Dreams haunt her evenings and a strange light began appearing around people. Kat believed she was going crazy until she met someone with a special message for her. Between the ages of eleven and seventeen, a child experiencing sexual abuse kept a secret journal of poetry. Throughout the abuse, she kept her little orange book hidden whilst she filled it full of poems questioning what was happening to her, whether the abusers really loved her and whether she was normal. Named after the original journal, *The Little Orange Book* by Jessica Eaton and Claire Paterson-Young contains a unique analysis and exploration of the poems and their themes. Each poem is presented along with evidence from literature and practice in child sexual abuse. The book explores key questions and examples such as: How do children understand the difference between abuse and romance? What is the impact of abuse on children's self-image and self-trust? How do children use fairy tales, films and popular culture to understand abuse? What coping mechanisms do children use to cope with sexual abuse - and how are they perceived by society?

Village of Stone brilliantly evokes the harshness of life on the typhoon-battered coast of China, where fishermen are often lost to violent seas and children regularly swept away. It is the beautiful, haunting story of one little girl's struggle to endure silence, solitude and the shame of sexual abuse, but it is also an incisive portrait of China's new urban youth, who have hidden behind their modern lifestyle all the poverty and cruelty of their past.

Father Groeschel, the highly respected author, psychologist, spiritual director and leader of renewal in the religious life, has written a brief but comprehensive practical guide for all those interested in private revelations, the reports of visions and other extraordinary religious phenomena that are so widespread in these times. Because of the intense interest in extraordinary religious experience that ranges from Medjugorje to the New Age, Groeschel's book is an urgently needed resource that gives practical norms to everyone on how to evaluate these claims. Drawing on spiritual classics and Church documents not readily available, he summarizes the Church's perennial wisdom on this topic. He also offers an alternative to unusual and extraordinary ways of knowing the things of God, which is a normal everyday opportunity open to all called "religious experience"--the action of grace operating in the context of a human life that can become a powerful source of virtue and holiness. Father Groeschel skillfully directs the reader to the humbler and safer path which discerns God's presence in prayer, Scripture, the sacraments and love of neighbor. The great example of this path to holiness is St. Thérèse of Lisieux who, though having very few extraordinary experiences, was filled with a profound awareness of God's presence and said, "To ecstasy, I prefer the monotony of sacrifice."

Fans of We Rise, We Resist, We Raise Our Voices will love meeting fourteen young activists who have stepped up to make change in their community and the United States. Mari Copeny demanded clean water in Flint. Jazz Jennings insisted, as a transgirl, on playing soccer with the girls' team. From Viridiana Sanchez Santos's quinceañera demonstration against anti-immigrant policy to Zach Wahls's moving declaration that his two moms and he were a family like any other, No Voice Too Small celebrates the young people who know how to be the change they seek. Fourteen poems honor these young activists. Featuring poems by Lesléa Newman, Traci Sorell, and Nikki Grimes. Additional text goes into detail about each youth activist's life and how readers can get involved.

I'm holding my head up high. I know my dreams will touch the sky... These words were written by teenage singer-songwriter Wé McDonald. As a timid young girl with a soft, squeaky speaking voice, Wé was often bullied and had few friends. She just didn't fit in. Written in Wé McDonald's own words, The Little Girl with the Big Voice is a captivating story about a young girl who courageously embraces her uniqueness and discovers her true voice, no matter what others think or say. Wé's story inspires kids to work to fulfill their dreams and to expand their own understanding of themselves and the world around them.

Lillian stared at the closed door through which both her father and Mrs. Bolstreath had passed, and then looked at Dan, sitting somewhat disconsolately at the disordered dinner-table. She was a delicately pretty girl of a fair fragile type, not yet twenty years of age, and resembled a shepherdess of Dresden china in her dainty perfection. With her pale golden hair, and rose-leaf complexion; arrayed in a simple white silk frock with snowy pearls round her slender neck, she looked like a wreath of faint mist. At least Dan fancifully thought so, as he stole a glance at her frail beauty, or perhaps she was more like a silver-point drawing, exquisitely fine. But whatever image love might find to express her loveliness, Dan knew in his hot passion that she was the one girl in the world for him. Lillian Halliday was a much better name for her than Lillian Moon. Dan himself was tall and slim, dark and virile, with a clear-cut, clean-shaven face suggestive of strength and activity. His bronzed complexion suggested an open-air life, while the eagle look in his dark eyes was that new vast-distance expression rapidly being acquired by those who devote themselves to aviation. No one could deny Dan's good looks or clean life or daring nature, and he was all that a girl could desire in the way of a fairy prince. But fathers do not approve of fairy princes unless they come laden with jewels and gold. To bring such to Lillian was rather like taking coals to Newcastle since her father was so wealthy; but much desires more, and Sir Charles wanted a rich son-in-law. Dan could not supply this particular adjective, and therefore--as he would have put it in the newest slang of the newest profession--was out of the fly. Not that he intended to be, in spite of Sir Charles, since love can laugh at stern fathers as easily as at bolts and bars. And all this time Lillian stared at the door, and then at Dan, and then at her plate, putting two and two together. But in spite of her feminine intuition, she could not make four, and turned to her lover--for that Dan was, and a declared lover too--for an explanation.

Inspired by the life of his late son, Ali, Mo Gawdat has set out to share a model for happiness based on generosity and peacefulness towards ourselves and others. Using his experience as a former Google executive, this book reveals part of his 'code' for reprogramming our brain and moving away from the misconceptions modern life gives us.

In A Still, Small Voice, famed psychic Echo Bodine turns to a subject she knows deeply and is passionate about: intuition. Using humorous anecdotes and a positive, readable style, this sequel to Echoes of the Soul explores what intuition is, where it's located, what it sounds like, and how to cultivate it. The author, who comes from a family of psychics, exposes the various internalized voices that can mask one's intuition. These include the voices of parents, grandparents, peers, therapists, significant others, religious figures, and society, along with emotions such as anger, fear, guilt, and despair. The book challenges the cliché that psychic abilities and intuition are the same, or that they are evil. One chapter is devoted to the many practical benefits that come from listening to intuition; another looks at the "faith-building times" in life and how to cope with others' negative reactions to setting off on the spiritual path.

Memorates—personal experience narratives of encounters with the supernatural—that recount individuals' personal revelations, primarily through the Holy Ghost, are a pervasive aspect of the communal religious experience of Mormons, members of the Church of Jesus Christ of Latter-day Saints. In accordance with current emphases in folklore studies on narrative and belief, Tom Mould uses ethnographic research and an emic approach that honors the belief systems under study to analyze how people within Mormon communities frame and interpret their experiences with the divine through the narratives they share. In doing so, he provides a significant new ethnographic interpretation of Mormon culture and belief and also applies his findings directly to broader scholarly folklore discourse on performance, genre, personal experience narrative, belief, and oral versus written traditions.
