**The data behind a distinct form of racism in online dating**
**The Dating Divide** is the first comprehensive look at "digital-sexual racism," a distinct form of racism that is mediated and amplified through the impersonal and anonymous context of online dating. Drawing on large-scale behavioral data from a mainstream dating website, extensive archival research, and more than seventy-five in-depth interviews with daters of diverse racial backgrounds and sexual identities, Curington, Lundquist, and Lin illustrate how the seemingly open space of the internet interacts with the loss of social inhibition in cyberspace contexts, fostering openly expressed forms of sexual racism that are rarely exposed in face-to-face encounters. The Dating Divide is a fascinating look at how a contemporary conflux of individualization, consumerism, and the proliferation of digital technologies has given rise to a unique form of gendered racism in the era of swiping right—or left. The internet is often heralded as an equalizer, a seemingly level playing field, but the digital world also acts as an extension of and platform for the insidious prejudices and divisive impulses that affect social politics in the "real" world. Shedding light on how every click, swipe, or message can be linked to the history of racism and courtship in the United States, this compelling study uses data to show the racial biases at play in digital dating spaces.

**The #1 New York Times Bestseller “An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives.”** —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of Master of None and one of this generation’s sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it’s wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. “Why did this guy just text me an emoji of a pizza?” “Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos!?” “My girlfriend just got a message from some dude named Nathan. Who’s Nathan? Did he just send her a photo of his penis? Should I check just to be sure?” But the transformation of our romantic lives can’t be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for Modern Romance, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world’s leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we’ve seen before. In Modern Romance, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.

*When Helen Fielding first wrote Bridget Jones’s Diary, charting the life of a 30-something singleton in London in the 1990s, she introduced readers to one of the most beloved characters in modern literature. The book was published in 40 countries, sold more than 15 million copies worldwide, and spawned a best-selling sequel, Bridget Jones: The Edge of Reason. The two books were turned into major blockbuster films starring Renée Zellweger, Hugh Grant and Colin Firth. With her hotly anticipated third instalment, Bridget Jones: Mad About the Boy, Fielding introduces us to a whole new enticing phase of Bridget’s life set in contemporary London, including the challenges of maintaining sex appeal as the years roll by and the nightmare of drunken texting, the skinny jean, the disastrous email cc, total lack of twitter followers, and TVs that need 90 buttons and three remotes to simply turn on. An uproariously funny novel of modern life, Bridget Jones: Mad About the Boy is a triumphant return of our favourite Everywoman.*

*The focus of this book is on the media representations of the use of the Internet in seeking intimate connections–be it a committed relationship, a hook-up, or a community in which to dabble in fringe sexual practices. Popular culture (film, narrative television, the news media, and advertising) present two very distinct pictures of the use of the Internet as related to intimacy. From news reports about victims of online dating, to the presentation of the desperate and dateless, the perverts and the deviants, a distinct frame for the intimacy/Internet connection is negativity. In some examples however, a changing picture is emerging. The ubiquitousness of Internet use today has meant a slow increase in comparatively more positive representations of successful online romances in the news, resulting in more positive-spin advertising and a more even-handed presence of such liaisons in narrative television and film. Both the positive and the negative media representations are categorised and analysed in this book to explore what they reveal about the intersection of gender, sexuality, technology and the changing mores regarding intimacy. Life is full of moments when you don't know how to act or how to handle yourself in front of other people. In these situations, etiquette is vital for keeping your sense of humor and your self-esteem intact. But etiquette is not a behavior that you should just turn on and off. This stuffy French word that translates into getting along with others allows you to put people at ease, make them feel good about a situation, and even improve your reputation. Etiquette For Dummies approaches the subject from a practical point of view, throwing out the rulebook full of long, pointless lists. Instead, it sets up tough social situations and shows you how to navigate through them successfully, charming everyone with your politeness and social grace. This straightforward, no-nonsense guide will let you discover the ins and outs of: Basic behavior for family, friends, relationships, and business Grooming, dressing, and staying healthy Coping with unexpected stuff like sneezing or feeling queasy Maintaining a civilized relationship Making friends and keeping them Building positive relationships at work Communicating effectively This book shows you how to take on these situations and make them pleasant. It also gives you great advice for tipping appropriately in all types of services and setting stellar examples for your kids. Full of useful advice and written in a laid-back, friendly style, Etiquette For Dummies has all the tools you need to face any social situation with politeness and courtesy.*

It seems as though every week there's a new app available on your smartphone promising dates a plenty--just swipe right. A mate, on the other hand, is becoming harder and harder to find. The age-old quest for true love requires more effort than ever before. Let's face it: dating is work. Which, as it happens, is exactly where it began, in the 19th century--as prostitution. InLabor of Love, Moira Weigel dives into the secret history of dating while holding up a mirror to the contemporary dating landscape, revealing why we date the way we do and explaining why it feels so much like work. This isn't a guide to "getting the guy"; there are no ridiculous "rules" to follow inLabor of Love. This is a brilliant, fresh, and utterly original approach to help us understand how dating was invented and, hopefully, lead us closer to the happy ending that it promises.

MOVING FORWARD: But Knowing The Rules to the Game of Love. Are rules and stories with real people in mind. People who love and hate and sometimes even have sex for all the wrong reasons. I wanted my stories to wrench the soul. Open the mind to feel my love, my pain and to teach us to support in the cause and our relationship with each other. Maybe my words might counsel you into coming to grips with anger, fear and pain, thatÖs behind our behavior in our way of living.

¶If online dating can blunt the emotional pain of separation, if adults can afford to be increasingly demanding about what they want from a relationship, the effect of online dating seems positive. But what if it’s also the case that the prospect of finding an ever more compatible mate with the click of a mouse means a future of relationship instability, a paradox of choice that keeps us chasing the illusive bunny around the dating track?¶ It’s the mother of all search problems: how to find a spouse, a mate, a date. The escalating marriage age and declining marriage rate mean we’re spending a greater portion of our lives unattached, searching for love well into our thirties and forties. It’s no wonder that a third of America’s 90 million singles are turning to dating Web sites. Once considered the realm of the lonely and desperate, sites like eHarmony, Match, OkCupid, and Plenty of Fish have been embraced by pretty much every demographic. Thanks to the increasingly efficient algorithms that power these sites, dating has been transformed from a daunting transaction based on scarcity to one in which the possibilities are almost endless. Now anyone—young, old, straight, gay, and even married!—can search for exactly what they want, connect with more people, and get more information about those people than ever before. As journalist Dan Slater shows, online dating is changing society in more profound ways than we imagine. He explores how these new technologies, by altering our perception of what’s possible, are reconditioning our feelings about commitment and challenging the traditional paradigm of adult life. Like the sexual revolution is forcing us to ask new questions about what constitutes Inornall: Why should we settle for someone who falls short of our expectations if there are thousands of other options just a click away? Can commitment thrive in a world of unlimited choice? Can chemistry really be quantified by math geeks? As one of Slater’s subjects wonders, [W]hat’s the etiquette here?¶ Blending history, psychology, and interviews with site creators and users, Slater takes readers behind the scenes of a fascinating business. Dating sites capitalize on our quest for love, but how do their creators’ ideas about profits, morality, and the nature of desire shape the virtual worlds they’ve created for us? Should we trust an industry whose revenue model benefits from our avoiding monogamy? Documenting the untold story of the online-dating industry’s rise from ignominy to ubiquity¶beginning with its early days as [c]omputer dating¶ at Harvard in 1965!¶Slater offers a lively, entertaining, and thought provoking account of how we have, for better and worse, embraced technology in the most intimate aspect of our lives.

**Just as there is junk food, there is junk love. And like junk food, junk love is fast, convenient, attractively packaged, widely available, superficially tasty—and leaves you hungry for more. And both junk food and junk love require enormous amounts of willpower to resist. Social media and online dating sites have become the supermarkets of our relationship lives. You have to wade through rows of cupcakes and potato chips to find the produce aisle, where those relationships grounded in intimacy and trust live—the ones worth your investment. A diet book for romantic relationships, Love Rules first asks women to re-assess the way they think about their relationships, and then helps them use that newfound awareness to navigate their love lives more successfully in this very modern, fast-paced—and often lonely—digital age. In these pages leading media exec and former Editor in Chief of Cosmopolitan and Marie Claire Joanna Coles provides a series of simple guidelines for finding worthwhile love: fifteen rules—love “hacks.” She also explains how to use dating apps effectively to expand real world connections and how to avoid DADD—dating attention—deficit disorder, where the tantalizing promise of someone better appears to be only the next swipe away. Love Rules will enable you to identify what you want in a relationship, when you should pursue it, and how to find it.**

Internet Dating deals primarily with the experiences of UK and Australian daters, examining their online accounts to see what kinds of narratives, norms, emotions and ‘ chemistry ’ shape their dating. Has the emergence and growth of internet dating changed the dating landscape for the better? Most commentators, popular and academic, ask whether online dating is more efficient for individuals than offline dating. We prefer a socio-political perspective. In particular, the book illustrates the extent to which internet dating can advance gender and sexual equality. Drawing on the voices of internet daters themselves, we show that internet dating reveals how social change often arises in the unassuming, everyday and familiar. We also pay attention to often ignored older daters and include consideration of daters in Africa, Scandinavia, South America, Asia and the Middle East. Throughout, we explore the pitfalls and pleasures of men and women daters navigating unconventional directions towards more equitable social relations.

The authors behind the ubiquitous dating bible that launched a worldwide movement are back, accompanied by their daughters, with brand new advice updated for the modern era. How long should I wait to respond to his text message? Can I friend him on Facebook? Why did he ask for my number but never call me? When The Rules was published in 1995, its message was straightforward: be mysterious. But for women looking for love today, it’s not quite so simple. In a world of instant messaging, location check-ins, and status updates, where hook-ups have become the norm and formal one-on-one dates seem a thing of the past, it’s difficult to retain the air of mystery that keeps men interested. Now, with help from their daughters, the original Rules Girls Ellen Fein and Sherrie Schneider share their thoroughly modern, fresh take on dating that will help women in today’s information age create the happy love lives they want and deserve. Whether you’re a 20-something dating for the first time, a 30-something tired of being single, a 40-something giving advice to your daughter, or a

*Modern romance is broken. It's time to flip the script. Apps have transformed dating from a mysterious adventure into a daily chore. Young, single, college-educated women are sick and tired of competing for a shrinking supply of guys. And marriage-material men, long expected to take the lead when it comes to asking women out, are suddenly balking at making the first move, fearing they'll come across as creepy or inappropriate. Society is changing, which means it's time for dating to evolve. Millennial and Gen Z women are more than capable of seeking out what—and who—they want. They're standouts in the classroom and champions on the playing fields. They're leaders in the workplace and trailblazers in city halls, state houses, and Congress. So why would we tell a generation of badass women that they're not allowed to be bold when it comes to finding love? Why should they have to sit back and wait (and wait and wait) for men to find them? In Make Your Move: The New Science of Dating and Why Women Are in Charge, Jon Birger, author of Date-onomics, offers women bold new strategies for finding the one. Backed by research showing that women can win at romance by making the first move with the men of their choice, Birger explains why:*

- *It's better to choose than to be chosen*
- *The "play hard to get" method is not only outdated but grounded in bad science*
- *The first move does not have to be a big move*
- *It's time to log off of dating apps and date men you actually know*
- *The workplace can be a terrific place to meet a long-term romantic partner*
- . . . and more!

*Make Your Move is an honest, solution-based guide to finding love that lasts. If you're tired of playing by old rules, look no further: Make your move and win.*

MOVING FORWARD: But Knowing The Rules to the Game of Love

Conquering the dating market—from an economist’s point of view After more than twenty years, economist Paul Oyer found himself back on the dating scene—but what a difference a few years made. Dating was now dominated by sites like Match.com, eHarmony, and OkCupid. But Oyer had a secret weapon: economics. It turns out that dating sites are no different than the markets Oyer had studied at eBay, and other sites where individuals come together to find a match gave Oyer startling insight into the modern dating scene. The arcane language of economics—search, signaling, adverse selection, cheap talk, statistical discrimination, thick markets, and network externalities—provides a useful guide to finding a mate. Using the ideas that are central to how markets and economics and dating work, Oyer applies these ideas to take advantage of the economics in everyday life, all around you, all the time. For all online daters—and for anyone else swimming in the vast sea of the information economy—this book uses Oyer’s own experiences, and those of millions of others, to help you navigate the key economic concepts that drive the modern age.

The Rules taught a generation of women how to turn their dating misery into marriage success. Dating gurus Ellen Fein and Sherrie Schneider showed millions of women how 'playing hard to get' could help them capture the heart of Mr Right. Ellen and Sherrie are regularly inundated with messages from women wanting to know: how to maintain a good profile on Facebook, the rules for texting, emailing and tweeting, and how to spot cheaters and players. This is the new dating bible for Rules Girls who want to have a good time dating without getting hurt or played.

AN INSTANT NEW YORK TIMES BESTSELLER!! Named a Best Book of 2019 by TIME, Amazon, and The Washington Post A Wired Must-Read Book of Summer “Gretchen McCulloch is the internet’s favorite linguist, and this book is essential reading. Reading her work is like suddenly being able to see the matrix.” —Jonny Sun, author of everyone’s a liebn when ur a liebn too Because Internet is for an over how to punctuate a text message or wondered where memes come from. It’s the perfect book for understanding how the internet is changing the English language, why that’s a good thing, and what our online interactions reveal about who we are. Language is humanity’s most spectacular open-source project, and the internet is making our language change faster and in more interesting ways. Conversations are structured by the shape of our apps and platforms, from the grammar of status updates to the protocols of comments and @replies. Linguistically inventive online communities spread new slang and jargon with dizzying speed. What’s more, social media is a vast laboratory of unedited, unfiltered words where we can watch language evolve in real time. Even the most absurd-looking words behind it. Internet linguist Gretchen McCulloch explores the deep forces that shape human language and influence the way we communicate with one another. She explains how your first social internet experience influences whether you prefer “LOL” or “lol,” why –sparkly tildes– succeeded where centuries of proposals for irony punctuation had failed, what emoji have in common with physical gestures, and how disarranged language of animal memes like lolcats and doggo made them more likely to spread.

INTERNATIONAL BEST SELLER • A smart, sexy, laugh-out-loud romantic comedy about ex-boyfriends, imperfect parents, friends with kids, and a man who disappears the moment he says "I love you"—from the bestselling author of Everything I Know About Love. “An absolute knock-out. Wickedly funny and, at turns, both cynical and sincere... feels like your very favorite friend.” —Taylor Jenkins Reid Dean is not especially bothered that she’s single. She owns her own apartment, she’s about to publish her second book, she has a great relationship with her ex-boyfriend, and enough friends to keep her social calendar full and her hangovers plentiful. And when she downloads a dating app, she does the seemingly impossible: She meets a great guy on her first date. Max is handsome and built like a blond hair and a stable job. But more surprising than anything else, Nina and Max have chemistry. Their conversations are witty and ironic, they both hate sports, they dance together like fools, they happily dig deep into the nuances of crappy music, and they create an entire universe of private jokes and chemical bliss. But when Max ghosts her, Nina is forced to deal with everything she’s been afraid to face. Dementia is getting worse, and so is her mother’s denial of it: her editor hates her new book idea; and her best friend from childhood is icing her out. Funny, tender, and eminently, movingly relatable, Ghosts is a whip-smart tale of relationships and modern life.

*A raw and funny memoir about sex, dating, and relationships in the digital age, intertwined with a brilliant investigation into the challenges to love and intimacy wrought by dating apps, by firebrand New York Times–bestselling author Nancy Jo Sales At forty-nine, famed Vanity Fair writer Nancy Jo Sales was nursing a broken heart and wondering, “How did I wind up alone?” On the advice of a young friend, she downloaded Tinder, then a brand-new dating app. What followed was a raucous ride through the world of online dating. Sales, an award-winning journalist and single mom, became a leading critic of the online dating industry, reporting and writing articles and making her directorial debut with the HBO documentary Swiped: Hooking Up in the Digital Age. Meanwhile, she was dating a series of younger men, eventually falling in love with a man less than half her age. Nothing Personal is Sales’s memoir of coming-of-middle-age in the midst of a new dating revolution. She is unsparingly honest about her own experience of addiction to dating apps and hilarious in her musings about dick pics, sexting, dating FOMO, and more. Does Big Dating really want us to find love, she asks, or just keep on using its apps? Fiercely feminist, Nothing Personal investigates how Big Dating has overwhelmed the landscape of dating, cynically profiting off its users’ deepest needs and desires. Looking back through the history of modern courtship and her own relationships, Sales examines how sexism has always been a factor for women in dating, and asks what the future of courtship will bring, if left to the designs of Silicon Valley’s tech giants—especially in a time of social distancing and a global pandemic, when the rules of romance are once again changing.*

#### MY STORY ON ONLINE DATING APPS

The book profiles my time as an over-40s man engaged with online dating apps, during which period I was stood up, ghosted, verbally abused, propositioned for sex and asked to be a surrogate father to an unborn child. The lessons I learned have been encapsulated in this book for the benefit of men and women engaged with online dating sites and apps such as ‘Tinder’, ‘Bumble’, ‘Hinge’ and others, and who wish to avoid the first date mistakes that I made. STATE OF INTERNET DATE My book also provides an overview of Internet dating’s major issues, including;

- Why you have a less than 20 per cent chance of finding love online.
- Why black women who seek love should never use ‘Tinder’.
- Why all online dating apps should carry a government health warning.
- Why Internet dating apps would prefer that you don’t find love.
- Why 90 per cent of online daters may not actually want a relationship.
