*Sometimes, just sometimes, it takes breast cancer to convince a seemingly ordinary woman to discover her extraordinariness, her mission in life. A highly inspiring and motivating book –based on real-life cases – that enables women to fight breast cancer by putting mind over body... A disease is nothing but your body’s signal to you to transform your lifestyle, your thought processes and your approach to life. Breast cancer is one such disease that can be conquered if you do not get overwhelmed by apprehensions and uncertainty. The author presents ten ordinary women who appear extraordinary because they refused to succumb to breast cancer. They drew upon their resources of courage, determination and perseverance to defeat this dreaded scourge. Despite the odds stacked against them, they not only succeeded in getting cured but also became the source of inspiration for many other women afflicted by breast cancer. The author (whose mother overcame breast cancer) presents, apart from the conventional treatment (including surgery, chemotherapy and radiation), complementary therapies (such as yoga, meditation, reiki and pranic healing) as well, which can go a long way in dealing positively with the after-effects of breast cancer. After reading this book, you will feel confident enough to tackle breast cancer head-on or enable others to do so!*

*Set against the backdrop of a lush and exotic Greece, The Names is considered the book which began to drive “sharply upward the size of its readership” (Los Angeles Times Book Review). Among the cast of DeLillo’s bizarre yet fully realized characters in The Names are Kathryn, the narrator’s estranged wife; their son, the six-year-old novelist; Owen, the scientist; and the neurotic narrator obsessed with his own neuroses. A thriller, a mystery, and still a moving examination of family, loss, and the amorphous and magical potential of language itself. The Names stands with any of DeLillo’s more recent and highly acclaimed works. “The Names not only accurately reflects a portion of our contemporary world but, more importantly, creates an original world of its own.”–Chicago Sun-Times “DeLillo sifts experience through simultaneous grids of science and poetry, analysis and clear sight, to make a high-wire prose that is voluptuously stark.”--Village Voice Literary Supplement “DeLillo verbally examines every state of consciousness from eroticism to tourism, from the idea of America as conceived by the rest of the world to the idea of the rest of the world as conceived by America, from mysticism to fanaticism.”--New York Times*

*The common language that the people of the world have been seeking is found in water crystals. Water speaks for what is in our mind. Water awakens the subconscious memory in each person. . . . I now know why water is indispensable to the phenomenon of life, and why alternative therapies exist and why they’re effective. Water helped me understand religion and prayer and gave me a clue to understanding the nature of energy. It helped me understand the relationship between humanity and the cosmos. It gave me a clue to help me understand what dimensionality is. I could come one step closer to understanding the eternal theme of humanity that asks where we come from, why we are here, and what happens when we die. Thus, for the release of this, the third volume in my series of The Message from Water, I decided to choose the word the most urgently needs at present as a theme. That is, of course, the need to eliminate war and terrorism throughout the world. The theme I have chosen is prayer. When I thought about it more deeply, I realized that prayer is most effectively sent when each person in the world raises their energy of love by imagining a scene where the peoples of the world are living in peace. I’ve been taught this through the process of asking water many questions. For this reason, the title of this book is Love Thyself. First you must shine with positive, high-spirited vibrations, and be full of love. In order to do that, I think it’s important to love, thank, and respect yourself. If that’s the case, then each of those vibrations will be sent out into the world and the cosmos, and the great sympathy of that harmonic vibration will wrap our planet in waves of love that serve to cherish our Heaven-granted lives. This is the message from water.*

When unspeakable loss, devastation, and tragedy hit in quick succession—where will you go and who will you run to? April Kathernan-Redgrave is the surviving widow of fallen San Jose Police Motors Officer Michael J. Kathernan, who was struck by another vehicle in 2016. Six months later, their dream home was flooded during the 2017 winter storms in Hollister, California—not once but five times—destroying their house and forcing April and her two sons to rely on the kindness of friends, community, and family to pick up the pieces. Through Hell and High Water chronicles unimaginable tragedy, loss, heartbreak, and loneliness, yet also how God faithfully brought her family through the other side of a tunnel where once there was no light to be seen. Told with openness, transparency, and humor too, this is a story of redemption, courage, strength, forgiveness, and blessing, as God began to make all things new in ways she could never have imagined. Though we may never understand why God allowed these tragedies to happen to the Kathernams, Through Hell and High Water shows He has been and will always be in control, even down to the smallest detail. God’s love and purpose is still shining brightly in April, as she shares her beauty-from-ashes, redemptive story to encourage others, honor her husband in heaven, and glorify all God has done in her life. This book speaks to the heart of the grieving, law enforcement families, divorced or blended families, or anyone who has experienced loss and is struggling to find hope in a broken life. May you find encouragement, strength, and purpose through April’s story, God’s story.

Life after his deployment with Army Special Forces was rough for Alex. His ex-wife thought he needed to stop disappointing their daughter, and she was right. He would try harder. With six hours before his little girl’s fourth birthday party, he observed that the wall he’d been obsessing over in his basement was too short. Plenty of time to tear out a panel and look behind it. He found a brick wall. Behind that was another just like the first, and he still had time. When the second wall came down, Alex stood and stared at the shining doorway. Next to it, held up by a knife, was a note with a warning which he didn’t heed. He is transported to a future unlike anything we’ve imagined, and Alex’s fight to get back home becomes an epic struggle.
