

The Revenge Encyclopaedia

This comprehensive volume is an essential reference that contains over 3,000 alphabetized definitions of glassware, colors, processes, materials, forms, decorative styles, pattern motifs, noted artisans, companies, and designers, from antiquity to the present. It includes highly technical jargon and common terminology. Cross-referencing between related subjects provides an extensive overview of specific glass-related topics.

The Encyclopaedia of Mass Murder is a remarkable, revelatory exploration of the world’s worst cases of mass murder. This comprehensive guide has been recently revised and updated for its U.S. debut from two true-crime experts. From this chilling collection, a significantly consistent pattern emerges of the person who commits mass murder: almost always male, a loner lacking in social skills, unable to form stable relationships. Bearing a grudge against society in general or blaming certain individuals in particular, he seeks revenge in the most extreme way. Among the 200 notorious cases profiled are Timothy McVeigh, responsible for the deaths of 168 people in the Oklahoma City bombing, Eric Harris and Dylan Klebold, two heavily armed students who opened fire at Columbine High School, killing 13 students, and Brenda Spencer, a rare instance of a female mass murderer, who shot dead eleven junior high classmates “because,” she said, “I don’t like Mondays.” Eight pages of black-and-white photographs are included.

A detective shares his recorded collection of strange and funny criminal cases with his friends, changing names and places to protect the innocent.

Watch out! The Master Trickster is back with over 140 mischievous tac-tics custom-designed for that special someone who has made your life miserable. This revenge manual shows how to use technology, manure, newspapers and more to help you savor your vengeance! For entertainment only!

Celebrated author Nancy Pothette offers a complete mystery literature guide for primary, intermediate, and middle school mysteries. • Offers step-by-step guides for using mysteries in the classroom, including more than 200 mystery booktalks • Provides lists of the Edgar Allan Poe Junior Mystery Award winners from 1979 to 2008 • Ties to the National Standards in Reading, Language Arts, and Social Studies

Now expanded and updated, this authorized companion to Kurt Vonnegut's novels, stories, essays, and plays is the most comprehensive and definitive edition to date. Over the course of five decades, Kurt Vonnegut created a complex and interconnected web of characters, settings, and concepts. The Vonnegut Encyclopedia is an exhaustive guide to this beloved author's world, organized in a handy A-to-Z format. The first edition of this book covered Vonnegut's work through 1991. This new and updated edition encompasses his writing through his death in 2007. Marc Leeds, co-founder and founding president of the Kurt Vonnegut Society and a longtime personal friend of the author's, has devoted more than twenty-five years of his life to cataloging the Vonnegut cosmos—from the birthplace of Kilgore Trout (Vonnegut's sci-fi writing alter ego) to the municipal landmarks of Midland City (the midwestern metropolis that is the setting for Vonnegut's 1973 masterpiece Breakfast of Champions). The Vonnegut Encyclopedia identifies every major and minor Vonnegut character from Celia Aamons to Zog, as well as recurring images and relevant themes from all of Vonnegut's works, including lesser-known gems like his revisionist libretto for Stravinsky's opera L'Histoire du soldat and his 1980 children's book Moon Sun Star. Leeds provides expert notes explaining the significance of many items, but relies primarily on extended quotations from Vonnegut himself. A work of impressive scholarship in an eminently browsable package, this encyclopedia reveals countless connections readers may never have thought of on their own. A rarity among authors of serious fiction, Kurt Vonnegut has always inspired something like obsession in his most dedicated fans. The Vonnegut Encyclopedia is an invaluable resource for readers wishing to revisit his fictional universe—and those about to explore it for the first time. Praise for The Vonnegut Encyclopedia "An essential collection for fans of the singular satirist."—San Francisco Chronicle "Indispensable."—Publishers Weekly "If you're somebody who has read one Kurt Vonnegut book then there's a chance you've read them all. For the devout reader of Vonnegut there's a voracious sense of completism. And, Marc Leeds and his new [The Vonnegut] Encyclopedia are here to guide you through it all. Just don't blame him if you become unstuck in time while you're reading."—Inverse "Vonnegut enthusiasts will be delighted with Leeds's exhaustive, almost obsessive, treatment of the characters, places, events, and tantalizingly mysterious references for which Vonnegut's five-decade writing career is celebrated. . . . A wonderful and beautifully designed reference source."—Booklist (starred review) Leeds's scholarship and genuine love for his subject matter render this encyclopedia a treasure trove for Vonnegut readers."—The Nameless Zine

"Sing a Song of Solitude" by Nancy Pothette—The Daily Beast

NEW YORK TIMES BESTSELLER • In this provocative, startling book, Robert D. Kaplan, the bestselling author of Monsoon and Balkan Ghosts, offers a revelatory new prism through which to view global upheavals and to understand what lies ahead for continents and countries around the world. Bestselling author Robert D. Kaplan builds on the insights, discoveries, and theories of great geographers and geopolitical thinkers of the recent and distant past to look back at critical pivots in history and then to look forward at the evolving global scene. Kaplan traces the history of the world's hot spots by examining their climates, topographies, and proximities to other embattled lands. He then applies the lessons learned to the present crises in Europe, Russia, China, the Indian Subcontinent, Turkey, Iran, and the Arab Middle East. The result is a holistic interpretation of the next cycle of conflict throughout Eurasia, a visionary glimpse into a future that can be understood only in the context of temperature, land allotment, and other physical certainties. A brilliant rebuttal to thinkers who suggest that globalism will trump geography, this indispensable work shows how timeless truths and natural facts can help prevent this century's looming cataclysms. Praise for The Revenge of Geography "[A]mbitious and challenging new book. . . [The Revenge of Geography] displays a formidable grasp of contemporary world politics and serves as a powerful reminder that it has been the planet's geophysical configurations, as much as the flow of competing religions and ideologies, that have shaped human conflicts, past and present."—Malise Ruthven, The New York Review of Books "Robert D. Kaplan, the world-traveling reporter and intellectual whose fourteen books constitute a bedrock of penetrating exposition and analysis on the post-Cold War world. . . strips away much of the cant that suffuses public discourse these days on global developments and gets to a fundamental reality: that geography remains today, as it has been throughout history, one of the most powerful drivers of world events."—The National Interest "Kaplan plunges into a planetary review that is often thrilling in its sheer scale. . . encyclopedic."—The New Yorker [The Revenge of Geography] serves the facts straight up. . . Kaplan's realism and willingness to face hard facts make The Revenge of Geography a valuable antidote to the feel-good manifestoes that often misrepresent us as the enemy."—The Daily Beast

An A to Z Encyclopedia to the Cinema of the Fantastic, Or, Is There a Mad Doctor in the House? Narcissistic Injury, Rage, and Retaliation

Gender in the Modern Horror Film - Updated Edition

Why Things Bite Back

The Atari 2600 Encyclopedia

Fiction and Series Books that Boys Will Love

Soldier of Fortune

This is the mother of all revenge books! You'd have to buy more than 25 books to get all the wit and wisdom contained in this compilation from the best of Paladin's revenge books. Don't be fooled by cheap imitators that claim to know how to get even. Paladin is still your revenge source when you need to even the score with nosy neighbors, bungling bureaucrats, snarly clerks or other pests. For entertainment purposes only.

Revenge: Narcissistic Injury, Rage, and Retaliation addresses the ubiquitous human wish to take revenge and settle scores. Featuring the contributions of eleven distinguished mental health professionals, it offers a panoramic and yet deep perspective on the real or imagined narcissistic injury that often underlies fantasies of revenge and the behavioral trait of vindictiveness. It describes various types of revenge and introduces the concept of a 'good-enough revenge.' Deftly blending psychoanalysis, etiology, religious studies, literary criticism, and clinical experience, the book goes a long way to enhance empathy with patients struggling with hurt, pain, and desires to get even with their tormentors. This volume is of great clinical value indeed!

In this six volume set, every game gets the attention it deserves, with scans, screenshots, as well as a lengthy writeup. Each entry is done in a casual, reader friendly tone that both informs and entertains. The Atari 2600 is the system that gave a lot of us our introduction to video games, and this book series aims to help preserve the memory of the games that made this system what it was. Volume 4 Covers Mines of Minos to Revenge of the Beefsteak Tomatoes

Want to identify fiction books that boys in grades three through nine will find irresistible? This guide reveals dozens of worthwhile recommendations in categories ranging from adventure stories and sports novels to horror, humorous, and science fiction books.

Explores the irony of progress in technology, including how advances in medicine, mechanics, transportation, and computers have had natural regressive consequences for society and the economy

The word Gothic has connotations of violence and grotesqueness. The popular Gothic elements are blood and gore, unnatural and supernatural occurrences, eerie passages, mystery, haunted castles, ghosts, perambulating skeletons, numerous death in a gory manner, Byronic love, passion and revenge. As Virginia Woolf rightly calls them, they are “the strange human need for feeling afraid.” It is the Hyde in every Jekyll that makes one take to the gothic. The British Revenge Tragedies, embedded with these elements, seek to reformer the gothic genre. In The Jew of Malta, we find the barbaric, scheming Machiavellian Barabas that plots the evil actions in the play that leads to mass graves and, eventually, himself being burned alive in a cauldron. In the Spanish Tragedy, Andrea's ghost and Revenge: discovery of the mangled body of Horatio and the blood-stained handkerchief; letter written with blood and Hieronimo cutting out his tongue are the major Gothic elements. In Hamlet, the ghost of Hamlet's father; the violent stabbing of Polonius; the grave digger's eulogizing death and the introduction of Yorick's skull never fail in creating chills down the spine of any reader. Ian Jack observes on Webster's plays that The White Devil and The Duchess of Malfi, have no other purpose other than making the audience's flesh creep: Thus, gothic as a genre, has been strongly haunting literature and would still continue to haunt, not only literature but also life.

Ever been wronged by somebody you can't strike back at? Being hassled by an obnoxious bureaucrat who has the law on his side, for example? The books in this section will show you a multitude of ways that you can get even with anybody and remain anonymous. We must warn you these books are sold for entertainment purposes only! There are a lot of jerks in the world who need to be taught a lesson. The problem is, how to get to them without causing yourself a lot of trouble? The answer is in this book. More books are available for purchase.

Technology and the Revenge of Unintended Consequences

MEIN KAMPF is the autobiography of Adolf Hitler gives detailed insight into the mission and vision of Adolf Hitler that shook the world. This book is the merger of two volumes. The first volume of MEIN KAMPF was written while the author was imprisoned in a Bavarian fortress. The book deals with events which brought the author into this blight. It was the hour of Germany's deepest humiliation, when Napoleon has dismembered the old German Empire and French soldiers occupy almost the whole of Germany. The books narrates how Hitler was arrested with several of his comrades and imprisoned in the fortress of Landsberg on the river Lech. During this period only the author wrote the first volume of MEIN KAMPF. The Second volume of MEIN KAMPF was written after release of Hitler from prison and it was published after the French had left the Ruhr, the tramp of the invading armies still echoed in German ears and the terrible ravages had plunged the land into a state of social and economic Chaos. The beauty of the book is, MEIN KAMPF is an historical document which bears the imprint of its own time. Moreover, Hitler has declared that his acts and 'public statements' constitute a partial revision of his book and are to be taken as such. Also, the author has translated Hitler's ideal, the Volkischer Staat, as the People's State. The author has tried his best making German Vocabulary easy to understand. You will never be satisfied until you have read through the whole book. A must read book, which is one of the most widely circulated and read books worldwide.

Revenge Drama in European Renaissance and Japanese Theatre is a collection of essays that both explores the tradition of revenge drama in Japan and compares that tradition with that in European Renaissance drama. Why are the two great plays of each tradition, plays regarded as defining their nations and eras, Kanadehon Chushingura and Hamlet, both revenge plays? What do the revenge dramas of Europe and Japan tell us about the periods that produced them and how have they been modernized to speak to contemporary audiences? By interrogating the manifestation of evil women, ghosts, satire, parody, and censorship, contributors such as Leonard Pronko, J. Thomas Rimer, Carol Sorgenfrei, Laurence Kominz explore these issues.

A long, long, time ago, in a galaxy far, far, away...The Emperor has been dead for a little over 25 years, Grand Admiral Thrawn for 20 years. The forces of the Galactic Republic are in a truce with the Empire, a shadow of its past might. Since the end of the rebellion, the Galactic Republic as constantly striven to outwit, outrun and outgun the Empire. Now, they seem to be winning and the balance of power appears to be returning in the Republic's favor. Yet, unbeknownst to Galactic Republic forces, the Empire plots and prepares another offensive. Under the powerful leadership of a student of Grand Admiral Thrawn and of an Imperial Bastard, the Empire is not yet destroyed and plans revenge against the Rebellion .

The "Encyclopedia Covers the genre from 1920 to 1994. The genre, however, can be very confusing: films often have several titles, and many of the stars have more than one pseudonym. In an effort to clarify some of the confusion, the authors have included all the information available to them on almost 3,300 films. Each entry includes a listing of the production company, the cast and crew, distributors, running times, reviews with star ratings whenever possible, and alternate film titles. A list of film series and one of the stars' pseudonyms, in addition to a 7,900 name index, are also included. Illustrated.

Gothic in Revenge Tragedies

Zombies are a cautionary fable of humankind's most universally cherished ideal--life after death. Often ragged, unkempt, ill-spoken, rotting individuals, zombies (or the post-dead) seem socially awkward in comparison to the more popular and more aristocratic, undead, like Count Dracula and his peers. And so, the humble zombie remains, for the most part, unappreciated and unacknowledged--until now. No longer will films devoted to them be buried in the last pages of horror movie guides. The exhumation of zombie films from obscurity is accomplished in terrifying detail in The Zombie Movie Encyclopedia. The first exhaustive overview of the subject, this book evaluates over 200 movies from 16 countries over a 65-year period starting from the early 1930s. It mostly treats feature-length films, covering everything from large studio productions to backyard videography, but also touches on memorable episodes of television series and miscellaneous shorts. Lengthy entries point out interesting or innovative features of the zombie portrayal in each movie, while an introduction traces the evolution of the genre and interprets the broader significance of the zombie in contemporary Western mythology. Productions credits, a brief plot summary, and alternate titles accompany each entry.

"A love of green may be a human universal. Deepening the palette of green scholarship, Bron Taylor proves remarkably to be both an encyclopedist and a visionary."--Jonathan Benthall, author of Returning to Religion: Why a Secular Age is Haunted by Faith "This important book provides insight into how a profound sense of relation to nature offers many in the modern world a vehicle for attaining a spiritual wholeness akin to what has been historically associated with established religion. In this sense, Dark Green Religion offers both understanding and hope for a world struggling for meaning and purpose beyond the isolation of the material here and now."--Stephen Kellert, Yale University School of Forestry and Environmental Studies "In this thought-provoking volume, Bron Taylor explores the seemingly boundless efforts by human beings to understand the nature of life and our place in the universe. Examining in depth the ways in which influential philosophers and naturalists have viewed this relationship, Taylor contributes to the further development of thought in this critically important area, where our depth of understanding will play a critical role in our survival."--Peter H. Raven, President, Missouri Botanical Garden "Carefully researched, strongly argued, originally conceived, and very well executed, this book is a vital contribution on a subject of immense religious, political, and environmental importance. It's also a great read."--Roger S. Gottlieb, author of A Greener Faith: Religious Environmentalism and our Planet's Future "A fascinating analysis of our emotional and spiritual relationship to nature. Whether you call it dark green religion or something else, Bron Taylor takes us through our spiritual relationship with our planet, its ecosystems and evolution, in an enlightened and completely undogmatic manner."--Dr. Claude Martin, Former Director General, World Wildlife Fund "An excellent collection of guideposts for perplexed students and scholars about the relationships of nature religions, spirituality, animism, pantheism, deep ecology,

Gaia, and land ethics--and for the environmentalist seeking to make the world a better place through green religion as a social force."--Fikret Berkes, author of Sacred Ecology: Traditional Ecological Knowledge and Resource Management "Dark Green Religion shows conclusively how nature has inspired a growing religious movement on the planet, contesting the long reign of many older faiths. Taylor expertly guides us through an exciting array of thinkers, past and present, who have embraced, in part or whole, the new religion. I was thoroughly convinced that this movement has indeed become a major force on Earth, with great potential consequences for our environmental ethics."--Donald Worster, University of Kansas "In this exceptionally interesting and informative book, Bron Taylor has harvested the fruits of years of pioneering research that amounts to a new field in religious studies: the study of how religious/spiritual themes show up in the work of people concerned about nature in many diverse ways. Taylor persuasively argues that appreciation of nature's sacred or spiritual dimension both informs and motivates the work of individuals ranging from radical environmentalists and surfers, to eco-tourism leaders and museum curators. I highly recommend this book for everyone interested learning more about the surprising extent to which religious/spiritual influences many of those who work to protect, to exhibit, or to represent the natural world."--Michael E. Zimmerman, Director, Center for Humanities and the Arts, University of Colorado at Boulder

Encyclopedia Brown has an uncanny knack for trivia. With his unconventional knowledge, he solves mysteries for the neighborhood kids through his own detective agency. But his dad also happens to be the chief of the Idaville police department, and every night around the dinner table, Encyclopedia helps him solve some of the most baffling crimes. With ten confounding mysteries in each book, not only does Encyclopedia have a chance to solve them, but readers are given all the clues as well and can chime in with their own solutions.

From its first publication in 1992, Men, Women, and Chain Saws has offered a groundbreaking perspective on the creativity and influence of horror cinema since the mid-1970s. Investigating the popularity of the low-budget tradition, Carol Clover looks in particular at slasher, occult, and rape-revenge films. Although such movies have been traditionally understood as offering only sadistic pleasures to their mostly male audiences, Clover demonstrates that they align spectators not with the male tormentor, but with the females tormented—notably the slasher movie's "final girls"—as they endure fear and degradation before rising to save themselves. The lesson was not lost on the mainstream industry, which was soon turning out the formula in well-made thrillers. Including a new preface by the author, this Princeton Classics edition is a definitive work that has found an avid readership from students of film theory to major Hollywood filmmakers.

From aerial survey to zoology, Part I of this two-part encyclopedia covers all aspects of underwater archeology, treasure hunting and salvaging. For example, entries are included for different types of artifacts, notable treasure hunters, the various salvaging equipment, and techniques in mapping and excavating. Part II covers the shipwrecks themselves, dividing them into 13 geographical categories. Beginning with the northernmost category (Canada) and ending with the southernmost (South America), every known shipwreck—both identified and unidentified--receives an entry in alphabetical order under its appropriate geographical category. Entries are by name, such as Andrea Gall, Titanic, and Queen Ann's Revenge. Unidentified is used when a shipwreck's name remains unknown. Entries give the nationality (e.g., Spanish, British, American), type (schooner, frigate, brig are three), function (examples: slave transportation, piracy, fishing), location and history of the shipwreck.
