Nothing Can Frighten a Bear

The "masterfully chilling" novel that inspired the hit AMC series (Entertainment Weekly). The men on board the HMS Terror — part of the 1845 Franklin Expedition, the first steam-powered vessels ever to search for the legendary Northwest Passage — are entering a second summer in the Arctic Circle without a thaw, stranded in a nightmarish landscape of encroaching ice and darkness. Endlessly cold, they struggle to survive with poisonous rations, a dwindling coal supply, and ships buckling in the grip of crushing ice. But their real enemy is even more terrifying. There is something out there in the frigid darkness: an unseen predator stalking their ship, a monstrous terror clawing to get in. "The best and most unusual historical novel I have read in years." —Katherine A. Powers, Boston Globe

When Baby Bear hears a noise and fears a monster is near, the whole family gets out of bed and searches the woods to prove that monsters are not real.

Carol Tyler has been a professional (and highly acclaimed) cartoonist for over 20 years, appearing in such venues as

Weirdo, Wimmen's Comix, and Drawn & Quarterly magazine. But over the years her status as a working mother has drastically curtailed her ability to set aside time for her cartooning. Thus each rare new story from her pen has been greeted with hurrahs as well they should be, because she's one of the most skillful, caustic, and emphatic cartoon storytellers of her generation. This new book presents the biggest, richest and most delightful collection of Tyler's work to date featuring many new and previously unpublished works. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.9px Arial; color: #424242}

Zhang Yang was a professional gamer in the first and most fantastic game that revolutionized the world: Godj's Miracle. Jumping off the top floor of a hotel, Zhang Yang seemed as though he was soaring like a phoenix. Little did he know that the end of his life also signified his rise from the ashes!

A mother's search for the son she gave up uncovers terrifying secrets in a Minnesota town in this "masterfully depicted true-crime tale" (Publishers Weekly). In 1962, Jerry Sherwood gave up her newborn son, Dennis, for adoption. Twenty years later, she set out to find him—only to discover he had died before his fourth birthday. The immediate cause was peritonitis, but the coroner had never decided the mode of death,

*writing "deferred" rather than indicate accident, natural causes, or homicide. This he did even though the autopsy photos showed Dennis covered from head to toe in ugly bruises, his clenched fists and twisted facial expression suggesting he had died writhing in pain. Harold and Lois Jurgens, a middle-class, churchgoing couple in picturesque White Bear Lake, Minnesota, had adopted Dennis and five other foster children. To all appearances, they were a normal midwestern family, but Jerry suspected that something sinister had happened in the Jurgens household. She demanded to know the truth about her son's death. Why did authorities dismiss evidence that marked Dennis as an endangered child? Could Lois Jurgens's brother, a local police lieutenant, have interfered in the investigation? And most disturbing of all, why had so many people who'd witnessed Lois's brutal treatment of her children stay silent for so long? Determined to find answers, local detectives and prosecutors rebuilt the case brick by brick, finally exposing the shocking truth behind a nightmare in suburbia. A finalist for the Edgar Award, *A Death in White Bear Lake* is "a distinguished entry in the annals of crime documentary," and a vivid portrait of the all-American town that harbored a sadistic killer (*The Washington Post*).*

It's summer time in White Bear Lake, Minnesota, and ten-year old Spinner and his best buddy Bobber spend their days riding their bikes, swimming, and fishing off the ends of their docks. They do not have a care in the world - until they realize that something is eating the ducklings in the lake. Can the boys work together to find out what the monster is? The Monster of White Bear Lake is a story of friendship and teamwork, packed with fishing adventures and a few lessons about life.

"Blimp, blip, blimp, bloop. Suzy gripped her sheets tightly. Was that noise coming from under her bed?" Helps Children Banish Bedtime Fears So begins Suzy's adventure where she meets Karrit, another child, and one that lives far under her bed. The two children banish their bedtime fears and become best friends by treating each other the way that they want to be treated. A Fear of Monsters is Common A fear of monsters under the bed is common with children of all ages, starting with a vague sense of the unknown with younger toddlers and graduating to perhaps a more solid image in the minds of older children. The Monster on Top of the Bed flips the idea around, like the famous Disney Movie Monsters Inc.,

and bases the story on the concept that it's the monsters that are actually afraid of the children. The Children Model The Golden Rule In this beautifully illustrated book we meet two children--Suzy and Karrit, and we discover that sometimes things are not always what they seem and when the monster fears the child, we come to see a different perspective on misunderstandings and ignorance. We also discover that it is easy to misinterpret the meanings of words and actions, when Karrit explains to Suzy that certain things she says and does, frightens him. Although the words, "The Golden Rule" never appear in the book, the way the two children treat each other as though they would like to be treated enable the two of them to work together to work out their differences. A friendship forms, and a new light is shed upon them both when they realize that maybe they aren't so different from each other after all. A Mantra that Banishes Nighttime Fears When things get scary, both children use Grandmom's mantra, which is highly effective in banishing monsters, " " You're welcome to stay until I say, 'Nay!' Then it's time to go, and you can't say, 'no.' " This is an empowering bedtime story. The multimedia edition contains a link to an .mp4 file that features the same audio tracks in the CD version. Children can listen to the story being read by four narrators who read the story in English, Spanish and Italian. There are page turning sounds to let the child know when to turn the page. There are slight differences between the words in CD version and the Kindle version. Children like the challenge of finding the differences. In addition to reading the story, the multimedia kindle edition also contains bonus material, including an interview with the illustrator, and other stories and poems written by the author. Order Copies For Yourself and Your Friends...It's perfect for three to six-year olds, and six-to-twelve year olds (who are sometimes still afraid of monsters) find the story charming and enjoy reading it to their younger siblings.

Zoo animals from polar bear to walrus make their distinctive sounds for each other, while children imitate the sounds for the zookeeper.

Reproduction of the original: Fast in the Ice by R.M. Ballantyne

Polar bears are creatures of paradox: They are white bears whose skin is black; massive predators who can walk almost silently; Arctic residents whose major problem is not staying warm, but keeping cool. Fully grown they can measure 10 feet and weigh close to 2,000 pounds, but at birth they are just 20 ounces. Creatures that may wander thousands of miles over the course of a year, they begin life in a snowdrift.

Human encounters with these legendary beasts are cause for both excitement and apprehension. Tales throughout history describe the ferocity of polar bear attacks on humans; but human hunting of polar bears has exacted a far larger toll, obliging Arctic nations to try to protect their region's iconic species before it's too late. Now, however, another threat to the polar bears' survival has emerged, one that is steadily removing sea ice and the life it supports. Without this habitat, polar bears cannot exist. The Great White Bear celebrates the story of this unique species. Through a blend of history, both natural and human, through myth and reality and observations both personal and scientific, Kieran Mulvaney masterfully provides a context for readers to consider the polar bear, its history, its life, and its uncertain fate.
