The Classic

Point of View

Night trains have long fascinated us with the possibilities of their private sleeping compartments, gilded dining cars, champagne bars and wealthy travellers.

Authors from Agatha

Online Library The Mystery Of Blue

Train Hercule

Christie to Graham
Poiret & Agatha
Greene have used

night trains to tell tales
of romance, intrigue
and decadence against
a rolling background
of dramatic

landscapes. The reality
could often be as
thrilling: early British
travellers on the
Orient Express were
advised to carry a
revolver (as well as a

teapot). In Night
Trains, Andrew

Martin attempts to
relive the golden age of
the great European
sleeper trains by using
their modern-day
equivalents. This is no
simple matter. The
night trains have fallen
on hard times, and the
services are
disappearing one by
one. But if the Orient

can only be recreated

Christie
by taking three

separate sleepers, the
intriguing characters
and exotic

atmospheres have
survived. Whether the
backdrop is 3am at a
Turkish customs post,
the sun rising over the
Riviera, or the
constant twilight of a
Norwegian summer

night, Martin
rediscovers the
pleasures of a

continent connected by
rail. By tracing the
history of the sleeper
trains, he reveals much
of the recent history of
Europe itself. The
original sleepers
helped break down
national barriers and
unify the continent.
Martin uncovers

modern instances of European unity - and otherwise - as he traverses the continent during 'interesting times', with Brexit looming. Against this tumultuous backdrop, he experiences his own smaller dramas, as he fails to find crucial connecting stations, ponders the mystery of the compartment dog,

deadliest serial killers
in American history.

Between 1898 and
1912, families across
the country were
bludgeoned in their
sleep with the blunt
side of an axe. Some of
these cases—like the

murders—received
national attention. But
most incidents went

almost unnoticed
outside the

communities in which
they occurred. Few
people believed the
crimes were related.
And fewer still would
realize that all of these
families lived within
walking distance to a
train station. When
celebrated true crime
expert Bill James first
learned about these

horrors, he began to

might fit the same

person. Then after
sifting through
