

The Mauler

A role playing game of suspense, horror and hope in 2080 on the streets of Manhattan.

A number one bestseller in Sweden, Jens Lapidus's Top Dog is a thrilling, character-driven look at Stockholm's drug-and-sex-fueled underworld. A Vintage Crime/Black Lizard Original. Emelle is a young lawyer who's just started her own firm. Teddy is a reformed criminal looking for a fresh start. The first time they teamed up, in Stockholm Delete, they uncovered the secrets of a Swedish sex ring. Though their partnership proved rewarding—both professionally and personally—they haven't seen each other since. But when a vulnerable young client of Emelle's is murdered before she can testify against her abusers, Emelle turns to her ex-partner/lover for help. Meanwhile, Teddy's nephew Nikolas has resolved not to repeat his uncle's felonious mistakes. But the gang-related murder of his best friend sets him back on a trail of violent vengeance—and into the path of Rokšana, a naïve hipster whose discovery of a drug cache is giving her a dangerous crash course in Stockholm's dark side. And as Teddy and Emelle's investigation heats up, police corruption threatens to land him back in prison—or both of them in body bags.

In Maryrose Wood's stunning middle-grade novel, Alice's Farm, a brave young rabbit must work with her natural predators to save her farmland home and secretly help the farm's earnest but incompetent new owners. When a new family moves into Prune Street Farm, Alice and the other cottontails are cautious. The new owners are from the city; the family and their dog are not at all what the rabbits expect, and soon Alice is making new friends and doing things no rabbit has done before. When she overhears a plan by a developer to run the family off and bulldoze the farm, Alice comes up with a plan, helped by the farmer's son, and other animals, including a majestic bald eagle. Here is a stunning celebration of life, the bitter and the sweet. Alice is some rabbit—a character readers will love for generations to come.

A pictorial study of the USN aircraft between 1922 and 1962. Over forty years, between 1922 and 1962, the USN and USMC used a designation system which began with biplanes and ended with jets, having been used through two major wars, WW2 and the Korean War. This system remained largely the same during that time, though it evolved with the introduction of new types and technology, and new exceptions developed as well. The purpose of this series is to explain this system using photographs. This volume contains over 100 photographs. This volume covers the last A Class aircraft types started with volume One, the AJ Savage, the AJ2 Super Savage, the AJ3 Vigilante versions prior to 1962, the AM Mauler, the AU Corsair, the AZU Cutlass and the B Class in full (BD, BG, B2G, BT, B2T, BY B2Y)

Nearing the end of the Twenty-fourth century, deep space satellites identify a rip in space between Earth and Mars. A military venture class ship code named "Exploration" is sent through the rift, and arrives far beyond what science labeled the edge of the universe. Shortly after arrival the Exploration sends transmissions to Earth that holds the key to unlocking faster than light travel. The next few messages from the ship come in the form of blood soaked screams from the crew members begging for their lives. Almost three decades later, humanity is locked in a civil war, between two alien factions. Questions behind the human involvement in the war have long been silenced by the world government. That is, until a small group of soldiers happen upon the truth of how the war actually began. Now, with the entire population of Earth and the Solar System in danger, it is up to these unlikely heroes to search the stars for a new world to save the human race.

In China in the mid-seventeenth century, twelve-year-old Hok, disguised as a boy for most of her life, must now assume her proper identity as a girl and try to save her brothers' lives by entering the notorious Jinan City Fight Club.

As told to Leif Eriksson and Martin Svensson, Alexander Gustafsson grew up in Arboga, a small town in Sweden. A country boy, he started boxing when he was 10 - winning the national youth medal at the age of 16. After a handful of run-ins with the law he began practicing mixed martial arts and working his way up the ranks of the UFC. Nicknamed The Mauler by his training partners, due to his power, killer instinct and somewhat recklessness whilst fighting; this is the story of Gustafssons struggle to succeed in one of the world's most challenging sports. Family, friends, and the Christian faith all play decisive rolls. But above all, it's Alexander's unique talent for martial arts which, in just a few short years, sees him become one of the UFC's main poster boys. The Mauler is a frank and at times painful account of a young man rapidly heading off the rails, and of his fight to reach the top of his game in an effort to change his life forever.

"Never judge a nerd by his glasses..." While the human race likes to live in the illusion that they are the smartest species in the cosmos, at the other end of the galaxy exists a bustling mix of creatures, big and small, that do not care a hoot for what Earthlings think of themselves. Yet, the fate of the universe rests in the hands of six nerdy human pre-teens, who no one would know or expect to be superheroes. Journey into the amazing, action-packed, secret lives of nerds as they battle for peace in the macrocosm by fighting space-villains on most days and middle school bullies, pretty much every day.

The Descendants is styled after works from the Bronze Age of Comic Books, a time before superhero comics were dominated by grim and gritty deconstructions; when comic books were fun. It is presented in a unique manner: as an all-prose comic book complete with issues, specials and annuals. Each tells a complete story that ties into the overall tale of the titular superheroes. In the second exciting volume: After fending off the threat of Morganna and the forces of Project Tome, The Descendants turn their sights to the homefront. The teens need to be reunited with their parents and the older members have families of their own to reconnect with. Of course, they'll have to do this while dealing with an anti-descendant religious movement as well as all-new villains like the Interfacers, Aces High and Mad-Mad Madigan. And if that wasn't enough, an old enemy returns with some monstrous new friends! They are heroes. They are people. This is their story. Collects Issues #13-24, Descendants Special #2, and Descendants Annual #2 from the web serial The Descendants by Landon Porter. Content in this collection was previously published in the ebooks The Devil Came Down To Mayfield, and A MagicTech Crisis.

STRANGERS.... Theodore Kurita, samurai tyrant of the mighty Draconis Combine, is celebrating his sixty-first birthday. Topping the guest list is an unlikely bunch of high-tech troublemakers: Camacho's Caballeros, the toughest team of mercenary MechWarriors the Inner Sphere has ever seen. But their invitation is more than merely social. Theodore's powerful cousin, "Uncle Chandy," has recruited their ace operative, Cassie Suthorn, for a dangerous mission. IN A VERY STRANGE LAND. On an xenophobic planet where honor and duty are worshiped like deities, the freelancing Caballeros are considered barbarians. But Cassie's covert investigation uncovers an insurrection, and Camacho's foreign "barbarians" could be the only unit with enough guns and grit to save the Draconis Combine from its own extremists. And when the armor-piercing rockets and laser fire finally subside, counted among the slain may be Cassie and many of her courageous comrades—as well as the fragile peace of the entire Inner Sphere...

Fates Worse Than Death

A comedy set in the hero and villain circus of pro wrestling, the story follows aging performer Marvin Lesinsky- also known as John Wesley Wayne- as he makes one last desperate grab at the proverbial brass ring which promises financial security and the "little house in the country" that he so much wants to give his wife. Agreeing to do an ill advised charity tour, Marvin and two pals find chaos, comedy, and self-discovery on the road. Succeeding in spite of all, Marvin finds himself to be a mouse in a trap; he doesn't want the cheese anymore, he just wants out of the trap. Finally going off the rails, it is Marvin's essential goodness that saves the day.

This book is a satirical look at the surreal, bizarre, intense, humorous, and complex world of the industry of Professional Wrestling. The characters and events are loosely based and inspired on actual individuals and actual events.
