A New York Times Notable Book, Critic's Top Pick, and Top Ten Book of Historical Fiction Named a Best Book of the Year by The Washington Post, NPR, Vogue, The Wall Street Journal, and Bloomberg Businessweek From one of today's most brilliant and beloved novelists, a dazzling, epic family saga set across a half-century spanning World War I, the rise of Hitler, World War II, and the Cold War that is "a feat of literary sorcery in its own right" (Oprah Daily). *The Magician* opens in a provincial German city at the turn of the twentieth century, where the boy, Thomas Mann, grows up with a conservative father, bound by propriety, and a Brazilian mother, alluring and unpredictable. Young Mann hides his artistic aspirations from his father and his homosexual desires from everyone. He is infatuated with one of the richest, most cultured Jewish families in Munich, and marries the daughter Katia. They have six children. On a holiday in Italy, he longs for a boy he sees on a beach and writes the story *Death in Venice*. He is the most successful novelist of his time, winner of the Nobel Prize in literature, a public man whose private life remains secret. He is expected to lead the condemnation of Hitler, whom he underestimates. His oldest daughter and son, leaders of Bohemianism and of the anti-Nazi movement, share lovers. He flees Germany for Switzerland, France and, ultimately, America, living first in Princeton and then in Los Angeles. In this "exquisitely sensitive" (The Wall Street Journal) novel, Tóibín has crafted "a complex but empathetic portrayal of a writer in a lifelong battle against his innermost desires, his family, and the tumultuous times they endure" (Time), and "you'll find yourself savoring every page" (Vogue).

The secret passage to the house next door leads to a fascinating adventure.

Moomin and the Magic Hat

This action-adventure picture book featuring a grandfather and grandson duo celebrates the power of imagination and the magic of make believe. Charlie loves when Grandpa comes to babysit because he always brings his magical imagination. Grandpa was a magician who knows the most amazing tricks; he can pull a rabbit from a hat and make a coin disappear. But what Charlie loves most are his wonderful adventure stories, and they all begin with something his grandfather has saved in his Magic Story Chest. An hourglass is a reminder of how he defended the treasure in King Tut's tomb from raiders. A long white scarf inspires the story about Grandpa's dogfight with the notorious Red Baron, the great First World War fighter pilot. A coconut shell heralds the story about his encounter with a nasty Tyrannosaurus Rex. Charlie's parents, though, aren't too sure they like Grandpa's stories and warn Charlie that they're just "tall tales." What is Charlie to believe? How can his grandpa convince him that all you need to do is believe and a dream can be turned into something real?

The Royal Society of Unnatural Philosophers maintains the magic within His Majesty's lands. But lately, the once proper institute has fallen into disgrace, naming an altogether unsuitable gentleman as their Sorcerer Royal and allowing England's stores of magic to bleed dry. At least they haven't stooped so low as to allow women to practice what is obviously a man's profession... At his wit's end, Zacharias Wythe, Sorcerer Royal of the Unnatural Philosophers, ventures to the border of Fairyland to discover

why England's magical stocks are drying up, an adventure that brings him in contact with Prunella Gentlewoman, a woman with immense power and an unfathomable gift, and sets him on a path which will alter the nature of sorcery in all of Britain—and the world at large...

"[A] well-paced, evocative, and adventurous historical novel..."—Publishers Weekly, STARRED Review "This is a book in which storylines twist, spiral and come together again in an ending as explosive as a poof of smoke from your chimney...or a top hat." —Oprah.com Water for Elephants meets *The Night Circus* in *The Magician's Lie*, a debut novel in which the country's most notorious female illusionist stands accused of her husband's murder - and she has only one night to convince a small-town policeman of her innocence. The Amazing Arden is the most famous female illusionist of her day, renowned for her notorious trick of sawing a man in half on stage. One night in Waterloo, Iowa, with young policeman Virgil Holt watching from the audience, she swaps her trademark saw for a fire ax. Is it a new version of the illusion, or an all-too-real murder? When Arden's husband is found lifeless beneath the stage later that night, the answer seems clear. But when Virgil happens upon the fleeing magician and takes her into custody, she has a very different story to tell. Even handcuffed and alone, Arden is far from powerless—and what she reveals is as unbelievable as it is spellbinding. Over the course of one eerie night, Virgil must decide whether to turn Arden in or set her free... and it will take all he has to see through the smoke and mirrors. "Smart, intricately plotted...a richly imagined thriller." —PEOPLE magazine "This debut novel is historical fiction that blends magic, mystery, and romance."—Boston Globe, Pick of the Week "It's a captivating yarn... An exploration of the world of magic that teaches the reader many tricks—including how better to understand the real world. Alex Stone—journalist and part-time conjurer—is here to amaze you. But first he had to amaze his fellow magicians. Fooling Houdini is his fascinating, revealing, and nailbiting account of his attempt to win the 23rd World Championships of Magic, the "Magic Olympics," the largest and most prestigious competition of its kind. Alex Stone managed to qualify for entry and began preparing to astonish people who astonish others for a living. It didn't help his nerves that he was placed on the bill straight after Canadian magician Shawn Farquhar, winner of more magic competitions than anyone in history. Stone's preparations and participation provide his readers with in-depth exploration of the world of magic, and magic's meaning. He spills many professional secrets, arguing that what is important is to ask questions about what lies behind the tricks: how the mind perceives the world and parses everyday experience, about how the mind works—and why sometimes it doesn't, about why people need to believe. As we become more attuned to the limits of our own perception, we become better at distinguishing reality from illusion, at reading the angles and decoding the fine print, he says. We gain intuition and understanding into how people behave. We even learn ways to influence this behavior. This makes us less susceptible to all manner of deception. It is to gain and maintain this sixth sense that Alex Stone—a schoolboy prestidigitator—has continued performing magic well into adulthood. In *Fooling Houdini* he takes us into that other world, populated by truly astounding characters, and leaves us with a heightened sense of awareness about the supposedly real world.
