can only be responsibly discussed on the basis of an understanding that includes a respect for language differences. The book contains discussions of a number of different languages including Nahuatl, Danish Sign Language, French, and Tlapanec, and focuses on the way meaning is organized in the grammar of Danish. A final section sums up theoretical perspectives.
