For babies, there’s a rich range of images of babies and all their functions to look at. From crying, to nursing, to peeing and pooing, to looking, to hearing, to deciding that this weird new world they’ve entered is worth staying in (because they finally recognize that in every grown-up they see a former baby), there are hours of fun and amusement, since babies love nothing better than looking at and talking about themselves. = For parents, this is a wonderful exploration of the new world this stranger-baby brings with them. Amusingly written, the text presents in a humorous, wry way all the facets of the new baby’s reality. A great gift for new parents both before and after baby is born.*

Winner of the Man Booker Prize: ÌOkri shares with García Márquez a vision of the world as one of infinite possibility. . . . A masterpiece! (The Boston Sunday Globe). Azaro is a spirit child, an abiku, existing, according to the African tradition, between life and death. Born into the human world, he must experience its joys and tragedies. His spirit companions come to him often, hounding him to leave his mortal world and join them in their idyllic one. Azaro foresees a trying life ahead, but he is born smiling. This is his story. When President Bill Clinton first went to Africa he quoted from The Famished Road, which has inspired literature, art, politics, and pop songs!and even been referenced in an episode of The Simpsons. A transformative story for all ages and all times, it means many things to many people. Few contemporary novels have aroused as much passion as this one. Indeed, twenty-five years after its breakout publication, the iconic story of Azaro’s travels continues to mesmerize new generations. For readers of Things Fall Apart or One Hundred Years of Solitude, this Man Booker Prize-winning blend of fabulism and gritty realism by the Nigerian author of Astonishing the Gods and Dangerous Love is a “dazzling, hypnotic” journey through Africa that “weaves the humblest detail with the most extravagant flight of fancy to create an astonishing fictional tapestry” (San Francisco Chronicle). Already considered a classic of world literature, it is “a masterpiece if ever one existed” (The Boston Sunday Globe).

A former five-term mayor of Boston explains the power behind Boston's success and provides lessons for Washington power brokers.

Can we solve big public problems anymore? Yes, we can. This provocative and inspiring book points the way. The huge challenges we face are daunting indeed: climate change, crumbling infrastructure, declining public education and social services. At the same time, we’ve come to accept the sad notion that government can't do new things mired in bureaucracy. Not so, says former public official, now Harvard Business School professor, Mitchell Weiss. The truth is, entrepreneurial spirit and savvy in government are growing, transforming the public sector’s response to big problems at all levels. The key, Weiss argues, is a shift from a mindset of Probability Government—overly practices—to Possibility Government. This means public leadership and management that’s willing to boldly imagine new possibilities and to experiment. Weiss shares the three basic tenets of this new way of governing: Government that can imagine: Seeing problems as opportunities and involving citizens in designing solutions Government that can scale: Harnessing platform techniques for innovation and growth The lessons unfold in the timely episodes Weiss has seen and studied: the US Special Operations Command prototyping of a hoverboard for chasing pirates; a heroin hackathon in opioid-ravaged Cincinnati; a series of hackathons in Boston among many others. At a crucial moment in the evolution of government’s role in our society, We the Possibility provides inspiration and a positive model, along with crucial guardrails, to help shape progress for generations to come.

*Veteran journalists Casey Sherman and Dave Wedge have written the definitive inside look at the Boston Marathon bombings with a unique, Boston-based account of the events that riveted the world. From the Tsarnaev brothers' years leading up to the act of terror to the bomb scene itself (which both authors witnessed first-hand within minutes of the blast), from the terrifying police shootout with the suspects to the ultimate capture of the younger brother, Boston Strong: A City's Triumph over Tragedy reports all the facts-and so much more. Based on months of intensive interviews, this is the first book to tell the entire story through the eyes of those who experienced it. From the cop first on the scene, to the detectives assigned to the manhunt, the authors provide a behind-the-scenes look at the investigation. More than a true-crime book, Boston Strong also tells the tragic but ultimately life-affirming story of the victims and their recoveries and gives voice to those who lost loved ones. With their extensive reporting, writing experience, and deep ties to the Boston area, Sherman and Wedge create the perfect match of story, place, and authors. If you're only going to read one book on this tragic but uplifting story, this is it.*

*In a powerful debut novel that moves between the crowded streets of London and the desolate mountains of Iran, Yasmin Crowther paints a stirring portrait of a family shaken by events from decades ago and worlds away. Maryam leaves her English husband and family and returns to the remote Iranian village where her story began. In a quest to piece their life back together, Sara follows her mother and finally learns the terrible price Maryam once had to pay for her freedom, and of the love she left behind. Set against the breathtaking beauty of two very different places, this stunning family drama transcends culture and is, at its core, a rich and haunting narrative about mothers and daughters.*

*Across the Commonwealth of Massachusetts, urban farmers and gardeners are reclaiming cultural traditions linked to food, farming, and health; challenging systemic racism and injustice in the food system; demanding greater community control of resources in marginalized neighborhoods; and moving towards their visions of more equitable urban futures. As part of this urgent work, urban farmers and gardeners encounter and reckon with both the cultural meanings and material legacies of the past. Drawing on their narratives, Back to the Roots demonstrates that urban agriculture is a critical domain for explorations of, and challenges to, the long standing inequalities that shape both the materiality of cities and the bodies of their inhabitants.*

Winner of the Bancroft Prize In twenty-first-century America, some cities are flourishing and others are struggling, but they all must contend with deteriorating infrastructure, economic inequality, and unaffordable housing. Cities have limited tools to address these problems, and many must rely on the private market to support the public good. It wasn’t always this way. For almost three decades after World War II, even as national policies promoted suburban sprawl, the federal government underwrote renewal efforts for cities that had suffered during the Great Depression and the war and were now bleeding residents into the suburbs. In Saving America’s Cities, the prizewinning historian Lizabeth Cohen follows the career of Edward J. Logue, whose shifting approach to the urban crisis tracked the changing balance between government-funded public programs and private

interests that would culminate in the neoliberal rush to privatize efforts to solve entrenched social problems. A Yale-trained lawyer, rival of Robert Moses, and sometime critic of Jane Jacobs, Logue saw renewing cities as an extension of the liberal New Deal. He worked to revive a declining New Haven, became the architect of the “New Boston” of the 1960s, and, later, led New York State’s Urban Development Corporation, which built entire new towns, including Roosevelt Island in New York City. Logue’s era of urban renewal has a complicated legacy: Neighborhoods were demolished and residents dislocated, but there were also genuine successes and progressive goals. Saving America’s Cities is a dramatic story of heartbreak and destruction but also of human idealism and resourcefulness, opening up possibilities for our own time.
