From acclaimed author Steve Robinson comes a bold new Jefferson Tayte mystery. On a foggy night in 1914, the ocean liner Empress of Ireland sank en route to England and now lies at the bottom of Canada's St Lawrence River. The disaster saw a loss of life comparable to the Titanic and the Lusitania, and yet her tragedy has been forgotten. When genealogist Jefferson Tayte is shown a locket belonging to one of the Empress's victims, a British admiral's daughter named Alice Stilwell, he must travel to England to understand the course of events that led to her death. Tayte is expert in tracking killers across centuries. In *The Lost Empress*, his unique talents draw him to one of the greatest tragedies in maritime history as he unravels the truth behind Alice's death amidst a backdrop of pre-WWI espionage. ## **The Grave**

*Abandoned in a department store as a baby, thirteen-year-old Tom Mullen has been shuffled from one rotten foster home to another his entire life. When he hears rumors that a mass grave has been unearthed on his school grounds, he finds himself inexplicably drawn to it. The grave pulls Tom down into its terrible darkness and beyond, where he discovers that he is no longer in Liverpool in 1974 but in Ireland in 1847, at the height of the potato famine. A family named Monaghan takes him in, and for the first time Tom experiences what it is like to have*

*A young pupil writing to a teacher, a courting couple that might get married, a 10-year-old servant working for a laundress in 19th-century Bath, a maid who worked for Edward VII's doctor - Posted in the Past reveals the stories behind postcards sent more than a hundred years ago.*

*A highly illustrated exploration of approximately seventy elaborately decorated charnels, tombs, and chapels around the world where large numbers of human bones have been assembled and displayed. Forensic genealogist, Morton Farrier, agrees to take on a case to identify the biological mother of three foundlings, abandoned in shop doorways as new-born babies in the 1970s. He has just one thing with which to begin his investigation: the three women's DNA, one of whom is his half-aunt. With just six days of research time available to him, his investigation uncovers some*
