Newcastle United is a colourful football club, the very heart of the city's community and one with a rich history and tradition. One character has become synonymous with the Black 'n' Whites and their famous striped shirts - the centre-forward, the No. 9 hero, the man who has pulled on the 'Shirt of Legends'. Since the club's earliest days, the support between Newcastle's fervent Geordie supporters and United's centre-forward has been one of the great tales of soccer: one full of incident, controversy and fabulous goalscoring feats. Much rests on the shoulders of United's centre-forward. He carries the dreams of thousands and the hopes of a whole Geordie nation. From Peddie, Appltyand and Shepherd to Wee, Hughie Gallacher and the 'Smiling Assassin', Albert Stubbins. Onwards with 'Woe' Jackie Milburn - a legend in himself - Len White, the mighty Wyn Davies and a brash cockney, Malcolm Macdonald - 'Supernac' to all. And including modern-day icons: Andy Cole, Les Ferdinand and Alan Shearer - perhaps the biggest No. 9 hero of them all. They have been a mixed bunch: some tall, lean and fast; some small, tricky and highly skilled.Others have been grateful; a few have roved along the forward line, while there have been robust, aggressive characters on view, too. Some have been masterful in the air, while several struck the ball with terrific power; others have possessed the art of placement and, a few, the ultimate poacher's instinct in front of goal. But all had the same mission: to score goals and, whatever their style, if they donned the centre-forward shirt for Newcastle United, they were treated as gods. Shirt of Legends is about all of those players - the many different characters and personalities in the centre-forward role who have worn Newcastle United's No. 9 shirt since its introduction in 1939.

The noise grew. Everywhere you looked Newcastle fans were on their feet, United, at last, in song. St James' Park was rocking, a noise that carried down from the cathedral at the top of the hill, down through the city. It felt like a celebration. It wasn't. Newcastle -- facing Tottenham Hotspur on the last day of the 2015/16 Premier League season -- had already been relegated. The fervent atmosphere was instead a final call of support for the manager, Rafa Benitez. It was only his tenth game in charge -- not enough time for him to steer Newcastle clear of relegation -- yet the St James' crowd were imploring him to stay. The Spaniard had fallen into the hearts of the people of Tyneside. Spurs -- second in the league before kick-off -- were beaten 5-1. A club was stirring back to life. The job at hand though, was huge: galvanise and resurrect a club and its football obsessed city. He had to strip away years of neglect, breathe life into flawed structures, clear dressing rooms, rebuild belief, attempt to give the people of Newcastle their pride back. Rafa's Way tells the story of the remarkable Championship campaign that followed, the turnaround in the fortunes of Newcastle United and the dramatic promotion. It charts Benitez's overhaul of everything within a troubled club, his impact on its city, and how he immersed himself in a community that persuaded him to stay, and could not bear to see him leave. Rafa's Way talks in-depth to Benitez, about his beliefs and the challenge he faced, to the players, the key men in black and white stripes who made Newcastle United champions, and delves into the very heart of a football club as it emerged from the ashes.

Black and White Knight: How Sir Bobby Robson Made Newcastle United Again is a story of rebirth and redemption. Fractured, disillusioned and second bottom in the Premier League, the Magpies were heading one way under Ruud Gullit: down. The magic of Kevin Keegan's 'Entertainers' era was a distant memory, but in September 1999, Sir Bobby Robson, a son of County Durham, returned home and became a catalyst for change. Talisman Alan Shearer was smiling and scoring, and everyone was dreaming again. Three years later, Newcastle qualified for the Champions League, where they went toe-to-toe with the likes of Inter Milan, Barcelona and Juventus, making history on an amazing journey and playing a brand of football full of energy, verve and attacking intent. A genius in man-management, Sir Bobby's experience and aura gave the club its soul back; Black and White Knight details how he mended divisions and massaged egos to make Newcastle everyone's second favourite team once again.

The Story of Newcastle United's No. 9 Heroes

The magnificent story of a writer's lifelong obsession with his city and its football club. When 5-year-old Michael Chaplin landed in a strange city of ships in the late 1950s, he looked in vain for something that would anchor him to it, make him feel at home. Then, one Saturday afternoon, it came: the roar of a crowd, and a football team to support. Young Michael became an avid Newcastle United fan, and has remained one—if sometimes disenchanted—for over sixty years. In this football memoir with a difference, the celebrated playwright and screenwriter tells the story of his six-decade love affair with the club, each chapter recreating an iconic Newcastle match: the players who graced the game, the managers in the dug-out, and the backdrop outside the stadium—both the changing face of Newcastle, and the ups and downs of Michael's own life and career. This vivid, thoughtful and entertaining book is an absolute must-read for all Newcastle United supporters, and indeed—given that the club is often described as everyone's second favourite—for football fans everywhere...

When Newcastle United crashed out of the FA Cup in Cardiff in April 2005, it was official: the second best-supported club in England and the eleventh richest in the world had completed 50 years without winning a domestic trophy. Since their last success – an FA Cup win in 1955 – no less than thirty-two clubs have won one of the three major prizes in the English game, but not the Magpies.

In that half century, they've employed some of the biggest names in world football, yet most of their fanatical supporters have never seen them win a pot. In 2004, Sir Bobby Robson paid the price for failing to bring the holy grail to the Geordie faithful. And in 2006, Graeme Souness was next to go, the 17th manager to try – and fail – to win one of English football's glittering prizes for the longest suffering fans in the land. In Newcastle United: Fifty Years of Hurt, Ged Clarke examines this extraordinary football phenomenon with all the humour you would expect from a disappointed but dedicated United fan. He chronicles the decades of disaster and talks to Newcastle legends such as Peter Beardsley, Les Ferdinand, Jack Charlton, Bob Moncur and Malcolm Macdonald in a bid to discover an explanation for the longest losing streak in top-class football.

The History of Newcastle United Football Club

Much More Than Just a Football Club

How Sir Bobby Robson Made Newcastle United Again

As Newcastle United Football Club completes fifty years without a major trophy, The Amazing Journey – How Newcastle United Conquered Europe takes a fresh, original look at the Magpies' remarkable achievement of winning the Inter-Cities Fairs Cup in 1969. Sports journalist and translator Matthew Watson-Broughton travelled to eight European countries to interview dozens of footballers who played in this campaign, either for the Black-and-Whites or for one of their six opponents, all of which were expected to beat Joe Harvey's team but were ultimately shattered by Geordie grit, unstoppable performances and spectacular goals. That Newcastle's first-round victims Feyenoord were good enough to become champions of Europe the following year shows the scale of the challenge Harvey's heroes had to overcome. As well as using 100 evocative photos to illustrate each step of the campaign, Matthew tracked down and met many fans, journalists, all of Newcastle's former stars and at least three players from each opposing team, a number of whom were real, international stars. Now, the locally-born author reveals their many fabulous, previously-unpublished stories and opinions in this definitive account of Newcastle United's least-likely but perhaps greatest-ever triumph.

There has been an explosion in the quantity of sports history literature published in recent years, making it increasingly difficult to keep abreast of developments. The annual number of publications has increased from around 250 to 1,000 a year over the last decade. This is due in part to the fact that during the late 1980s and 90s, many clubs, leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements. It is also the result of the growing popularity and realisation of the importance of sport history research within academe. This international bibliography of books, articles, conference proceedings and essays in the English language is a one-stop for the sports historian to know what is new.

With the large number of troops stationed in and around the area and its position as a major industrial city, which focused on armaments production, shipbuilding and heavy engineering, the realities of the war were always prominently felt in Newcastle-upon-Tyne. The city played a key role in the nation's war effort, as it was a key port and the nation's major exporter of coal a vital link in keeping the war effort going.The proud tradition of military service in the region was reflected in the huge numbers of Newcastle men and women who came forward to serve in the military or in roles such as nursing. The city was the recruitment centre and driving force for the formation of numerous 'Pals' Battalions and the Northumberland Fusiliers, which raised more battalions than any other regiment during the war.For many of those left behind the war was a time of fear and hardship. This book documents the struggle that many suffering families faced in coping with rising wartime prices, longer working hours, endless worry, wartime policies and severe shortages. These issues are brought to light throughout, with a view to how they affected the people of Newcastle and how, with audacity and courage, Newcastle's citizens overcame them. By the end of the war so many Newcastle men had been killed, and others faced an uncertain future in a shattered post-war economy. Despite this, the workers of Newcastle continued to provide incredible charitable support until the end of the war in addition to their already momentous efforts. These efforts are considered greatly in this enlightening book, which is a testimony to the bravery, self-sacrifice and determination of the people of Newcastle-upon-Tyne during the Great War.

This is the full story, unofficial and uncensored, of one of the greatest football clubs in the country. From its birth in the 1890s to its rebirth in the 1990s and up to season 2003-4, The Toon tells of a small soccer club, long in the shadow of an enormous rival, which grew to eclipse that rival - and every other club in Great Britain. Roger Hutchinson brings to life the sensational early successes of Newcastle United, recreating the great Anglo-Scottish team which dominated the Football League before the First World War. He vividly describes the helter-skelter attacking sides of the 1930s and the Cup giants of the 1950s, and gives us the European conquerors of the 1960s and the squads of the 1970s and '80s, before showing us how today's cosmopolitan side of title-chasing internationals was built.This lively, hard-hitting book portrays the brilliant management of such legends as Frank Watt and takes us down through the thrilling decades right up to the reign of Sir Bobby Robson. In its pages we see the educated play of Andy Aitken and Colin Veitch; we watch as the fast and furious centre-forward play of Jock Peddie paves the way for the era of the great Hughie Gallacher and the unique Jackie Milburn. It assesses the merits of all of their heirs, from Keegan to Beardsley, from Macdonald to Shearer, from Moncur to Yeger. Exploring and explaining the lean years as well as the successful decades, The Toon exposes the bad managers, incompetent directors and players who were unworthy of the black and white stripes. It takes an unflinching look at the lost opportunities and the Geordie footballers who went missing. But it also offers us the geniuses, the household names, the men who have lit up Tyneside and the world beyond in a hundred-year sequence of unforgettable League and Cup campaigns. Most of all, The Toon looks from the past towards a glorious future.

Shortlisted for the William Hill Sports Book of the Year Award The Sunday Times Sports Book of the Year The Times Sports Book of the Year Telegraph Football Book of the Year 'Ferris's wonderful memoir represents a twin triumph. He has endured every kind of setback in life but has invariably reinvented himself; and his writing is a pure pleasure.' The Sunday Times 'Enough depth and humanity to make your average football autobiography look like a Ladybird book.' Telegraph 'A masterpiece of the genre' Brian McNally 'Football memoirs rarely produce great literature but Ferris's The Boy on the Shed is a glistering exception.' Guardian 'Fascinating and stylishly told.' David Walsh, The Sunday Times The Boy on the Shed is a story of love and fate. At 16, Paul Ferris becomes Newcastle United's youngest-ever first-teamer. Like many a tricky winger from Northern Ireland, he is hailed as 'the new George Best'. As a player and later a physio and member of the Magpies' managerial team, Paul's career acquaints him not only with Kevin Keegan, Kenny Dalglish and Bobby Robson, Ruud Gullit, Paul Gascoigne and Alan Shearer but also with injury, insecurity and disappointment. Yet this autobiography is more than a tale of the vagaries of sporting fortune. It begins during 'The Troubles' in a working-class Catholic family in the Protestant town of Lisburn, near Belfast. After a childhood scarred by his mother's illness and sectarian hatred, Paul meets the love of his life, his future wife Geraldine. Talented and carefree on the pitch, shy and anxious off it, he earns a tilt at stardom. His first spell at Newcastle turns sour, as does his return as a physio, although obtaining a Masters degree shows him what he could achieve away from football. When Paul qualifies as a barrister, a career in Law beckons. Instead, a craving to prove himself in the game draws him back to St James' Park as part of Shearer's management triumvirate - with unfortunate consequences. Written with brutal candour, dark humour and consummate style, The Boy on the Shed is a riveting and moving account of a life less ordinary
